Sure cure for

The Farcy,

or Government Disease amongst

THIS disease, so prevalent amongst horses and mules, evidences itself in swelled limbs, corrupted blood, running at the nose, running ulcers, and general debility, which, if not speedily arrested, results in the death of the animal in a very few days. The subscriber has recently compounded the preparation and applied it with the most decided success. It has not failed in any one instance, in curing the disease pertectly, in from two to three weeks.

Price one dollar per package, or six packages for five dollars.

CERTIFICATES.

Mr. Robert Johnston: Dear Sir: Having used the Condition Powders prepared by you with the most decided success, we, pronounce it an infallible remedy for the cure of Farcy, or the Government disease, now so prevalent among Horses and Mules, and which appears to be the result of an unhealthy condition of the blood. As a blood purifyer and as a restorer to general health of Horses and Cattle, we pronounce it the only remedy, as it is superior to all other preparations we have ever tried, seen or heard of.

L. G. KEMP,
N. J. WORTHINTON.

Frederick, Oct. 24 1865.

Mr. Robert Johnston: Dear Sir: I had a horse attacked with the Government disease. His glands, in fact his whole head, swelled up enormously. He was running at both nostrils and the stench was exceedingly offensive; I had concluded to shoot him to put him out of his misery, when I heard of your powder, and procured a paper which made a perfect cure. Respectfully,

JOHN FRALEY.

Petersville, Oct. 18th 1865.

Mr. R. Johnston: Dear Sir: I had a Mare attacked first with a cough, then running at the nose, the glands very much swollen, in fact she could scarcely breath; I purchased from you one package of your Powders, and succeeded in curing her in about three weeks. I did not bleed her, but am under the impression if I had followed the directions as to bleeding, I would have cured her in a shorter space of time. I think the public should be made acquainted with these facts as it may be the means of saving the lives of many valuable horses.

FARMERS

Look to Your Interest,

THE subscriber would respectfully call the attention of the Farmers of Frederick County to J. H. GAMBRILL'S

"SOLUABLE RAW BONE,"

as the most superior Fertilizer ever offered them. It is unlike any other Bone in the market, it being fine enough to apply 150 lbs. per Acre with a Drill all other Bone for sale in this market is either manufactured from boiled or burnt Bone, hence it contains very little amonia. The above article is ENTIRELY FREE from all adulteration—nothing used but the bone in its raw state containing all of its animal matter, hence it contains more amonia than any thing of the kind in the market, it will act on crops immediately. "I defy competition." The same amount of money expended in the above article, will produce one-third more Corn per Acre than any Fertilizer used, I care not what it is. Poor exhausted land can be made to produce fine crops for six or eight years by the single application of 300 to 400 lbs. per Acre.

All vitrolized Bone offered for sale is adulterated—I have satisfied myself by a visit to the different manufacturing establishments. I invite every Farmer interested, to call and see for once a premium article. I will have ready for the spring crop about 100 tons, which I will sell at $50 per ton—parties furnishing their own Bags—put up in packages for $55 per ton. I have also on hand at all times a large stock of

GROUND PLASTER.

Parties can be supplied at any season of the year.

☞Terms in all instances CASH.

For sale by JONATHAN TYSON, Agent, Rail Road Depot, Frederick, and HENRY C. REICH, "Araby Mills."

RECOMMENDATIONS.

URBANA, FREDERICK COUNTY, July 24th 1865.

Mr. JAMES H. GAMBRILL,

Dear Sir,—I used your "Raw BONE" on the crop which I have just gathered to my entire satisfaction, and I gave it, Cox's Phosphate, and Wilson's Guano a fair trial, side by side across a 40 Acre field, and it was as good (not a little better than either, Wilson being behind. You may recommend it with safety to any Farmer. Yours truly,

CHAS. E. WORTHINGTON.

NEW MARKET, July 18th, 1865.

JAMES H. GAMBRILL, Esq.,

Dear Sir—I sowed with a Drill one ton of your Ground Bones on about nine Acres of Wheat in the Fall of 1864—the crop harvested this season is very fine. I feel satisfied that I have been amply repaid for the outlay. There is no experiment in the use of your Raw Ground Bones as a Fertilizer, as it comes up fully to all you claim for it.

Very truly, J. H. DOWNEY.

I fully concur in what Mr. Downey says of Gambrill's Raw Bone.

Tobacco and Cigar EMPORIUM.

The subscriber would call the attention of his friends and the public generally to his large and well selected stock of Tobacco and Cigars.

His CIGARS comprehend every variety of flavor and quality, and they will be disposed of at prices that defy competition.

His supply of TOBACCO comprises some brands widely celebrated and justly prized for their inimitable taste and delicious flavor. To simply name

Gravely, Le Gildad, and Rough and Ready,

as among some of his brands of Tobacco, is sufficient to create in the minds of old lovers of Tobacco, visions of the *WEED in its VIRGIN PURITY ere SHODDY began to flourish*, and ere they were compelled to substitute the *villanous counterfeits and abominable adulterations of the present day, for the matchless TWIST and GOLDEN LEAF of the "Old Dominion."* He has also on hand a variety of other brands of Tobacco, which he offers at prices that cannot fail to please. Of

SMOKING TOBACCO

he has an incomparable variety which he offers at the lowest figure. He also keeps on hand a general assortment of

Pipes, Mouth Pieces, Tobacco Pouches, Cigar Cases, &c.,

all of which will be sold as cheap as the cheapest.
