FRIDAY, JULY 7, 1882.

—Consideration of the Bankruptcy bill has been postponed in the United States Senate until next December.

—The peach crop of Georgia is so large that it is feared thousands of bushels will be left ungathered for want of transportation facilities.

—The London Medical *Times and Gazette* says that next to cigar manufacturers, printers are more numerous in New York lunatic asylums than men of any trade.

—The pita or silk grass plant, a native of the West Indies, which will grow perennially in the Gulf States and along the Atlantic coast, is being introduced in the South. The experiments so far made with with the pita have been satisfactory

—D. S. Houndshell, a Washington lawyer, recommended a friend to Senator Mahone for appointment to an office. The senator treated the applicant rudely, when Houndshell wrote him a letter denouncing his action as "the giddiness of an upstart whom fortune has elevated above his deserts."

—Commissioner Davenport, of New York, is in Lynn, Mass., securing affidavits for the trial of one Wilson, of New York, said to be the man who came there during the Garfield campaign and forged the name of Mary Morey to a paper certifying that H. L Morey was her son. He has secured much information.

—A special gives an account of the ravages of small-pox in the Indian Territory. At Okmulgee there have been over thirty cases, five of whom have died and ten are thought to be fatal. The adjacent country has suffered severely. Muskegee reports over 200 cases, nearly all of which were fatal. Physicians and nurses are few, and many deaths have resulted from this cause. In isolated localities the ravages of the disease have been simply fearful, old and young being swept away.

—Commodore R. W. Schufeldt, who has for some time been attached to the American legation in China in connection with the Corea treaty, has been detached, with instruction to come home at once. It is stated in official circles that this is due to his open letter to ex-Senator Sargent, containing severe strictures on the highest Chinese authorities, and also a serious imputation against the Empress' character, and which letter is supposed to have been written to affect legislation on the Chinese bill, which was then pending in Congress. Commodore Schufeldt's friends assert, however, that he was detached merely because his mission was completed. The feeling among naval officers generally is that Commodore Schufeldt's conduct was highly reprehensible under the circumstances.

—In reference to the assessments levied upon government employes, it is understood that the sentiment of the administration is not opposed to the action of the committee. A member of the cabinet said to-day that the civil service reforms of the George Wm. Curtis type were quacks and frauds; that there were was no way to raise money unless it was contributed by the officeholders; that it had always been the custom to call upon them, and always would be. The question of the legality and propriety of the action of the committee is now before the Attorney General, and while there is not authority to anticipate his opinion, the belief among members of the committee is that it will be of such a character as will not interfere in the least with their operations. Those who had buttoned up their pockets on the appearance of the George Wm. Curtis circular will therefore get ready to open them.

—Up to the close of the summer session of the Baltimore registers of voters but 51,991 persons were registered, although the recent police census put the number of voters at about 85,000.

—From a memorandum recently compiled by the Commissioner of Pensions, it appears that the actual amount paid for pensions on account of the late war to March 1, 1882, is $500.781 950.

—One of the events of the Evangelist Barnes' campaign in Kentucky was the conversion of thirty-three convicts in the penitentiary. On Sunday last these men were placed in wagons and, surrounded with guards armed with rifles, taken to the river and baptized.

—The remains of the assassin Guiteau were secretly removed on Monday night from the jail where they had been buried and conveyed to the Army Medical Museum on Eighth street. There was an understanding between Warden Crocker and Dr. Hicks prior to the interment that this removal should take place.

—The Senate Committee on Territories decided to report favorably the bill introduced early in the session by Mr. Saunders establishing the territory of Pembina, and providing a temporary goverment therefor. The proposed new territory embraces all that portion of the present territory of Dakota lying north of the 46th parallel of north latitude.

—The debt statement shows the decrease of the public debt during the month of June to be $12,550,696 70. Cash in the Treasury, $243,289,519.78; gold certificates, $5,037 120; silver certificates $66,096,710; certificates of deposit outstanding $13,320,000; refunding certificates, $465,950; legal tenders outstanding $346,681,016; fractional currency outstanding, $7,047,247.77.

—A terrible accident occured near Steubenville, Ohio, about ten o'clock Tuesday night. Two river steamboats collided and were completely wrecked. Both were crowded with passengers, and the lowest estimate places the number of killed and drowned at one hundred. Many were injured. The details of the collision can not yet be obtained. Efforts are being made to have a special train run to the scene of the disaster.

—Third Assistant Postmaster General Hazen has completed a statement of the issues to postmasters by his office of postage stamps, stamped envelopes and postal cards for the fiscal year ended June 30, 1882. The total number issued was 1,740,571,038 pieces of the aggregate value of $40,977,953.42. The total cost of furnishing these articles was $875,936.75, or an increase over the preceding fiscal year of only $19,288.96, or 2¼ per cent., although the increase in the number of articles furnished was 15.7 per cent. The balance shows the postal service to be almost self-sustaining.

—All the green and amber glass works in the United States closed July 1 for two months, thus throwing over 200,000 men out of employment. The closing up of the establishments is compulsory, as none of the men in their employ can work on account of one of the rules of the Glass Works' League which prohibits any manufacture of green or amber glass during the months of July and August. The league claims that the men cannot work continually and steadily through the hot weather, and that physically, the best thing they can do is to stop work, and therefore the rule is enforced.

Don't Die in the House.

Ask druggists for "Rough on Rats." It clears out rats, mice, bedbugs, roaches vermin, flies, ants, insects. 15c. per box.

—Dr. Lemay, state veterinary surgeon, says there is not much pleuro-pneumomia in the State. He reported verbally to the Governor at Annapolis.

BARGAINS TO BE HAD AT WILSON'S.—Elegant Dress Goods at 6¼ and 8 cents per yard. Calico, 5 and 6¼ cents, and Lawns 8 cents a yard.

—If you want good Coffee, Sugar, Syrup, Mackerel, or anything in the Grocery line, the largest, best and cheapest stock can always be found at Wilson's.

—Miss Annie Deaner, of Keedysville, has returned from the City with one of the most select Stocks of Spring and Summer Millinery Goods ever opened in this section. Examine her Styles and Prices before purchasing elsewhere. You are sure to be pleased with her Prices, Materials and Workmanship.

MAYAPPLE AS A MEDICINE.

Owing to the popularity of MAYAPPLE in never failing to restore a Torpid Liver to healthy action, each branch of the Medical Profession, including Allopathy, Homœopathy and Electric Physicians, claim its origin. They all regard it as the vegetable mercury without any deleterious effect, and it is the only known vegetable that acts directly on the Liver, (*when properly prepared, as we claim ours to be,*) any intelligent Physicians will corroborate our statement, and when combined with the best Aromatic Tonics known in the world, makes it

The Only Sure Cure for our National Disease—Dyspepsia.

Gents:—I have been suffering with Dyspepsia for five years and tried nearly all the Patent Medicines, and was told to try "Dr. Thomas' Mayapple Bitters," and after using three bottles was relieved; but by eating a good many things that do not agree with me, I keep a bottle always on hand and take a teaspoonful and am relieved at once.
