A LECTURE
TO YOUNG MEN.

Just published, in a sealed envelope. Price Six Cents.

A Lecture on the Nature, Treatment and Medical Cure of Spermatorrhœa or Seminal Weakness, Involuntary Emissions, Sexual Debility, and Impediments to Marriage generally. Nervousness, Consumption, Epilepsy and Fits; Mental and Physical Incapacity resulting from Self-Abuse, &c. By ROBERT J. CULVERWELL, M. D., Author of the "Book," &c.
The world-renown in this admirable Lecture, clearly proves from his own experience that the awful results of Self-Abuse may be effectually cured without medicine, and without dangerous surgical operations, bougies, instruments, rings or cordials; pointing out a mode of cure at once certain and effectual, by which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and radically. THIS WILL PROVE A BOON TO THOUSANDS.

SOLUBLE PACIFIC GUANO.

JOHN S. REESE & CO.,
WHOLESALE AND RETAIL AGENTS FOR THE
PACIFIC GUANO COMPANY,
71 SOUTH STREET BALTIMORE.

THIS *Soluble Pacific Guano*, resembles *Peruvian Guano* in appearance, odor, and composition. The value of all Guanos and Super Phosphates of lime, of whatever name depends, as is well known, upon the per cent. of *Ammonia, Soluble Phosphate* and *Bone Phosphate of Lime* they contain. This Guano differs from Peruvian only in the fact that it contains less *Ammonia*, but this difference in Ammonia is more than made up by the fact that it contains almost *double* as much Soluble and Bone Phosphate of Lime. This difference makes it a *durable fertilizer*, with all the activity of Peruvian Guano. Although the price of this Guano is only one-half the price of Peruvian, and is not higher than the Super Phosphates of Lime, yet it contains, as is proven by analysis and inspection, vastly more of *Ammonia, soluble*, and *Bone Phosphate*, than is found in the best of them. Hence its economy and intrinsic value must render it an object of great interest to farmers generally.
We wish farmers to *take especial notice*, that the *conditions* upon which we have the agency of *this Guano* are that every cargo is regularly *inspected* and *analysed* by *Dr. Liebig*, whose authority in such matters is paramount.
This arrangement affords us and consumers a *protection not had* in the purchase of fertilizers generally. It must also be noticed that the phosphates of this Guano, are not *mineral*, but *earthy* Phosphates, which is greatly to its advantage.
The following is a summary of analysis of last cargo:

Moisture	10 pr. ct.	
Organic Combustible Matter	39.71	"
Earthy Matter	50.28	"
Yielding Ammonia	3.40 pr. ct.	
Soluble Phosphate of Lime	17.07	"
Bone Phosphate of Lime	24.32	"

TREASURY DEPARTMENT,
OFFICE OF THE COMPTROLLER OF THE CURRENCY,
WASHINGTON, July 13th, 1865.

WHEREAS by satisfactory evidence presented to the undersigned, it has been made to appear that "The *Easton National Bank of Maryland*" in the *town* of *Easton*, in the County of *Talbot* and State of Maryland, has been duly organized under and according to the requirements of the Act of Congress entitled "An Act to provide a National Currency, secured by a pledge of the United States bonds, and to provide for the circulation and redemption thereof," approved June 3d, 1865, and has complied with all the provisions of said Act required to be complied with before commencing the business of Banking under said Act.
Now therefore I, Freeman Clarke, Comptroller of the Currency, do hereby certify that "The Easton National Bank of Maryland" in the town of Easton, in the county of Talbot and State of Maryland, is authorized to commence the business of Banking under the Act aforesaid.
In testimony whereof witness my hand and seal of office this thirteenth day of July, 1865.

je 20 SAMUEL PATCHETT.

WERE awarded the highest premiums over all competitors at the State Fairs of New York, Vermont, Iowa, Indiana, Michigan, Illinois, Kentucky, Pennsylvania, Ohio, and Oregon, and at every respectable Institute and County Fair held in 1863.

Most of our Lady readers are, no doubt, aware of the fact that the beautiful embroidery on cloaks and dresses so fashionable, can only be executed on the Grover & Baker Sewing-Machine. This machine, always a favorite in the family, has now become indispensable. Unlike other machines, it is ever ready to perform, in the most perfect manner, every kind of plain or ornamental sewing that may be required; and we are not surprised to find it carrying off the highest premiums at the different State Fairs now being held throughout the country.—*Le Bon Ton.*

We speak from experience when we say that, after having tried all the principal sewing machines, we must accord to that of Grover & Baker the pre-eminence. Those indispensable features of sewing—strength, uniformity, and elasticity—all of which are brought out in this incomparable invention, make it the first sewing-machine in the country.—*New York Christian Advocate and Journal.*

Grover & Baker's Sewing-Machines.—We have frequently and strongly recommended these useful articles to our subscribers; we have done so because we know and have tested them, both in our homes, and elsewhere. There are two necessary things for housekeepers—one of Grover & Baker's Sewing-Machines, and Godey's Lady's Book. It is not housekeeping without them.—*Godey's Lady's Book.*

Sewing-Machines.

Of the many inventions and improvements of sewing-machines, none have so satisfactorily stood the test of time and service as Grover & Baker's. They have taken the highest premiums at the recent State Fairs of fifteen States; they have, moreover, received the warmest encomiums from all persons who have ever used the machines, and those who have had opportunities to compare the different styles of machines, generally prefer Grover & Baker's to any other. They do the work neatly and well, do not get out of order, and are readily adapted to any kind of sewing. We would advise our lady readers, who are in want of sewing-machine, to call at Grover & Baker's.—*Brooklyn Standard.*

Bone Flour,
UNADULTERATED,
MANUFACTURED BY THE
Boston Milling and Manufacturing Co.

THE value of unburnt, unadulterated Bone is well known. When reduced to the condition of FLOUR, it is as active as if dissolved with acid, and is far better, because it retains all its Phosphates. Its superiority over the common BONE DUST is two-fold or more. It is a consummation sought for in vain for the last half century, and is destined to give new value to BONE as a fertilizer, and work a revolution in its use. The BONE FLOUR is made only by the above Company, and is branded with their trade mark, which is the guarantee of its genuineness.
