Entered at the Postoffice at Westminster, Md., as Second-class matter.

SATURDAY, SEPTEMBER 3, 1898.

REPUBLICAN TICKET.

FOR CONGRESS,

WILLIAM B. BAKER,

OF HARFORD COUNTY.

Election Tuesday, Nov. 8th, 1898.

Hon. Wm. B. Baker, who was renominated by the Republicans of the Second Congressional District of Maryland, on Thursday, has made a record as a Representative in Congress which his political enemies will assail in vain. The Republicans are warranted in appealing to the voters of the district to send him back to Congress for a third term, by a majority even greater than the phenomenal one by which he was re-elected two years ago.

Carroll county's tax rate is still the lowest in the State, 45 cents on $100, but Carroll county property is assessed pretty well up to its value. At some future time we may make a comparison on this line at some length. Just now, however, attention is called to Frederick county. While Carroll county, by the recent assessment added about a million of dollars to the taxable basis, Frederick decreased about four millions, so that the latter county, with a much larger population, greater landed property and a city of nearly ten thousand inhabitants, has an assessment not more than twenty per cent. greater than Carroll. Her tax rate of 84 cents, which also includes the road taxes, is not much more burdensome than that of Carroll.

RUSSIAN DIPLOMACY.

The Czar of Russia has suggested disarmament as a wise policy to be pursued by the great European Powers, the maintenance of large standing armies and powerful navies being a constant strain upon their finances. The proposition has not been received with general favor, because, it is said, of the existence of great jealousy among European nations. This may be the cause of the want of sympathy in the Czar's suggestion, but it is more than probable that distrust of Russia's motives is at the bottom of it. The Czar is pushing his schemes for territorial aggrandizement in the far East, and has outmanouvered Great Britain in China and circumvented the plans of Lord Salisbury for the development of English trade with the Celestial Empire. So potent has Russian influence and power become in the Flowery Kingdom, that a valuable concession to English enterprise has been cancelled. But the British Lion is at last aroused and the Chinese authorities have been notified that the original concession will be enforced, if necessary, by the employment of the military. This means a war with Russia, unless that country retreats from the position heretofore assumed. It is pretty clear that the Czar is not ready to engage in a conflict of arms with the country having the most powerful navy in the world, and hence he seeks by diplomacy to neutralize this great power, with the intention, no doubt, to hold the advantages already gained in China. It is evident, however, that the scheme will not work and that Russia must back down or fight. She is not likely to accept the latter alternative, and will, no doubt, gracefully accede to England's demands, *for the time being*, but will go on scheming and working for the addition of more territory to the already vast domain of the Russian Empire. If England wants to place a barrier against Russian encroachments in China and elsewhere she had better bring the matter to an issue of arms now than to wait until her adversary shall become thoroughly intrenched in advanced stations.

It begins to look as if China is to be dismembered and parceled out among the powerful nations of Europe. Russia, though her emblem is a bear, is preparing to take the lion's share. Unless circumvented by prompt opposition she will succeed in the effort.

Master George Motter, the thirteen-year-old son of Judge John C. Motter, of Frederick, was accidently shot in the left breast on Friday of last week, but not fatally hurt. A companion of the lad was taking a revolver of small calibre apart when one of the chambers was accidently discharged, the bullet striking young Motter, as stated. He is improving.

A fire in Laurel, Md, Saturday, destroyed property valued at $50,000. The conflagration was so threatening that aid was asked from Baltimore, and Engine No. 10 was sent to the scene, but the fire was under control when it reached Laurel. Charles Louis Francke, pipeman of No. 15 engine company, lost his life while rendering aid.

A tomato field of 110 acres, on Spesutia Island, with 300,000 plants, is one of the sights worth seeing in Harford county. The setting out of this one field and the gathering of the fruit when ripe gives employment to a large number of working people.

A number of the surviving members of Co. C, Cole's Maryland Cavalry, with their families, enjoyed a picnic at Round Top Park, on the Gettysburg battlefield, on Thursday of last week. They were Adams county, Pa., men.

Charles Etzler, near Libertytown, shot two birds in a swamp near his home. The heads and feet of these birds resembled owls, but their color was much lighter. From tip to tip of wings they each measured about three feet.

The assessors of Cecil county have found 3,000 dogs that will be assessed one dollar each, $3,000. A neat revenue to the county.

September 1st marks the opening of the oyster season in Maryland.

SECOND DISTRICT CONVENTION.

The Republican nominating convention was held in the rooms of the North Baltimore Republican Association, East North avenue, Baltimore, on Thursday and renominated Hon. Wm. B. Baker, of Harford county, for a third term, as the representative of the district. The convention was called to order by Monitor Watchman, of Baltimore, who was also elected temporary chairman. Committees on credentials and permanent organization, and on resolutions were appointed, upon which Carroll county was represented by Dr. C. H. Diller and W. L. W. Seabrook, respectively.

The committee on credentials reported the list of delegates correct and recommended Henry M. McCullough, of Cecil county, for permanent president, and C. Ellsworth Upton of Baltimore county, for permanent secretary. The recommendations were adopted.

The committee on resolutions reported the following through its chairman, W. L. W. Seabrook, which were unanimously adopted.

First. The Republicans of the Second congressional district of Maryland, in convention assembled, renew their allegiance to the principles of the national Republican party, and declare their pride and satisfaction in the results of Republican administration in the state and nation.

Second. The firm, statesmanlike and patriotic administration of President McKinley, which has maintained the national integrity, obliterated sectionalism, and welded all parts of our country together in one common brotherhood of devoted Americanism, deserves and receives our heartiest commendation.

Third. The brave defenders of the flag, upon land and sea, who have so gloriously upheld and advanced the national honor and renown, are entitled to the grateful remembrance of the nation. To our own patriotic neighbors and friends who went out from among us in response to their country's call, we send the assurance of our continual remembrance, and of our hearty sympathy and appreciation. The national government, administered by the Republican party, will never forget the fallen, nor neglect the stricken.

Fourth. We declare our unalterable adherence to the principles of sound money, and pledge ourselves, and the candidate this day nominated, to the maintenance of the gold standard of value. The purchasing power of the American dollar in the hand of the American laborer must not be questioned or impaired.

Fifth. We regard with the greatest satisfaction the remarkable growth of our foreign trade under the wise policy of the Republican party, which has given us the markets of the world. For the first time in the history of the country the exports are twice as great as the imports, with a trade balance of $600,000,00 in our favor, and, under the beneficent operation of the protective tariff, our people everywhere are again becoming prosperous and contented.

Sixth. We deprecate the cry of imperialism raised by Democratic partisans to embarrass the national administration, at a time when it should have the loyal support of all American citizens. The republican party has never failed, when in charge of the government, to meet every great emergency, and settle every great question, in accordance with the national well-being and honor, and it will not fail to do so now. The annexation of the Sandwich Islands is an event which will redound more and more to the benefit of the nation and the credit of the Republican party as the years recede.

Seventh. To our honored representative in Congress, the Hon. William B. Baker, we tender the assurance of our continued confidence and support. Mr. Baker's hearty and helpful support of President McKinley in all measures tending to promote the honor and welfare of the nation, and his faithful and intelligent attention to the interests of his constituents, commend him to the patriotic and fair-minded voters of all parties in this congressional district.

The convention then proceeded to nominate a candidate for Congress, and John H. McFaul, of Baltimore, placed the name of Hon. Wm. B. Baker before the convention. The nomination was seconded by several speakers, among whom was W. L. W. Seabrook, of Carroll county, who stated that if Mr. Baker's name had not been before the convention Carroll county would have presented a candidate for the honor. He further gave notice that Carroll county would claim the nomination two year's hence as an act of long delayed justice.

Mr. John S. Ensor's name was presented by Mr. Wm. T. Benton, of Baltimore county, and the delegates from that county gave him a complimentary vote, changing then to Mr. Baker, whose nomination was made unanimous. A committee, of whom Mr. Marshall S. Selby, of this county, was a member, was appointed to notify Mr. Baker of the action of the convention and invite him to address the convention. During the absence of the committee speeches were called for and, among others, Chas. T. Reifsnider, Esq., of this city, gave the convention a forcible talk in relation to the duty of the Republicans to stand harmoniously together in support of the candidate and the great principles of the Republican party.

The presence of Mr. Baker was then announced and he made a graceful speech in recognition of the great honor conferred upon him.

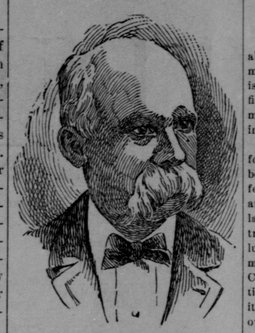
Mr. John S. Ensor was loudly called for and closed the speech-making by pledging the undivided support of the Republicans of Baltimore county to the nominee.

All the delegates appointed by the Carroll county convention last week were present except from Taneytown and Uniontown districts.

The sick members of the Fifth Maryland Regiment, who were brought from Huntsville to Baltimore and placed in the Maryland University and City Hospitals, are doing well.

The barn of John C. Padgett was burned near Adamstown, Frederick county, together with crops and seven horses, on Saturday.

Five warehouses were destroyed by fire in Salisbury and several firemen were injured, on Monday.



HON. WILLIAM B. BAKER,
Republican Candidate for Congress in the Second District.

Disease in Cuba and Porto Rico.

The treasure spent by the United States in the war with Spain, though large, is not to be compared to the sacrifice of precious lives freely offered upon the altar of human liberty. The mortality in battle was not great, but pestilential fevers having carried away many of the noble men who volunteered to free Cuba from the Spanish yoke. Hundreds of those who fought the Spaniards successfully have succumbed to disease and only their prompt removal to a more salubrious climate will save the lives of many more. That is now being done as rapidly as possible. It is very evident that proper sanitation is one of the things of which little knowledge has been possessed by Cubans and Porto Ricans. It is said that in some respects great care has been taken to prevent epidemics of yellow fever, but that in the matter of drainage little has been done to destroy the most fruitful source of pestilence. A gentleman familiar with the topography of the city of Havana and its vicinity, assures us that a system of sewage could rapidly be inaugurated that would make it one of the most healthful cities in the world. This is a matter that will require attention along with the effort to provide a peaceful and stable government for the island. Its accomplishment will be no less a triumph of American intelligence, skill and energy than the prompt defeat of the Spaniards in battle. Lamentable as the sacrifice of so many of the lives of our brave soldiers, by disease, may be, it will not be a fruitless sacrifice if it shall lead to the employment of the necessary means to make Cuba and Porto Rico territories from which disease, bred by inattention to the laws of health, shall be banished and when people can live without being perpetually under the ever impending shadow of decimating epidemics.

It is probable that sanitary conditions are worse in many portions of Cuba than formerly. A desultory war has been maintained on the island for nearly four years, and has been the means, without doubt, of adding to the difficulties attending proper sanitation in that hot and, at times, extremely humid climate. The introduction of new blood and American energy into the island may overcome, to a great extent, the prevalent conditions and make of it a terrestrial paradise.

Evacuation of Cuba.

A telegram from Washington, to the Baltimore *Sun*, under date of 29 ult., says, among other things, that the Cuban commission, which will sail from New York on Saturday, will take formal possession of Cuba in the name of the United States but just when the exercise of authority by this country and the relinquishment of authority by the Spaniards will occur has not been determined. It was stated at the War Department today that possibly two months may elapse before the United states attempts to exercise absolute control over the city of Havana and the eastern provinces of the island. The department has no desire to hurry troops into Cuba before the hot weather is over, and it is, therefore, thought to be not improbable that the beginning of the evacuation by the Spaniards will not be hastened.

One of the officers who will accompany the commission on Saturday said to-day the first step toward assuming control of the island would be the landing of the commission. The other steps, he thought, would follow in rapid succession, and possibly within thirty days the flag of the United States might be hoisted over the government buildings of Havana, and the administration of affairs be placed in the hands of the United States officials. This sanguine view of the situation is not, however, shared by the officials of the War Department. They anticipate some delay in arranging the terms of the evacuation and greater delay in carrying them out.

The facilities for transportation possessed by Spain are extremely limited. Practically no ships will be available until those that this government chartered to transfer the men and officers who surrendered to General Shafter, at Santiago, can be secured. Several are at Santiago preparing to remove the last installments of the Spaniards there, and the remainder are in Spain or en route home. An estimate of the troops near Havana places the total at approximately 125,000 and those in Porto Rico at about 10,000 To handle so large an army would require five times as many transports as were employed in the Santiago expedition, and where and how they are to be obtained is one of the questions that may provoke much discussion.

The Spanish commissioners are expected to set forth the great difficulties before their government in supplying the transports required to move so large a force, and an effort will unquestionably be made to have the United States assist in the work. No obligation, however, devolves on this country to send home Spain's army, and that goverment will be required to move it at the expense of the Spanish treasury. With little money for any purpose and few transports at hand, the prospects of a prompt transfer of the men when the method has been decided on by the commission is not encouraging to the administration, except in the case of Porto Rico, where there are comparatively few to be transported.

For the Sentinel.

The Omaha Exposition.

The Trans-Mississippi and International Exposition at Omaha is attracting many visitors and interest in its merits is rapidly increasing. Your readers may find some interest in a letter from a former resident of Westminster who lives in the Exposition city.

The citizens of Omaha find the transformation of the prairie into a most beautiful park to be a very remarkable feature of the Exposition. The grounds are beautiful. Here are wide rolling lawns, there are walks under shady trees. In the midst of grass plots and luxuriant beds of flowers stand the marble white buildings of the Grand Court, the Bluff tract, and the highly tinted buildings of the Midway. From its seat on the Missouri River bluff it overlooks the valley for miles north and south and stretching far away to the East to the vine covered hills of Iowa.

One exhibitor tells the history of the West in this striking way. Discovered by De Soto in 1541, purchased for $15,000 000 in 1803, explored in 1807, occupied in 1849, and beautified at Omaha in 1898. In the Mines and Mining, the Agricultural and Horticultural Buildings you soon see that the $15,000,000 paid for the territory in 1803 has given the nation inexhaustible granaries and mints. The magnificent evidences of limitless resources and splendid future possibilities appeal to our commercial interest. The Trans-Mississippi country is only in the A. B. C. of its possible wealth and agricultural greatness. To the inteligent citizen it is a splendid prophecy.

In two respects at least this Exposition excels the great Fair at Chicago. While the buildings are not nearly so large as those of the World's Fair, they are gems of architecture. The ornamentation and symmetry of the buildings, and the balance of their grouping is a very near approach to the perfection of architectural skill and art. The illumination at night is superior to anything of the kind seen heretofore either in this country or abroad. I was enthusiastic over the illumination at Chicago, but the night scene on the lagoon is the most superb vision of dream-land. This inspiring vision is so brilliant, and such is the character of the country around us, that the lights are seen thirty and forty miles away.

The United States Government is making the finest display here it has ever made at any Exposition. It is adding many Spanish trophies to its already elaborate exhibit, and the first Spanish flag captured in the Santiago campaign, by a detail of the 22d Infantry formerly stationed at Fort Crook near Omaha, has many visitors. We feel a local pride in this capture.

The Indian Congress is an unique feature of the Exposition. Representatives of fifteen different tribes, numbering about eight hundred Indians, have been assembled here by the Government. It is a sight never seen before, and doubtless anything like it will not be witnessed again in the near future. It is a fine opportunity to study aboriginal modes of living. It gives value to civilization.

Through the efforts of Hon. E. Rosewater, President McKinley and members of his Cabinet have promised to participate in the Peace Jubilee and the scope of this proposed National ratification of the return of peace, in consequence of this, is rapidly broadening in range. This will be a memorable feature of the Omaha Exposition.

LUTHER M. KUHNS.

It has been decided to hold the Maryland State Sunday School Convention in Baltimore city, October 13th and 14th, next, in the Third Reformed Church, corner of Saratoga and Paca steets.

Mr. Martin Stine caught in the Antietam at Roxbury a German carp that measured twenty-six inches in length and weighed ten and a half pounds.

Governor Lowndes has designated September 5th as Labor Day.

A CRITICAL TIME DURING THE BATTLE OF SANTIAGO.

Sick or Well, a Rush Night and Day

The Packers at the Battle of Santiago de Cuba were all Heroes. Their Heroic Efforts in Getting Ammunition and Rations to the Front Saved the Day.

P. E. Butler, of pack train No. 3, writing from Santiago, De Cuba, on July 23d, says: "We all had diarrhoea in more or less violent form, and when we landed we had no time to see a doctor, for it was a case of rush and rush night and day to keep the troops supplied with ammunition and rations, but thanks to Chamberlain's Colic, Cholera and Diarrhoea Remedy, we were able to keep at work and keep our health; in fact, I sincerely believe that at one period of the critical time that the indirect savior of our army, for if the packers had been unable to work there would have been no way of getting supplies to the front. There were no roads that a wagon train could use. My comrade and myself had had the good fortune to lay in a supply of this medicine for our pack-train before we left Tampa and I know in four cases it absolutely saved life."

The above letter was written to the manufacturers of this medicine, the Chamberlain Medicine Co., Des Moines, Iowa. For sale by Joseph D. Zepp, Druggist, Westminster, and Lewis H. Diehman, New Windsor. sept-3-4t

MORTGAGE SALE OF VALUABLE REAL ESTATE,

In Myers' District, Carroll County, Md.

BY virtue of the power of sale contained in a mortgage from Henry Frock and wife to Solomon Arter, dated April 21, 1888, and duly recorded among the Mortgage Real Estate Records of Carroll county in Liber W. WEDNESDAY, SEPTEMBER 28th, 1898,

at 1 o'clock, P. M., all that farm or parcel of land, containing

128 ACRES OF LAND, more or less,

situate in Carroll county, Maryland, about two miles from Deep Run on the county road leading from Union Mills to the Baltimore and Hanover pike, and adjoining lands of Nelson Houck, Harvey Stone and Daniel Yeiser and now occupied by Wertin P. Frock.

This property is improved by

a two-story brick house, weather boarded bank barn, new wagon shed, spring house, chicken house and all other necessary out-buildings, all being in fair condition. There is an apple orchard and other fruit on the place. This farm is about four miles and a half from Union Mills, is well watered and timbered and convenient to churches and schools.

TERMS OF SALE.—One-third cash on the day of sale or on the ratification thereof, one-third in six and one-third in twelve months from the day of sale, the credit payments to be secured by the notes of the purchaser or purchasers, with approved security, the purchase money bearing interest from the day of sale.
