Negro Suffrage.

Ten years ago a *minority party* in this country, ambitious of political power, was in favor of restricting *white* suffrage. They professed to believe that a residence of twenty one years, at least, was necessary before the foreign emmigrant from any of the most enlightened nations of Europe could understand our republican form of government, and that to entrust the *white* foreign born resident with the sacred rights, privileges, and tremendous power of the ballot, prior to a residence of twenty one years, was to endanger the stability of our political institutions. Had these advocates of *restrictive* suffrage in those days been told, that in less than ten years they would be the advocates of universal *negro* suffrage they would have denounced the charge as an offensive imputation upon their patriotism as well as a gross insult to their intelligence.

All history, however, teaches that unprincipled men are capable of all kinds of inconsistencies. Why was a party formed in favor of excluding foreign immigrants from the rights of citizenship, and the right of the ballot, until after a residence of twenty-one years?—The answer is plain; because this restrictive franchise party believed that a large majority of naturalized citizens voted the democratic ticket. So, know-nothingism was simply a villanous party scheme to get political power.

Now, again, in 1867, a *minority party*—composed to a great extent of the suffrage-restriction party—existing from '54 to '60, with John Bell as its candidate for the Presidency—propose to hold on to power by the *extension* of suffrage to the ignorant, brutified, half civilized negro, just relieved from the bondage of slavery. These unprincipled politicians conveniently forget all the arguments they advanced a few short years since against *white* suffrage—the mysterious machinery of our intricately complicated form of government—and how *difficult*, aye, even almost impossible, for the foreign born resident, though ever so well educated, to understand our complex system of government, within less than twenty one years training. Most of the leaders, as well as the rank and file of this same party under a new name now accord to the whole negro population—the great majority of whom are as ignorant of the principles of our government as they are of the science of astronomy or the secrets of chimestry—sufficient intelligence to govern a State or to rule the nation.

There is not a knave among them, that believes the 'freedmen' are fit depositories of political power *at this time*, even if there be *some* who may honestly think the *race* may be *educated up*, in the course of time, to a proper standard of general intelligence so that they may be safely trusted with the ballot. With no faith in the justice of their principles they see and know, that without the *aid* of the negro vote they will be in a hopeless minority so soon as the Union is restored. Restoration of the Union without negro suffrage, is the certain death of the radical party, and *hence it is*, the Union is not restored—they preferring office and power, to national Union peace and prosperity.

But suppose, in their guilty terror of losing political power, they should succeed in forcing negro suffrage—what then? Will the negro be able to understand and appreciate the true bearing of political issues in their relation to his own immediate interests; or, on the other hand, should he be incapable of understanding the merits of questions, will he not in a very short time be as likely to be subject to the influences of democratic *arguments* as to the clap-trap of radicals? Can he be made to understand the tariff question, and, if so, will he—a common laborer, or even as a planter in the South—his natural home advocate and vote for high protective tariffs, for the benefit of New England manufacturers? The position of the "freedmen" or 'free Americans of African descent, for some years to come, unless the rump Congress votes them all a farm and a full outfit, will be that of agricultural laborers, receiving employment, and compensation for their industry, from white land owners; and the chances are that nine out of ten of them, thus situated will vote with their employers. Having to earn his bread by the sweat of his brow, the negro, like most uneducated laborers, will be governed by what he may consider his immediate personal interests.

Guarantee the perpetuation of our old republican form of government—grant to all the States the absolute right of self government—give entire political freedom to the *white men* of the South, and then let the negroes of the South vote, and we have no doubt, whatever, they will vote with their *section*; because it will be manifestly their interest to do so. They will soon find that canting radical sympathy will not put bread in their mouths nor clothes on their backs. In a little time the *Bureau* will be gone; and in their dependant condition old memories and old attachments will revive; they will return to the old plantation home, with the firm conviction enforced by experience, that their best friends are their old masters.

Take away your military satraps—and your great *bribe*, the so-called "Freedmen's Bureau"—give free self government to the Southern States, and in spite of "manhood suffrage" the radicals will soon be hurled from the places of power which they have used for the last six years for no higher purpose than to perpetuate their political ascendency.

That Memorial.

What, in the name of all good spirits above and ill below, can the leaders of the radical party in this county mean by getting up a memorial—such as is published in the last *Examiner*—to the Legislature, for a repeal of the new Jury law? Even though every blind unfortunate belonging to that faction, should sign it, what then? Do the hypocritical, canting leaders suppose that the members of the Legislature are ignorant of what has been the "infamous," partisan character of the juries in this county for the last ten years? Do they suppose that the Legislature would hesitate to lay such a memorial *under the table*, and order the sweep to throw it in some obscure place with the other waste paper of the Legislative halls?

These pretendedly, virtuous patriots, *all at once*, have a holy horror of a partisan Judge, and especially of "old decrepid" Judges—they don't like any man to be a Judge who is verging on, or possibly over seventy—it would not be "constitutional"—the hypocrits! *When* did this *new* revelation come to them? Do they suppose that they can, by such *stuff* deceive even the *idiots* of their own loyal faction? From the most intelligent to the most besottedly ignorant, would they not be willing to have old Mathuselah for their Judge, even though he had to be carried to the bench and be supported in an upright, or even recumbent position, and would he not be altogether and enthusiastically acceptable, *provided*, only, he would select, exclusively, "bloody radicals" for jurors, and make all his judicial decisions square with *the law* of the *loyal Leagues?*

But if the new Jury law is so "iniquitous" why do not the leaders of the "bloody radicals" order it to be printed in the *Examiner* for the information of the faithful? *We* published this "obnoxious" law last week. Why has not the *organ* of the "bloody radicals" published it? All honest, well-meaning men of the radical party will ask this question, before confessing themselves fools, by signing a memorial to the Legislature to repeal a law which they have *never read*.

Will the virtuously indignant, and incorruptibly patriotic editor of the *Examiner* tell the *people* of this county, the difference between a partisan Jury selected by the Judge of "the Court," and a partisan Jury selected by a partisan Sheriff? Has the *Examiner* gone stark mad, because the boot is on the other foot, now; or because the radical ox has been gored?

Now one proposition is self evident: if the former Jury law had been executed in its true spirit and intent, there would have been no necessity for the present law. But so deliberately and infamously has the spirit and intent of the old law been disregarded by the sheriffs of this county, for the last ten years, in the interests of party, that it seems to us that the present incumbent, as well as all his predecessors, and all of his and their personal friends would show only a reasonable amount of common sense, and self respect, by calling on the indiscreet, intemperate, thoughtless, editor of the *Examiner*, and urge the immediate suppression of the "*memorial*," as well as absolute silence in regard to the new Jury law.—If this be not deemed the wiser course, do not the getters up of this clap trap memorial know, that those who approve the new law can, also, memorialize the Legislature on this subject; when another law might be passed absolutely excluding all "bloody radicals" from the jury box—by way of retaliation for their infamous conduct for the last twelve years.

In the meantime, let them *remember*, that what is sauce for the goose is sauce for the gander—that there is many a slip between the cup and the lip—that those who live in glass houses ought not to throw stones—and, above all, that revolutions do often go backwards—that Robesperie and Danton, as well as hundreds of other radical jacobins, had their heads chopped off under the same guilotine which they erected for the execution of Louis the 16th, and so many thousand other innocent victims of their hell-born frenzy.

The Tide is Turning!

Great Democratic Victory!

An election for city officers has just been held at Reading, which has resulted in the success of the Democratic candidates by overwhelming majorities. Last fall Geary had a majority of 15 over Clymer, in that city. Now the Democrats carry it by majorities ranging from 325 to upwards 600. Reading, although the county seat of Berks county, has never been a Democratic city. Occasionally some Democrat, by virtue of his personal popularity, succeeded in being elected to some municipal office in the city, but the opponents of the Democracy nearly always carried it: The present result shows a large Democratic gain, and is an unerring index to the political change now going on among the people. Let the Democrats of Bedford county imitate their brothers of Reading, and organize for victory.—*Beaford Gazette.*

"OUR PLATFORM."—Under the above heading the Nashville Gazette keeps the following standing in its editorial columns:

"Let the Southern people be sure to produce, as they esily can, an abundant supply of provisions, manufacture their own timber and iron into all the implements they need, spin and weave all the cotton they consume, and let only the surplus of the staple, if any, pass over to Lowell and Manchester, to be paid for in hard cash. Let them do whatever may be necessary to secure a free republican State Government, and steadily refuse, by any debasing compliances, to purchase the privilege of enjoying their constitutional rights in the Federal Union. So employed, let them manfully meet whatever destiny may be in store for them, secure at least in the possession of their own self-respect."

The London journals comment freely on our political situation.

CORPORATION ELECTION.—The election in this city last Monday for a Councilman in each of the seven wards resulted in a most decisive democratic victory. In the 3rd ward the democratic candidate made no effort to secure his election—neither himself nor his son voting; yet his opponent was elected by a majority of *three* only. We understand that with proper effort the ward could have been carried by 20 majority. We elect 4 out of the 7 councilmen by a aggregate majority of 121—giving the most satisfactory assurance that at the next general corporation election we shall elect Mayor, Aldermen and Common Council—making a clean sweep of the negro-worshippers, who for the last six years have been holding all the city offices, by the disfranchisement of a majority of their fellow-citizens. Their reign is at an end, unless they can manage to have Maryland territorialized. The following is the vote in the several wards:

CONCERT—Professor Philips, "the Gospel singer of our Israel," and author of the "Singing Pilgrim," "Musical Leaves," and "New Hymn Tune Book" will sing his soul-stirring songs in his own inimitable style at the Meth Epis. Church in this city, on Thursday, March 7, for the benefit of the Ladies' Mite Society. It will be remembered that Mr. Philips has sung to the large audiences in the Academies of Music in New York, Philadelphia, Boston, Brooklyn, Baltimore, Chicago, St. Louis, Washington, and many other places, and has therefore, well earned the national reputation which he has. Come and hear his heart-thrilling solos one night only. In consequence of the change in the time of holding the East Baltimore Conference, his arrangements will not permit him to be here to attend the session of that body.—Tickets 50 cents. Children's Tickets 25 cents. to be had at A. Boyd's, C. A. Jones' A. Henderson's, H. B. Nicodemus', Shull & Keyser's and Mrs. Eldridge's Stores.

DEATH BY BURNING.—On Thursday of last week, during the temporary absence of both parents two little children of Mr. Samuel C. Crone, of this vicinity aged respectively three years and eleven months, were left alone in the room. Upon the return of the mother to the house it was discovered that fire had by some means been communicated to the clothes of the youngest, lying in the cradle, which was at once extinguished, but not before one entire side of the little innocent was so shockingly burned as to result in its death two days after.—*Val. Register.*

MINING IN VIRGINIA.—We learn from the Lexington Gazette that much excitement exists in the upper end of Rockbridge county, Va., over the discovery of several large mines of barytes, and everybody in that section is prospecting. A large mine of excellent quality has been developed upon the lands of Andrew Houston, which has been leased to the Rockbridge Mining Company.

There is, we understand, a mine of the same substance on the farm of Mr. John Hauck, in New Market district, six miles east of this city.

LECTURE.—The second Lecture of the course advertised, for the benefit of the Frederick Library Association will be delivered tonight, at Kemp's Hall, by Dr. C. C. Bombaugh, of Baltimore city.—The well merited reputation of this gentleman as an entertaining lecturer, will, we take for granted, draw a full house—"The Familiar and Common place."

VERY INDIGNANT.—The loyal leaguers of this city seemed to be very indignant because a few "rebels" voted for city councilmen on Monday last. They forgot that they placard their endorsement of Congress on the walls of their building, and that Congress says these same rebels may vote.

HAS NOT RESIGNED.—Gov. Swann has determined not to resign the office of Governor, for the present. Under the circumstances we think he has acted wisely. If he will do his duty as a patriot in his present position, he need seek no higher honors.

MAD DOG.—Several persons near Bruceville in Carroll county, were bitten by a mad dog, last week.

The Military Bill as it Passed the United States Senate on Sunday Morning.

At the Republican caucus on Saturday a bill for governing the Southern State was agreed upon as a substitute for Stevens' bill. That substitute, which is as follows, was offered in the Senate by Mr. Sherman on Saturday evening:

Whereas, no legal State governments or adequate protection for life or property now exist in the rebel States of Virginia, North Carolina, South Carolina, Georgia Alabama, Louisiana, Florida, Texas and Arkansas; and whereas, it is necessary that peace and good order should be enforced in said States until loyal and republican State governments can be legally established; therefore,

Be it enacted, &c., That said rebel States shall be divided into military districts and made subject to the military authority of the United States, as hereinafter prescribed; and for that purpose Virginia shall constitute the first district, North Carolina and South Carolina the second district, Georgia, Alabama and Flordia the third district, Mississippi and Arkansas the fourth distrcit, and Louisiana and Texas the fifth district.

SEC. 2. That it shall be the duty of the President to assign to the command of each of said districts an officer of the army not below the rank of Brigadier General, and to detail a sufficient military force to enable such officer to perform his duties and enforce his authority within the district to which he is assigned.

SEC. 3. That it shall be the duty of each officer assigned as aforesaid to protect all persons in their rights of person and property, to suppress insurrection, disorder and violence, and to punish or cause to be punished all disturbers of the public peace and criminals, and to this end he may allow local civil tribunals to take jurisdiction of and try offenders, or, when in his judgment it may be necessary for the trial of offenders, he shall have power to organize military commissions or tribunals for that purpose; and all interference under color of State authority with the exercise of military authority under this act shall be null and void.

SEC. 4. That all persons put under militsy arrest by virtue of this act shall be tried without unnecessary delay, and no cruel or unusual punishment shall be inflicted; and no sentence of any military commission or tribunal hereby authorized, affecting the life or liberty of any person, shall be executed until it is approved by the officer in command of the district; and the laws and regulations for the government of the army shall not be affected by this act, except in so far as they may conflict with its provisions.

SEC. 5. That when the people of any one of the said rebel States shall have formed a constitution of government in conformity with the Constitution of the United States in all respects, framed by a convention of delegates elected by the male citizens of said State twenty-one years old and upward, of whatever race, color, or previous condition, who have been resident in said State for one year previous to the day of such election, except such as may be disfranchised for participation in the rebellion or for felony at common law; and when such constitution shall provide that the elective franchise shall be enjoyed by all such persons as have the qualifications herein stated for election of delegates; and when such constitution shall be ratified by a majority of the persons voting on the question of ratification who are qualified as electors for delegates, and when such constitution shall have been submitted to Congress for examination and approval, and Congress shall have approved the same; and when said State, by a vote of its Legislature elected under said constitution, shall have adopted the amendment to the Constitution of the United States proposed by the Thirty-ninth Congress, and known as article 14, and when such article shall have become a part of the Constitution of the United States, said State shall be declared entitled to representation in Congress, and Senators and Representatives shall be admitted therefrom on their taking the oath prescribed by law, and then and thereafter the preceding sections of this act shall be inoperative in said State.

Is it not astonishing that it should be necessary, in the year eighteen hundred and sixty-seven, to defend on the floor of Congress thoes peculiar rights of a freeman, the jury trial and the writ of *habeas corpus*, against the action of the majority of the representatives of the people?
