FRIDAY, SEPTEMBER 1, 1882.

—A letter from the grand secretary of the Knights of Labor, at Pittsburg, denies that many of the miners recently on strike in the coal regions had withdrawn from the organization. He says that not a single knight has deserted the ranks, and that the order in the coal region is thoroughly organized.

—A deficiency in the receipt of ice at the Treasury Department as compared with the vouchers of the ice company has been discovered. The shortage amounts to 10,000 pounds per month and extends through two years. Official bonds cover the amount overpaid, and it is said there will be no loss to the government.

—The shipments from the mines of the Cumberland coal region for the week ending Saturday, August 26, were 18,683.12 tons, of which 12,543 18 tons were by the Baltimore and Ohio railroad, 4,284.02 by the Chesapeake and Ohio canal, and 1,800.07 by the Pennsylvania railroad. Shipments were made by all the companies excepting the Blaen Avon, Hampshire and Baltimore, Maryland, American, Atlantic and Maryland Union.

—It is rumored that the drivers of the George's Creek Coal and Iron Company and the New Central Coal Company will ask to-day for an increase of thirty-five cents a day. The request, if made, will not be granted. Thirty of the police force at Eckhart were discharged on Wednesday, and fifteen of the new hands left for different points along the canal. The Midland mine, of the Hampshire and Baltimore Coal Company, will resume operations on Monday.

—Portions of Guiteau's brain have been placed in the hands of three pathologists—Dr. Shakespeare, of Philadelphia, Dr. Arnold, of New York, and Dr. McConnel, of Washington—for a report upon its microscopic appearances. These doctors are examining the actual condition of the blood-vessels, nerve corpuscles and other structures of the assassin's brain, without reference to his mental state. Their work is nearly completed and the result will be given to the public in a few days.

—Thomas Smith, a prominent mulatto resident of New Orleans who was buried on Monday, had ten wives at one time. Nine of them survive him. Seven of his widows attended the funeral services and wept freely. Four of them rode to the cemetery, and after the interment returned to the late residence of the dead man, where, with the other widows, they engaged in a free fight about the property. The furniture was demolished and all the women more or less injured. Smith was married by a Baptist minister every time he chose a wife.

—The Philadelphia reporters have discovered the existence of an extensive opium parlor in that city, which is frequented by ladies of the highest respectability, who have fallen into the degrading habit. The interior of the house is furnished with a luxury rarely attempted in a house of the kind. The walls are rich in gilding and decoration, and statuetts, pictures and bric-a-brac are scattered about in every direction. It is kept by a widow lady, who, having acquired the habit in New York, is now reaping a harvest from other unfortunates. Many actresses are among her customers.

—The $35,000 to be paid to Garfield's physicians won't hold out. Dr. Bliss wants $25,000, Drs. Hamilton and Agnew $15,000 each, and Dr. Reyburn $10,800. Dr. Reyburn charges $100 for each day he was in attendance, and $100 additional for each of the alternate nights that he was on duty. Dr. Susan Edson, who was at the bedside of the President almost all of the time, day as well as night, by this calculation will be left without a dollar for her services, as will also Dr. Boynton. Of course, the commission having the settlement of the bills can reduce them to suit themselves. The commission has, however, decided that Drs. Boynton and Edson being technically nurses, they cannot receive anything under the appropriation. They will therefore have to appeal to Congress for such pay as may be given them.

—The case of Sergeant Mason, the soldier who shot at the assassin Guiteau, is again before the Secretary of War, on a supplemental report from Judge Advocate General Swaim, which was submitted yesterday afternoon. This report is in reference to the petition filed with the President by Mr. Bigelow, of Mason's counsel, for the release of his client from the Albany penitentiary, on the ground that he is illegally confined. It is understood that Judge Advocate General Swaim adheres to the legal opinion expressed by him in his original report on this case, which was that the proceedings of the court-martial which tried Mason were irregular, and that his confinement under its sentence was illegal. It is known that the Secretary of War entertains a contrary opinion. No action will be taken in the case until the return of the President.

—Warrants for the payment of $10,000,000 on account of pensions were issued from the Treasury Department last Thursday.

—General Sherman has determined to go upon the retired list of the army in November 1883, several months in advance of the date fixed for his retirement.

—A Chambersburg, Pa., thief stole from the Church of God Sunday School, of that place, the missionary box, robbed it of its contents, and threw the box away.

—The value of Minnesota's hay crop this year is estimated at nearly $20,000,000. The crop amounts to 1,500,000 tons of wild, and 200,000 tons of cultivated hay.

—On Wednesday fifty-two new cases of yellow fever and three deaths were reported at Brownsville, Texas. Eight deaths occurred at Matamoras. Nine cases and one death were reported at Pensacola, Florida.

—Six thousand five hundred and thirty immigrants arrived in New York last week. Among the number on Saturday were thirty-five Russian students, including several women, who are Jewish refugees from Odessa.

—During the fiscal year ended June 30, 1882, 15,699,848 acres of the public lands were sold, an increase over the sales of the preceeding year of about 5,000,000 acres. The amount of cash received for these lands amounted to about $8,261,091.

—Considerable ill-feeling has been developed among American residents in Japan on account of repeated and apparently studied discourtesies to the United States flag on the part of British officers, who say they are acting under instructions from London.

—Despite the Governor's proclamation the saloon keepers in Iowa openly carry on their business. The Prohibitionists doubt whether they can prosecute successfully, since the legislature failed to enact a penalty. A test case at Missouri Valley on Thursday resulted in a complete victory for the saloon interest.

—The estimated number of letters delivered in Great Britain during the past year was 1,229,354,800, the number of postal cards 135,329,000, circulars 271,038,700, and newspapers 140,789,100. The United States sent abroad about $70,000,000 letters, newspapers, &c., and received about 69,000,000. She despatched nine and a half millions of newspapers to Great Britain and received seven and a half millions.

—At the Republican primary conventions held in Frederick and Montgomery counties on Wednesday, delegates were selected favoring all the Congressional aspirants. The delegation of Montgomery county will be divided between Hutchinson, Urner, McComas and Miller. Frederick district selected two sets of delegates, one favoring Urner for Congress, and the other desiring him to receive the nomination for the judgeship of that circuit.

—The following correspondence passed between the Methodist Church and the Free Thinkers' Convention at Watkins, New York.:

"*To the President of the Free Thinkers' Convention:*

"All hail the power of Jesus' name! We are building more than one Methodist church for every day in the year, and propose to make it two a day.

(Signed) "C. C. McCABE,
"Secretary Broad Church Extension, M. E. Church."

"*To C. C McCabe, of Methodist Church Extension,*" *New York:*

"Let us hear less about Jesus' name, and more of His works. Build fewer churches, and pay your taxes on them like honest men. Build better churches, since liberty, science and humanity will need them one of these days, and won't wish to pay too much for repairs.

(Signed) "T. B. WAKEMAN,
"President pro tem. Free Thinkers' Convention."
