## WHY YOU ARE NERVOUS

The nervous system is the alarm system of the human body.

In perfect health we hardly realize that we have a network of nerves, but when health is ebbing, when strength is declining, the same nervous system gives the alarm in headaches, tiredness, dreamful sleep, irritability and unless corrected, leads straight to a breakdown.

To correct nervousness, Scott's Emulsion is exactly what you should take; its rich nutriment gets into the blood and rich blood feeds the tiny nerve-cells while the whole system responds to its refreshing tonic force. It is free from alcohol.

## "We Know That's True, Father—Every Word of It"

You folks in the country know that there is nothing in the world so comfortable and homelike as plenty of good, bright light—and nothing so depressing and gloomy as poor, dim, smoky light.

For years people had to stand the poor light—disagreeable smell and danger of kerosene lamps—because they couldn't get anything better.

But these last few years have so changed living conditions that up-to-date farm families won't be satisfied—any longer—with poor light.

# Pilot-Carbide-Outdoor
## Lighting and Cooking Plants

have totally changed the old fashioned methods of house and barn lighting and cooking in the country home.

Hundreds of thousands of progressive farmers in all parts of the country have taken advantage of this wonderful modern improvement.

They have selected the PILOT because they have been quick to see the value of good light—its safety and the convenience it brings to their homes.

They have selected the PILOT because it gives them not only all the fine, bright, inexpensive light they can use—but cooking fuel as well.

***There is no excuse—today—for any family to struggle under the burden of out-of-date old fashioned lighting methods.***

Just because your father and grandfather used oil lamps and lanterns is no reason why you should any longer put up with their danger and poor light.

Light the modern way—the safe way—with the PILOT.

The PILOT stands out of doors—on top of the ground—anywhere. It is simple to install, automatic in operation and requires only a few minutes' attention for re-charging at infrequent periods.

Let the PILOT put your home in the "Good Light" Class.

Find out today about this modern lighting plant. You owe it to yourself. You owe it to your wife and children. You can well afford the little it will cost.

Write for illustrated catalogs and descriptive booklets giving all the facts.
