REPUBLICAN TICKET.

FOR CONGRESS,
ROBERT GARRETT,
OF BALTIMORE COUNTY.

ELECTION, TUESDAY, NOVEMBER 6TH.

RAYNERIA.

U. S. Senator Rayner is quoted, in an interview with a reporter of the Baltimore Evening *News*, with attributing to President Roosevelt a purpose, if elected again, to force the annexation of Cuba, Central America and South America down to the Orinoco, excepting only foreign possessions. This opinion is expressed, too, in the face of the fact that every act of the President and his immediate agent, Secretary Taft, in the present effort to restore peace in Cuba indicates only a determination to afford the Cubans another opportunity to establish a stable government of their own on the Island. Mr. Rayner only makes himself ridiculous by the expression of such opinions.

In the same interview Mr. Rayner asserts that the elections which have kept the Republican party in power in this country were as rotten as those in Cuba, which led to the recent insurrection. This he says, although the "rotten" elections with which he is most familiar were those which were brought to an end by the Republican victory of 1895 in this State. It was a "rotten" election, too, in New York which made Mr. Cleveland President in 1884. But then Mr. Rayner is nothing unless he is snarling at something or somebody, and his sarcastic utterances are not entitled to much attention.

THE CUBAN PROBLEM.

The Government of this country confronts a problem not easy of solution, in its relations with the Cuban Republic. It has felt constrained to interfere in the affairs of the Island for the purpose of restoring the peace broken by an insurrection against the Cuban Government, which the authorities of the young republic were unable to suppress. To accomplish this many warships have been sent to Cuban waters and thousands of troops are being hurried to the scene. Efforts were made to induce the Cuban Government to treat with the insurrectionists, but President Palma declined to do so and resigned his office. The Cuban Congress failed to elect his successor and Secretary Taft has declared himself Provisional Governor and is using his best endeavors to rehabilitate the government of the Island. The chances are that he will succeed and the people of Cuba will again be left to manage their own affairs in a lawful way until another insurrection shall occur, a result by no means improbable. There is a restless element among the Cuban people, which can never long submit to the restraint of law, and it will always be easy to find a pretext upon which to engage in insurrection against the lawfully constituted Government, even if that Government shall not, as in the present instance, furnish a justifiable pretext for such action.

What then? Is the Government of the United States to be constrained to interfere periodically to save the Cubans from themselves and to use its Army and Navy to perpetuate an independent republican government in the Island? And that, too, at its own charges; for there appears to be no provision in the Platt amendment for reimbursing this country for any outlay incurred in maintaining order in Cuba.

It is not surprising that in contemplation of these probable conditions there are many advocates of annexation, and there is very little doubt that that would be about the best thing that could happen for Cuba. It is not so certain by any means, however, that it would be the best thing for the United States. Cuba could not well be held as a mere dependency after annexation, but would soon seek and be given statehood. But even that relation would not prevent insurrection. Maicon tents could as well rebel against a State government as against the authority of the republic.

If annexed and held as a dependency there is no warrant for believing that peace could be maintained without quartering a strong force of American troops on the Island. Even such a force would find it difficult to prevent raids upon peaceful sections by guerrillas from the mountain fastnesses which abound. Bands of Cubans kept up a predatory warfare for ten years against large bodies of Spanish soldiers. It is true the American soldier is of a different type, but he would find it difficult to suppress, entirely, the guerrilla element.

It seems, therefore, that, whether with or without annexation, Cuba is something of an elephant on the hands of the United States, and he is a wise statesman who can suggest the best solution of the problem. Further, there are interests in the United States of such a character as present a strong consideration against annexation. Annexation would mean the cessation of tariff duties upon imports from Cuba and this would probably ruin one of the most important and rapidly developing industries of the country, the manufacture of beet sugar. Statistics show that this industry, though yet in its infancy, has grown with astonishing rapidity within the last five years. Free sugar from Cuba would, at this juncture, practically destroy it. Viewed from this standpoint annexation is not desirable and the Cuban problem loses nothing of its perplexing character. For the present, however, the only thing to be done is to rehabilitate the Cuban Government and leave the consideration of its ultimate status to the future; and that, we presume, is about what will be the result of the existing interference of this country in the affairs of the "Gem of the Antilles."

Five men were killed and eight injured by the explosion of a "cooler" at Sparrows Point, on Wednesday. The men killed were literally roasted to death under a mass of burning coke which flowed from the furnace to which the cooler was attached. All the dead were colored, as were also several of those injured.

REGISTER! REGISTER!!

DON'T FORGET TO REGISTER.

Citizens entitled to registration as voters, but whose names are not on the lists, should need no urging to have them placed there. The elective franchise is a sacred right as well as a privilege and in its exercise by the people lies the safety and perpetuity of republican government.

An important election is impending and the policies which have made the country the most prosperous in the world are in issue. The Democratic party is fiercely assailing those policies. They cannot succeed if the friends of Protection rally to its support and cast their ballots in November. To be prepared to do this they must be registered. There is but one more sitting of the registers when names can be added to the lists. That will be

Tuesday, October 9, 8 A. M. to 7 P. M.

Every Republican and every other friend of Protection, whose vote will count in its favor, is earnestly invoked to see that his name shall appear on the list of registered voters.

DEMOCRATIC CAMPAIGN TEXT-BOOK.

(Chairman Sherman's Brief Summary.)

The Democratic Campaign Text-Book is from beginning to end a confession—a confession of poverty—poverty of ideas—poverty of issues—poverty of performance. About 200 of its 243 pages are consumed in a recital of ancient history—dead and buried issues—and might well bear the headlines:—"Graveyard Epitaphs." A single allusion only is made to the work of the 59th Congress. Not a word of commendation for the pure-food law or the free-alcohol law or the employer's liability law or the meat inspection provision. From beginning to end the book is one long tirade against protection to American labor and American industries, and against progress and prosperity, reaching the profound conclusion:

"That the present 'boom' will be followed by a panic is only a question of time," presumably the time when the Democrats again get into power.

We could not ourselves, had we edited the work, put out a better Text-Book for gaining Republican votes.

The Great Gulf Storm.

The great storm in the Gulf of Mexico, of which brief mention was made in this paper last week, was more destructive than was at that time supposed. The city of Mobile, Ala., and its vicinity, appear to have been about the centre of the storm and suffered the greatest destruction of life and property. Many vessels in the harbor and bay and along the coast were wrecked and buildings in the city were damaged. The loss is conservatively placed at $8,000,000. Pensacola had also a trying experience and other places on the south and west coast of Florida suffered severely. The storm extended westward of New Orleans, in the vicinity of which much property was damaged or destroyed and a number of lives lost. Following is a brief summary of the general effect of the storm:

Number of lives lost, estimated at from 125 to 175.

Property loss, estimated at from $15,000,000 to $20,000,000.

Damage to cotton crop, from 15 to 20 per cent.

Number of families made homeless, estimated at from 1100 to 1500.

Number of vessels sunk or damaged, nearly 200.

Number of light houses swept into the sea thus far reported, 14.

Greatest velocity of wind, 109 miles an hour.

State Convention W. C. T. U.

The annual convention of the Maryland W. C. T. U. was held this week in Frederick. Among the proceedings was the report of the treasurer, Miss Frances A. Cathcart, which shows the total membership of the union in Maryland to be 2,831, a slight increase over last year, and giving the following financial statistics: Total receipts, $3,126.81; expenditures $2,905.34; balance, $221.47. Subscriptions to Frances E. Willard Fund, $128.52. Total receipts for Free Kindergarten work, $849.74; expenditures, $727.44.

The report of the Loyal Temperance Legion was read by Mrs. Hattie M. Curry and showed a membership of 2,123, an increase of 500 over last year. Among the legions reported are three in this county with a membership of 134, an increase of 17 during the year.

There is every indication, it is said, that the State S. S. Convention to be held in Baltimore, Thursday and Friday next, will be the greatest Sunday School convention in the history of the association, and the counties will undoubtedly play a large part in making it so.
