ROLAND
CHILLED PLOWS,
Every farmer in Maryland should use the "Roland." The Mouldboard is harder than steel. They will do more work than any other Plow with the same amount of draft. They are lighter in draft than any other plows. They will scour in any land. They will last longer than any other plows. They are sold under a guarantee. They cost less for repairs than any other plow in the market. Made in Baltimore, and sold by all dealers throughout Maryland, without a peer. The work manship, material, and form of the best. Repairs for Roland Chilled Plows, and the best of all kinds of soil. Send for descriptive circular.
CHAMPION
GRAIN DRILL.
This Drill has force feed distributors for both wheat and grass seed, and has the only feed cup in America that will not clog, and will evenly distribute wet and sticky phosphate. It will sow grain, grass seed and fertilizer more satisfactorily than any other drill in America. It is the simplest and strongest drill made. It is more easily managed and less liable to get out of order than any drill in the market. As grain is the leading drill in this market, and several thousands have been sold during during the past few years, a large stock of repairs is always on hand. Send for circular.
BRITISH MIXTURE.
The reputation of this celebrated fertilizer stands close to the price, but to the fact that its effects are uniformly good, and that it has been found the equal of the highest priced and best phosphates in the market. It stores more value for each dollar paid than any other fertilizer in the land. Send for circular and price list.

A Great Work Just Completed!
The Popular Want at Last Supplied!
IDEAL BLACKBOARD.
This is a Cyclopedia of Universal Knowledge. The greatest, latest and cheapest work ever issued over published. It contains 50,000 topics, 5,000 illustrations, splendid colored maps and hosts of features nowhere else to be found. It has 2 cents for schoolgirls and is a library within itself of great value to any man or family. It contains the wise research of such men as Drs. McCosh, Hurst and Edison, and of eminent jurists, inventors and scientists. It has received the highest commendations from universities, colleges and schools. It has been adopted in many of the schools as a standard work of reference. Bishop Huntington says:—"Extensive information and friendly aid it has brought down the history of the whole world's life litterally to the present year."
Bishop Williams says: "I have examined it carefully and can heartily recommend it."
Dr. J. P. Newman says: "It contains the cream of the Britannica and other great works, and is a marvel of cheapness."
S. W. Mason, L. L. D., graduate of Dartmouth College says: "Before examining the People's Cyclopedia, I could not see how so good a work could be made. I cannot now see how a better work can be made.
It is certainly one of the richest, cheapest and most popular works that has been put before the people. Information and specimen pages can be obtained of F. A. DAVIS, Atty, 425 Chestnut st, Philadelphia, or A. J. MYERS, Agt. for this part of our State. Reference is made to the Editor of this paper and Dr. I. L. Bryan, of Cambridge, who owns the work. aug22

Walker St., Baltimore, Dec. 20, 1880. For five years I was a sufferer from Biliousness, Dyspepsia, Constipation, Kidney Complaint and Nervous Debility. I could not retain anything on my stomach, in fact, life had almost become a burden. Finally, when hope had almost left me, my husband seeing Brown's Iron Bitters advertised, procured a bottle and I took it. It gave me immediate relief. I continued its use for a few months, and am now as well as I ever was. I cheerfully recommend it to all suffering as I do at the present time.
Mrs. L. F. Griffith.
Brown's Iron Bitters will have a better tonic effect upon any one who needs "bracing up," than any medicine made.
