A NOTED BUT UNTITLED WOMAN.

[From the Boston *Globe*.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of *either* sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are *the best in the world* for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

CRACKS IN STOVES—Cracks in stoves may be effectually stopped by a paste made of ashes and salt mixed with water.

WATER AS A DEODORIZER.—Water is a much better deodorizer than is generally supposed. It has great absorbing capaciity. Fresh water running through a milk-room keeps it free from odors.

TO SEW BUTTONS ON SECURELY.—When sewing buttons on children's clothes where there will be much strain on the button, the danger of tearing the cloth out will be greatly lessened by putting a small button directly under the larger outside button. This applies, of course, only to buttons with holes through them.

LEMON FROTH.—The yolks of four eggs, slowly beaten up with half a pint of hock over the fire, juice and rind of a lemon, and sugar to taste. Do not let it boil or it will curdle. Beat the whites of the eggs to a solid froth, add them to the sauce directly it is taken off the fire, and beat all together for five minutes. Half the quantity is sufficient for a small number.

POOR MAN'S FRUIT CAKE.—This cake is excellent as well as economical. Take one and a half cups of brown sugar, two cups of flour, one of butter and one of chopped raisins, three eggs, three tablespoons of sour milk, half a teaspoon of soda. half a cup of blackberry jam. Mix the sugar, butter and eggs together first, then the flour and milk and fruit. Bake in a moderate oven.

EGG AND TOAST.—For this a perfectly fresh egg is necessary; put a pan half full of hot water on the stove. with a little salt in it, let it come to a full boil, break your egg carefully in it, cover, and put back on the stove till the white is firm Take out of the pan with a skimmer, and slide into a bowl of hot water while you make and butter your toast. Take up the egg carefully on a perforated skimmer, shake dry trim off any ragged edges, and serve immediately on the toast. Sprinkle a little salt and pepper on the egg. If this is well and neatly done it is appetizing for sick persons.

COLTS.—Handle colts gently and feed well and regularly. Tie them in their stalls and teach them proper discipline as soon as may be.

ORCHARDS.—An orchard should never be planted in a clay soil unless the latter is underdrained, after which it becomes one of the best soils for apples and pears.

OVERLOADED TREES.—A tree overloaded with fruit can neither perfect the fruit nor ripen its wood properly. A great many trees are annually ruined by too much cropping.

FERTILIZERS.—All concentrated fertilizers should be applied by broadcasting, in preference to placing them in the hill, as too large a quantity in a small area is sometimes fatal to seeds.

SHEEP.—Sheep are said to be the "animals with the golden hoof;" they enrich where they go not only the master but the soil. Sheep are the best manure makers, the best weed destroyers, the best grubbers, the most easily cared for, and require the least cost for fencing and barns of all the stock kept on the farm.

PRUNING.—Pruning may be performed at any time, but where there are only a small number of trees to be cared for it is preferable to delay it until February. Give the orchard a shallow and careful plowing, not disturbing the roots. Dig under a liberal top dressing of fertilizers equal to the spread of the branches of the trees.

THE COMPOST HEAP.—As manure is not available as plant food until it is decomposed and dissolved it should be so managed as to thoroughly rot it before it is used, if one would get the full benefit at once. Straw and cornstalks are not manure, but when mingled with fermenting droppings from animals, they soon become available. To decompose the rougher portions of the manure heap as quickly as possible it is best to turn it over and expose it to the atmosphere and keep it moist, so that a continual heat may be preserved.

ANOTHER GOOD BOY.

A Detroit grocer was hungrily waiting for his clerk to return from dinner and give him a chance at his own noonday meal, when a boy came into the store with a basket in his hand and said—

"I seed a boy grab up this 'ere basket from the door and run and I run after him and made him give it up."

"My lad, you are an honest boy."

"Yes, sir."

"And you look like a good boy,"

"Yes, sir."

"And good boys should always be encouraged. In a box in the room there are eight dozen eggs. You may take them home to your mother and keep the basket."

The grocer had been saving those eggs for days and weeks to reward some one.

In rewarding a good boy, he also got eight dozen bad eggs carried out of the neighborhood free of cost, and he chuckled a little chuck as he walked homewards.

The afternoon waned, night came and went, and once more the grocer went to his dinner.

When he returned he was picking his teeth and wearing a complacent smile.

His eye caught a basket of eight dozen eggs as he entered the store and he queried—

"Been buying some eggs?"

"Yes, got held of those from a farmer's boy," replied the clerk.

"A lame boy with a blue cap on?"

"Yes,"

"Two front teeth out?"

"Yes,"

The grocer sat down and examined the eggs.

The shells had been washed clean, but they were the same eggs that the good boy had lugged home the day before.

A BEAUTIFUL SENTIMENT.

On the 1st of May the citizens of Vicksburg Mississippi, decorated the graves of the Confederates buried in their beautiful cemetery. The following is the closing stanza of a poem written for the occasion by Miss Hunt, the "Madge" of several Southern journals:

Ours the fate of the vanquished,
Whose heartaches never cease;
Ours the tears,
Regrets and fears—
Theirs the eternal peace.
Anger they dropped forever
With the passing burden of breath,
The Blue and the Gray
Are alike to-day
In the colorless land of Death.
And the living who wore the Blue
May bring to the sleepers flowers.
For the Blue and the Gray are friends to-day
In a happier land than ours.

THERE'S A LIMIT TO EVERYTHING.—"There, isn't that just too provoking for anything," exclaimed Mrs. Smiffkins throwing aside the paper with a look of angry disappointment. "It's always the way though; I never get interested in a newspaper article unless it ends up with "Blank & Co.'s soft soap cure for biliousness or some other patent medicine advertisement." Now that sort of advertising is all wrong. Mrs. Smiffkins would never have been vexed had she read Dr. Swayne's ten line notice of his Ointment for skin diseases.

—A man undertook to paint the destruction of Pharaoh's host in the Red Sea on one of the walls of a room. After a very short time he much surprised his employer by asking him to come and view the finished picture. On going to inspect it he found the walls covered with red paint. "Where are the children of Israel?" he asked. "Gone over," answered the painter. "Where are Pharaoh's hosts?" he next inquired. "All, drowned," said the painter.

—For dizziness, headache, pain in the back, biliousness, and fever and ague, use only "Sellers' Liver Pills."

—A Bob Ingersoll sort of a fellow says he would invest more faith in that story about Nebuchadnezzar being turned out to grass if it occurred in Timothy.

ANSWER THIS.—Is there a person living who ever saw a case of ague, biliousness, nervousness, or neuralgia, or any disease of the stomach, liver, or kidneys that Hop Bitters will not cure?

—We are all of us liable to commit blunders; but it is only the wise who profit by them.

—"My wife," remarked Fitzsoodle, "is fairly crazy over the fashions. She's got the dilirium trimmins."

—There is nothing so easy as to be wise for others; a species of prodigality, by the way—for such wisdom is wholly wasted.

—Some men and women talk by the yard and think by the inch.

—The peculiar action on the kidneys and urinary organs of asparagus is frequently noticed during the season. Prof. Benson recently proved in the case of the Emperor William and others that in combination with malt and quinine it is an absolute specific for diseases of the liver, kidneys and urinary organs. His method has been adopted by the Malt Bitters Company, and this great German food is now composed of malt, hops, quinine bark and asparagus. —*Medical Times.*

—A clergyman was traveling through the Humboldt mountains with an old miner. Said the miner: "Do you really believe that God made the world in six days?" "Of course I do." "Well, don't you think," returned the miner, "that he might have put in one more day to advantage right around here?"

The Norfolk and Western, Shenandoah Valley and New River Railroad Companies,

desiring to promote the establishment of mining and manufacturing operations throughout the territory tributary to their railway system, and to attract the attention of immigrants to this desirable agricultural district, and, at the same time, to provide a safe and reliable means of communication between holders of agricultural and mineral lands and parties seeking locations for settlement and investment, have sanctioned the establishment by Mr. Joseph B. Austin, of a BUREAU OF IMMIGRATION AND MINING INTELLIGENCE.

Mr. Austin has located his office for the present at WYTHEVILLE, WYTHE COUNTY, VIRGINIA, to which point all communications to him should be addressed. Upon the completion of the Shenandoah Valley Railroad to a connection with the Norfolk & Western Railroad, which will be effected at Roanoke, Roanoke County, Virginia, in May, 1882, the principal office of the Bureau will be removed to Roanoke.

A monthly bulletin of properties for sale will be issued for circulation among investors, manufacturers, and agriculturists.

The Commissions charged will be moderate.

Parties having lands for sale are invited to record them at this Bureau, with plans, maps, description of improvements, and of mineral deposits, analysis of minerals, price, &c., &c.

It is hoped that, by means of such an organization, the material developement of the resources of this rich, salubrious, and fertile section of Virginia may receive an effectual and permanent impulse, and public attention be directly and practically assured to its varied and remarkable elements of national wealth and prosperity.
