New Advertisements.

WALTHAM WATCHES

The extensive use of these watches for the last fifteen years by Railway Conductors, Engineers and Expressmen, the most exacting of watch-wearers, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of these time-keepers.

More than 500,000 of these watches are now speaking for themselves in the pockets of the people—a proof and a guarantee of their superiority over all others.

The superior organization and great extent of the Company's Works at Waltham enables them to produce watches at a price which renders competition futile, and those who buy any other watch merely pay from 25 to 50 per cent. more for their watches than is necessary.

These time-pieces combine every improvement that a long experience has proved of real practical use. Having had the refusal of nearly every invention in watch-making originating in this country, or in Europe, only those seem finally adopted which severe testing by the most skillful artisans in our works, and long use on the part of the public, demonstrated to be essential to correct and enduring time-keeping.

Among the many improvements, we would particularize:

The invention and use of a centre-pinion of peculiar construction, to prevent damage to the train by the breaking of main-springs, is original with the American Watch Company, who, having had the refusal of all other contrivances, adopted Fogg's patent pinion as being the best and faultless.

Hardened and tempered hair-springs, now universally admitted by Watchmakers to be the best, are used in all grades of Waltham watches.

All Waltham watches have dust-proof caps, protecting the movement from dust, and lessening the necessity of the frequent cleaning necessary in other watches.

Our new patent stem-winder, or keyless watch, is already a decided success, and a great improvement on any stem-winding watch in the American market, and by far the cheapest watch of its quality now offered to the public. To those living in portions of the United States where watchmakers do not abound, watches with the above mentioned improvements which tend to ensure accuracy, cleanliness, durability and convenience, must prove invaluable.

The trademarks of the various styles mad by the Company are as follows:

AMERICAN WATCH CO., Waltham, MASS.
AMM. WATCH CO., Waltham, MASS.
AMERICAN WATCH CO., Crescent St., Waltham, MASS.
APPLETON, TRACY & CO., Waltham, MASS.
AMERICAN WATCH CO., Adams St., Waltham, MASS.
WALTHAM WATCH CO., Waltham, MASS.
P. S. BARTLETT, Waltham, MASS.
WM. ELLERY, Waltham, MASS
HOWE WATCH CO., Boston, MASS.

Examine the spelling of these names carefully before buying. Any variation, even of a single letter, indicates a counterfeit.

For sale by all leading jewellers. No watches retailed by the Company.

GRAPE VINES FOR SALE.—I offer for sale, at prices below the Northern Nursery rates, some very fine grape vines, which have been rooted and grown in Talbot county, and are therefore perfectly acclimated. The stock is composed of the following well tested varieties, which I can recommend as hardy and prolific: Delaware, Concord, Clinton, Creveling, Diana, Hartford Prolific, Iona, Israella, Ives' Seedling, Mascatawney, Rebecca, and Union Village. Some of these vines are one, and some two years old.

I am also the agent for Talbot county for the well known Eumelan Grape, said by Dr. Grant to be the finest American grape yet produced.

Grape vines may be planted six or eight feet apart, or from 600 to 790 per acre When six years old they will average 10 pounds to the vine, or six or seven thousand pounds to the acre, and will readily command 25 cents per pound. Any one who will make the calculation can readily see that grapes is the most profitable crop that can be grown.

There is no better section of country than this for grape culture, as all the improved varieties do well here, as I have already tested on my farm in Oxford Neck.

Letters addressed to me at Trappe, Talbot county, Md., will receive prompt attention.
