Wood's Seeds

Tall Meadow Oat Grass

is one of the best of hay and pasturage grasses for our Southland; considered better than orchard grass for light and medium soils; also makes an excellent combination with orchard grass and red clover for hay and pasturage.

It is rapidly increasing in popularity wherever sown. We strongly recommend it as one of the surest cropping and most dependable grasses grown.

"Wood's Crop Special" for September gives specially full information about this valuable grass, also prices and seasonable information about all **Seeds for Fall sowing.**
