QUEENSTOWN

Mrs. Lulu Havelow is visiting Mr. and Mrs. Will Lane as were also Mr. and Mrs. H. L. Sillers, the newest bride and groom.

Dr. Kennedy Waller and mother, were visitors in town on Sunday and among those who witnessed the struggle of the Harrington team in its attempt to ankle around the diamond. We have been having some good baseball since the Terps finally decided to play ball. Our newly shaped up pitching mound proved to be an Ozone Indian's resting place for Tucker, Hawk, Welch and LeGates. Each and all handed out base on balls similar to a sweet girl graduate receiving flowers. But then we have a good team after they have all been put through the collandar. Carey of third-base banged off a three bagger Sunday a week and this Sunday he annexed a homer. So next Sunday we can be safe in thinking he will go around the bases twice before he can be stopped. Carey on, Carey on.

Hand Signals Stressed In Safety Drive

Wier Says Response To Theme Has Drawn Favorable Comment

According to Mr. R. Wier, Jr., the Sun Oil Company's district manager, much favorable comment has been received by that organization upon its current advertising which contains an easily understood set of hand signals for motorists and is published with the hopes that a more universal use of these signals will reduce highway accidents.

"Everyone recognizes," he said, "the urgent need of increased highway safety, and while figures show that a very small percentage of drivers are responsible for a large number of accidents and that the average driver is both safe and cautious, we have felt that the use of hand signals has diminished where it should be increasing. As one motorist exclaimed after he had struck a car suddenly making a left turn in front of him: 'What do you think I'm driving, a ouija board? Why didn't you put out your hand?'"

Beyond urging all safe driving precautions, the Company is also pointing out the very important fact that gasoline is partly responsible for safer driving. A slow, sluggish gasoline is apt to let the driver down in an emergency, while a quick acting motor fuel will frequenty snap a car out of a jam.

There's no argument for insurance like the experience of a man who suffers a loss WITHOUT Insurance.
