Shiwan, to be supplied from Golden, 4 miles and back once a week

Warren, to be supplied from Golden, 4 miles and back three times a week

Wakefield, to be supplied from Westminster, 5 miles and back once a week

NOTES.

1. Each route must be bid for separately. The route, the sum, the mode of service, and the residence of the bidder, should be distinctly stated in each bid.

2. No proposal will be considered unless it be accompanied by a guarantee signed by one or more responsible persons, in the following form, viz:

"The undersigned guaranty that if his bid for carrying the mail from to be accepted by the Postmaster General, shall enter into an obligation prior to the first day of March next, with good and sufficient sureties, to perform the service proposed."

"Dated 1839."

This should be accompanied by the certificate of a Postmaster, or other equivalent testimony, that the guarantors are men of property, and able to make good their guarantee.

☞ This guaranty being required by law, no exemption can be allowed in favor of old contractors, railroad companies, or any other companies or persons whatsoever

3 The distances, as stated in this advertisement, are believed to be substantially correct; but the bidder will inform himself on that point, as no increased pay will be allowed for any difference when the places are named correctly.

4. The Postmaster General may alter the schedule, and alter the route, he allowing a *pro rata* increase of compensation for any additional service required, and for any increased speed, when the employment of additional stock or carriers is rendered necessary.

5. He may discontinue the service, or curtail it at a *pro rata* reduction of pay, whenever he shall consider it expedient to do so, he allowing one month's extra pay on the amount dispensed with.

6. He may impose fines for failure to take or deliver a mail, or any part of a mail, at any post office which is or may be established on the route, for refusing or neglecting to perform any other stipulation of this contract, for suffering the mail to be injured, wet, lost, or destroyed; and may exact a forfeiture of the pay of the trip whenever the trip is lost, or the mail arrives so far behind schedule time as to lose connection with a depending mail.

7. He may annul the contract for repeated failures to perform any of the stipulations, for refusing to discharge a carrier when required, for violating the Post Office law, for disobeying the instructions of the department, or assigning a contract without the previous consent of the Postmaster General.

8. If the contractors shall run a stage or other vehicle more rapidly or more frequently than he is required by the contract to carry the mail, he shall give the same increased celerity and frequency to the mail, and without increase of compensation.

9. Contractors on stage and coach routes shall convey, free of charge, all agents of the Department upon exhibition of their credentials; also, mail bags and Post Office blanks.

10. The Postmaster General is prohibited by law from making contracts for the transportation of the mail with any person who shall have entered into any combination, or proposed to enter into any combination, to prevent the making of any bid for a mail contract by any other person or persons; or who shall have made any agreement, or shall have given or performed, or promised to give or perform, any consideration to do, or not to do, any thing whatever to induce any other not to bid for a mail contract.

11. On post coach and stage routes where that kind of transportation is sometimes difficult, proposals will be received for carrying the mails on horseback, in wagons, or carts, for a specified number of months, weeks, or days in each year; but no dispensation of post coach or stage service will be tolerated unless it be stipulated for in the proposals and embraced in the contract.

12. On all post coach, stage and wagon routes, the mail is to be carried in preference to passengers, and, if its bulk and weight require it, to their entire exclusion.

13. The proposals should be sent to the Department sealed, endorsed "Mail proposals in the State of ," and addressed to the First Assistant Postmaster General, S. R. HOBBIE.

AMOS KENDALL.

State of Maryland:

CAROLINE COUNTY, TO WIT:

PURSUANT to the act of Assembly entitled "an act for the relief of sundry insolvent Debtors" passed at November session eighteen hundred and five, and the several supplements thereto, I do refer the within application of Nicholas Robinson, for the benefit of the said act and the supplements thereto, together with the schedule, petitions and other papers, to the Judges of Caroline county Court, and I do hereby appoint and fix the first Tuesday after the second Monday of October next for the final hearing of said application of the said N. Robinson and for his appearance before the Judges of Caroline county Court, at the Court House in the town of Denton, on said day, to answer such allegations as may be made against him and such interrogatories as may be propounded to him by his creditors, or any of them, and that he give notice by causing this order and discharge to be published in the Eastern Shore Whig once a week for the space of three successive weeks, three months before the first Tuesday after the second Monday in October next given under my hand this 24th day of May eighteen hundred and thirty nine.

ABRAHAM JUMP,
Caroline county, June 11th, 1839.—3w

PETERS' PILLS.

A CATALOGUE

OF REASONS FOR USING DR. PETERS' PILLS.

1. Because experience has established their merits, and decided them to be best, as also the most popular of modern medical discoveries.

2. Because they are composed of simples which have the power to do good in an immense number of cases, without possessing the means to do injury in any.

3. Because they are not a quick medicine, but the scientific compound of a regular physician, who has made his profession the study of his life; and are hence recommended as a standard family medicine by the regular faculty.

4. Because—(and this fact is of the utmost importance—) ladies in a certain situation may take them, (not more than two or three at a time however!) without in the slightest degree incurring the hazard of abortion—Were the virtues of Peters' inestimable pills confined to this desirable end alone, it would give them a decided advantage over the medicines of all competitors, as in no cases is there more danger to be apprehended, or for which so few remedies have been discovered, as the one referred to. And also because of their soothing influence on young ladies while suffering under the usual changes of life, as directed by the laws of nature.

5. Because they are not unpleasant to take, nor distressing to retain, while they are most effective to operate; & produce neither nausea, sickness, nor griping.

6. Because their composition is such that they are equally applicable to the usual diseases of warm, cold or temperate climates; and will retain their virtues unaltered any length of time, and in any part of the world.

7. Because while they are so efficient in their operations with adults, they may at the same time be administered to children, and even to infants, in small quantities, half a pill for instance, without the slightest danger.

8. Because as their application creates no debility in the system, they may be taken without producing any hindrance to business or the usual pursuits of every day life; and are unrivalled for their virtues in procuring a good appetite.

9. Because by keeping the system in a natural state of action, they cure almost every disease which is incidental to the human frame; and banish those morbid affections of melancholy and despair, which always attend upon any disarrangement of the digestive organs.

10. Because, notwithstanding their simplicity and mildness, they are one of the speediest purgative medicines which has yet been discovered.

11. Because they differ from the majority of medicines, in the fact that the more they are known the more they are approved; for when once introduced into a family or village, they almost immediately take the precedence of all other medicines in general complaints.

12. Because two or three, are generally sufficient for a dose, so that—as is the case with the generality of patent medicines—the patent is not compelled to make a meal of them

13. Because each individual pill is put up under the *immediate* superintendance of the *proprietor*, so that no mistake in the compodsition, or quantity, can possibly occur through the carelessness of a less interested agent.

14 Because they purify the frame without debilitating the system.

15. Because, notwithstanding their immense popularity, no person has ever ventured to raise against them the breath of censure, which would not have been the case, if envy could have discovered in them a single flaw to cavil at.

16. And lastly, because they are acknowledged to be an almost infallible remedy for, Bilious Fever, Fever and Ague, Dyspepsias Liver Complaints, Jaundice, Asthma, Dropsy, Rheumatism, Enlargement of the Spleen, Lowness of Spirits, Piles, Colic, Heartburn, Nausea, Distension of the Stomach and Bowels, Flatulence, Habitual Costiveness, Loss of Appetite, Blotched, or Sallow Complexion, and in all cases of Torpor of the Bowels, where a mild but effective medicine may be requisite.

In short, the general voice of the community has decided that Dr PETERS' Vegetable Pills, are one of the happiest discoveries of modern days, and altogether unrivaled as a general soother of bodily afflictions.
