Excursion to Washington.—The Baltimore & Ohio railroad announces an excursion to Washington from points on the Main stem and branches east of the Ohio river, for Tuesday, March 1st, at the low rate of one fare for the round trip. Tickets will be good for return passage until Saturday March 5th, inclusive. Washington is a city full of interest to the people at all times and it is particularly so during a session of Congress. There is no city in the world so well paved well built or adorned with so many statues and objects of art. The superb Capitol stands matchless as the consummation of the architect's genius and skill; the Washington Monument cleaves the air at a height farther from the earth than any other structure ever reared; the Smithsonian Institution holds within its walls the greatest collection of objects of general and historic interest ever gathered together; the Corcoran Art Gallery, a palatial building filled with works from the brush and chisel of famous masters; these are but few of the attractions which invite the visitor. The long limit of the excursion tickets permits a visit to Mt Vernon, the home and tomb of Washington; Arlington, the splendid seat of Gen. R. E. Lee; the National Soldiers' Home and many other places of interest in the immediate vicinity of Washington. This is a rare opportunity to visit the Capital City at a pleasant season and at small expense.

THOUGHTS
Inspired BY THE Season

SINCE the establishment of the "Mammoth Hardware Store" in this town the people have enjoyed a service which has met every demand and pleased every taste.

The secret of this phenomenal achievement lies in our strict and constant adherence to the following principles:

1. We make no misrepresentations. The goods are just what we sell them for.
2. We handle durable and substantial goods
3. We keep a large variety in all departments of our business.
4. We sell nearly everything demanded by ordinary needs, and the extraordinary are furnished with almost equal celerity as the ordinary.
5. And we sell our goods as low as they can be priced commensurate with a profit sufficient to justify business.

☞ESPECIAL ATTENTION IS CALLED TO A VARIED LINE OF
