SHEEP VERY VALUABLE—TAKE CARE OF THEM

Ira K. Caulk in the Easton-Star Democrat very strongly advises good care of the sheep flock. By all means keep them out of the cold rains and snows. "Don't forget last year, when nearly all crops failed you. What a mighty help your lambs and wool were. They will be just as high this year, especially wool. The many millions of pounds that our manufacturers were waiting for to come from Australia did not materialize, as Great Brittain needed it worse than the United States, and there it is going. This situation caused wool that was selling for 67 to 70 cents in July to sell around 50 cents in October and November. This same grade of wool today is worth around 74 cents to the farmer, and fine wool from the Merino and what we term Modocks or half-breeds is selling readily at $1.00 per pound."

John H. Moffett, poultryman, at Lynch, will display a number of his best birds at the Philadelphia poultry show, next week.

HARPER IS ELECTED N. A. D. PRESIDENT

Philadelphia Overland Distributor Is Chosen At Annual Convention Held In Chicago.

Activities of the National Automobile Dealers' Association during 1920 toward the protection and furthering of the interests of the 30,000 automobile dealers it represents, will be directed by H. B. Harper, of the Overland Harper Co., Philadelphia, who was elected to the presidency of that organization at its third annual convention at the LaSalle Hotel, Chicago, on January 26 and 27. Harper, who is the largest distributer of Overland cars in the United States, has behind him a long and successful record in the automobile industry, which ably qualifies him for the position he now holds.

It was back in 1905 that H. B. Harper, the new president, started his career in the automobile field, going with F. S. Bowser & Co., oil tank manufacturer, in that year as advertising manager. In 1907 he became advertising manager for theFord Motor Co., Detroit, and in 1909 was promoted to export manager of the newment of the Ford Company, with headquarters in New York. Harper left Ford in 1911, to fill the newly created position of export manager for the Willys-Overland Company, Toledo. The following year he was made assistant sales manager, and inside of twelve months, or in 1913, was promoted to be general sales manager. Harper's work is reflected in the fact that between 1911 and 1918 the sales of the Willys-Overland Co. increased from 14,000 cars to approximately 200,000 cars a year. On January 1, 1918, he left that company to become distributer at Philadelphia for Overland and Willys-Knight cars. At the end of the first year Harper's sales in the Overland Harper Co. were the largest in the entire Willys-Overland distributer organization.—Adv.

IN MEMORIAM

In sad but loving remembrance of my dear husband and our loving father, CHAS. H. JONES, who departed this life six years ago February 7, 1914.

Your picture on the wall,
I gaze on every day;
And looking into your dear eyes,
They seem to say;
'Tis wrong to grieve so hard for me,
For we'll meet some future day."
Oh how hard it was to give you up,
And have you placed beneath the sod!
But I must drink the bitter cup
And submit to the will of God.
LOVING WIFE.

The golden gates were open,
And a gentle voice said come,
And with farewell unspoken;
He calmy entered home.
WILLIAM.

When the heavenly gates are open,
And the hinges turn for me,
There will be a happy meeting
Of dear father and me.
DELLA.

We miss him and mourn him in silence unseen,
And dwell on the memory of joys that have been,
Unknown and forgotten by some he may be,
But the grave that contains him is sacred to me.
How much I miss his knid advice,
In this great struggle of life;
How different do I find things now,
Than when he was here in life.
FLORENCE.

My heart has been crushed and broken,
My life has been lonely and sad,
And only the presence of your dear face
Could even make me glad.
HELEN.

Sleep on dear father, and take your rest,
God called you home, He thought it best;
He saw your sufferings here were great,
And opened wide the golden gates.
CHARLES.

I did my best, God only knew,
To save his life I could not do,
For some good cause, I cannot tell,
God took him home with him to dwell.
MAURICE.

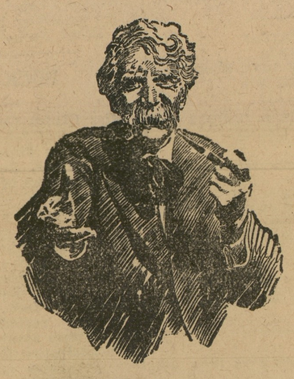
The Velvet tin is twice as big as shown here

"No Rheumatics" is a Mighty Poor Reason for Wearing a Wooden Leg

NO sting or hot burnin' is a mighty weak-kneed recommendation for tobacco. But when tobacco *is* mild and cool, and yet as full of "fun" as a barrel of monkeys—well, that's another story—that's Velvet.

And cause why?

'Cause Velvet is *brought* up—not jerked up by the hair. It's raised as carefully as a favorite child. It's cured in the big fresh air. And it mellows away for two years in wooden hogsheads 'til it's smooth and rich as cream. The wonder would be if Velvet *wasn't* a whacking good pipe smoke.



"Let Nature mellow yo' tobacco an' that tobacco will shore mellow yo' nature," says Velvet Joe. And he's pretty nearly right.

NATURE-AGEING in the wood does more to make tobacco friendly than any camouflage you can cover it with—and don't you forget it. *See, taste, smell, feel* the "real tobacconess" in Velvet. Why, you can almost *hear* it. Velvet's the tobacco you can judge with your eyes wide open and specs on.

There's a whole lot in Nature's way of making good tobacco better. And it's all in Velvet.

Here's to a full pipe and a friendly one.
