ap27 E. ALBAUGH.

GROVER & BAKER'S

ELASTIC STICH

Family Sewing Machine.

Were Awarded the Highest Premiums at all the State Fairs.

They are superior to all others for the following reasons:

1st. They sew direct from the spools and require no rewinding of thread.

2d. They are more easily understood and less liable to get out of order than any other Machine.

3d. They are capable of executing *perfectly*, a much greater variety of work than any other machine.

4th. The stitch made by these machines is much more firm, elastic and durable, (especially upon articles which require to be washed and ironed.) and retains its plumpness and beauty until the clothing is entirely worn out.

Unlike the lock or shuttle stitch machine these fasten both ends of the seam by their own operation, and will neither open, run or ravel, but remains firm and durable.

6th. By a slight change of adjustment, it executes the most beautiful embroidery and ornamental work.

7th. There is certainly a great advantage in buying from a permanent party, rather than a traveling Agent, who has no abiding place, and the time you most desire to see them for information or instruction

THEY ARE NOT.

From 8 years constant use of the G. & B. M., I am prepared to say I would have no other for general family use. Therefore I invite any one to come and examine and try the machines before purchasing elsewhere.

LIME! LIME!

THE subscriber having rented the LIME KILNS, situated at the eastern extremity of the city, formerly conducted by John A Steiner & Bro., would respectfully inform those interested in the trade that he is now prepared to furnish

BUILDING OR LAND LIME

by the car load or in less quantity, at the market price.

The quality of the Lime formerly burned at these Kilns is too well known to need any remarks on that point.

Hoping that by strict attention to business and an earnest desire to accommodate and please the public, to receive a share of public patronage. Respectfully,

mar16tm H. F. STEINER.
