BOAT FOR FERRY BOUGHT

Harry B. Wolf Says It Will Be In Operation In Short Time—To Sail From Bay Shore—Eastern Terminus May Be Tolchester Or Rock Hall.

Harry B. Wolf said Tuesday night that interests associated with him had purchased a ferry boat in New York and would put it into operation between Bay Shore and the Eastern Shore within a short time. Papers incorporating the Baltimore- Eastern Shore Ferry Company will be filed with the State Tax Commission, he said, and the boat probably will be named the City of Baltimore.

Officers of the ferry company have not been selected, Mr. Wolf stated. That will be determined later by T. Rowland Thomas, president of the National Bank of Baltimore, and other business men interested in the enterprise. Mr. Wolf was confident that these details would be disposed of promptly, and the company soon be ready for business, although he was not certain exactly when the boat would reach Baltimore.

The route to be followed by Mr. Wolf's ferry is similar to that of the State-promoted ferry which Governor Harrington has been planning, and upon which Roads Chairman Zouck reported a day or two ago.

The McLean Construction Company was said to be making preliminary soundings at Bay Shore for a pier for the Wolf company. The eastern terminus of the ferry may be Tolchester to meet a committee from the Eastern Shore and study the locations on the Shore.

The boat owned by the ferry interests is said to be 200 feet long, with a beam of more than 60 feet. She can carry from 60 to 75 automobiles, and make 15 miles an hour, which may be increased two miles by installing an oil-burning engine.
