TIMELY CAUTION.

Genuine Hop Bitters are put up in square panneled, amber-colored bottles, with white label on one side printed in black letters, and green hop cluster, and on the other side yellow paper with red letters; revenue stamp over the cork. This is the only form in which genuine Hop Bitters are put up, and the sole right to make, sell and use them is granted to the Hop Bitters M'f'g Co., of Rochester, N. Y., and Toronto, Ont., by patents, copyright any trade mark. All others put up in and other way or by any one else, claiming to be like it or pretending to contain hops, by whatever names they may be called, are bogus and unfit for use, and only put up to sell and cheat the people on the credit and popularity of Hop Bitters.

It is wonderful how the modest citizen, who objects to seeing his name in the paper will want to whip the entire establishment, if it should happen to get in print, with one letter left out.

AN ELEGANT TOILET PREPARATION, hair dressing and restorative is found in "LONDON HAIR COLOR RESTORER" It seldom fails to restore gray or faded hair to its original youthful color and beauty. Falling hair is checked by its use, and it produces a growth of beautiful young hair, soft, glossy and luxuriant. It certainly is the most cleanly and effective hair restorer now before the American people.

A. A. Gibson, Tarrytown, Dutchess county, N. Y., writes: Dr. Swayne & Son, Philadelphia: Gents—I enclose a post-office order for $8; please send me one dozen "London Hair Color Restorer." It has stopped my hair from falling and restored it to its natural color. It has proved satisfactory in every respect. The "London Hair Color Restorer" can be obtained at all the leading druggists at 75 cents a bottle. In Sharpsburg by G. F. Smith.

A WONDERFUL DISCOVERY!

CARBOLINE.

A DEODORIZED EXTRACT OF PETROLEUM.

The only Article that will Restore Hair on Bald Heads.

WHAT THE WORLD HAS BEEN WANTING FOR CENTURIES.

The greatest discovery of our day, so far as a large portion of humanity is concerned, is CARBOLINE, an article prepared from Petroleum, and which effects a complete and radical cure in case of baldness, or where the hair, owing to diseases of the scalp, has become thin and tends to fall out. It is also a speedy restorative, and, while its use secures a luxuriant growth of hair, it also brings back the natural color, and gives the most complete satisfaction in the using. The falling out of the hair, the accumulations of dandruff, and the premature change in color, are all evidences of a diseased condition of the scalp and the glands which nourish the hair. To arrest these causes the article used must possess medical as well as chemical virtues, and the change must begin *under* the scalp to be of permanent and lasting benefit. Such an article is CARBOLINE, and like many other wonderful discoveries it is found to consist of elements almost in their natural state. Petroleum oil is the article which is made to work such extraordinary results; but it is after it has been chemically treated and completely deodorized that it is in proper condition for the toilet. It was in far-off Russia that the effect of petroleum upon the hair was first observed, a Government officer having noticed that a partially bald-headed servant of his, when trimming the lamps, had a habit of wiping his oil-besmeared hands in his scanty locks, and the result was in a few months a much finer head of black, glossy hair than he ever had before. The oil was tried on horses and cattle that had lost their hair from the cattle plague, and the results were as rapid as they were marvelous. The manes and even the tails of horses, which had fallen out, were completely restored in a few weeks. These experiments were heralded to the world, but the knowledge was practically useless to the prematurely bald and gray, as no one in civilized society could tolerate the use of refined petroleum as a dressing for the hair. But the skill of one of our own chemists has overcome the difficulty, and, by a process known only to himself, he has, after very elaborate and costly experiments, succeeded in deodorizing petroleum, which renders it susceptible of being handled as daintily as the famous *eau de cologne*. The experiments made with the deodorized liquid on the human hair were attended with the most astonishing results. A few applications where the hair was thin and falling gave remarkable tone and vigor to the scalp and hair. Every particle of dandruff disappears on the first or second dressing, and the liquid, so searching in its nature, seems to penetrate to the roots at once and set up a radical change from the start. It is well known that the most beautiful colors are made from petroleum, and by some mysterious operation of nature the use of this article gradually imparts a beautiful light-brown color to the hair, which, by continued use, deepens to a black. The color remains permanent for an indefinite length of time, and the change is so gradual that the most intimate friends can scarcely detect its progress. In a word, it is the most wonderful discovery of the age, and well calculated to make the prematurely bald and gray rejoice.

We advise our readers to give it a trial, feeling satisfied that one application will convince them of its wonderful effects.—*Pittsburg Commercial of October* 22, 1877.

The article is telling its own story in the hands of thousands who are using it with most gratifying and encouraging results.

MR. GUSTAVUS F. HALL, of the Oates Opera Troupe writes: "After six weeks' use am convinced, as are also my comrades, that your CARBOLINE has and is producing a wonderful growth of hair where I had none for years."

N. MCCLARRAN, Sixth Avenue Pharmacy, Pittsburg, Pa., says: "The good effects from the use of CARBOLINE are brought to my notice every day to such an extent as to justify me in recommending it to my most intimate friends."

CARBOLINE Gives the utmost satisfaction as a Hair Renewer.
CARBOLINE Has a magical effect on gray hairs.
