By referen
official vote elsew
in to-days issue, it w
that St. Mary's county
full accord with the sentim
expressed by the nation a
gives a proportionate republican
majority. Mr. Mudd's majority
in the county is 801. The Nation
has registered its most emphatic
condemnation of autocracy and
the Wilson League of Nations,
and buried beneath an avalanche
of 6,000,000 all Wilsonian princi-
ple, and declared itself unmis-
takably "America for Ameri-
cans" with no entangling allian-
ces with foreign nations.

Religious.

essential to continued farm prosperity, tractors within the reach of every farmer, ar- made whereby you can purchase the Titan 10-20 ment terms. This new plan is temporary, to relieve usual financial situation, and is therefore subject to with- time. Ask for details.

Get Benefit of Lower Prices

e is nothing to justify a lower price on Titan 10-20 for the coming year, e glad to give you the benefit of any downward readjustment the next six may bring. As your dealer we appreciate your continued patronage and uard your interests. Therefore, with every Titan 10-20 tractor purchased us between now and May 1, 1921, we will give our written guarantee that he International Harvester Company of America reduces its price on Titan 10-20 ractors on or before May 1, 1921, we will refund the purchaser the amount of such reduction.

Titan is the Biggest Value You Can Find in the Tractor Market

From the day the first Titan 10-20 was placed on the market, it has been the leading three-plow tractor of the world. Over seventy million dollars have been invested by farmers in Titan 10-20 tractors. No other three-plow tractor has even approached this record. Such a record could not possibly have been achieved, nor could the Titan have held its place at the top of the list, if the genuine merit of the tractor had not deserved it.

Farmers over the United States and the world have demanded and bought tens of thousands of Titans and are being served faithfully by them year after year.

Titan price is at rock-bottom for Titan quality and value. It has always been held at low point by unbroken quantity production and factory economies. And if that price is lowered by next May, we will hand you a check for the difference at once.

You Need Power—You Lose by Waiting
