FRIDAY, MAY 3, 1907.

Accidentally the statement from a business house in Baltimore explaining the causes of the advance in price of cotton goods, intended to be published on the fourth page of the SENTINEL this week, was omitted. It will appear next week.

The municipal campaign in Baltimore is waxing very warm as election day approaches and all sorts of predictions are being made concerning the probable result. The Republicans seem to content themselves by expressing the opinion that Mayor Timanus will be elected by a safe majority, without naming figures. For a time Democrats claimed that their ticket would be elected by 20,000. This was, of course, too extravagant to be swallowed, even by the most credulous of their followers, and now the figures are coming down to 12,000 to 6,000 and perhaps less. About the most certain feature of the business will be the success or defeat of the ambition of the new boss, Ex Governor Frank Brown, according as the election shall result. If Mahool shall be elected the Ex-Governor will become a possibility for the United States Senate. Otherwise his political career will be cut short.

It is said the greatest run of herring in Maryland waters, for many years, is taking place at this time, large schools being on the move towards the headwaters of the streams emptying into the Chesapeake bay above the Patapsco. So abundant are they that in many localities the farmers are catching and using them for fertilizing purposes. As the herring is a food fish this looks like wilful waste and probably should not be permitted. If there be no law on the statate books to prohibit it the next legislature should promptly enact one. There is no probability that the supply will continue so abundant as to justify the wholesale destruction of these fish now, or at any future time. Their appearance in such numbers as reported may lessen the profits of the fisherman, but will cheapen the price to consumers, who are entitled to the advantages of such a condition.

THE JAMESTOWN EXPOSITION.

The Ter-Centennial Exposition to celebrate the first settlement on this continent, at Jamestown, Va., after its discovery by Columbus, was opened on Friday last with ceromonies becoming such an occasion. A great fleet of American and Foreign warships was present and was reviewed by President Roosevelt. Those who witnessed the great naval procession speak of it as a magnificent spectacle, which seen can never be forgotten by them. The ceremonies incident to the opening were attended by many thousands of people, the day was propitious and the exposition was inaugurated under favorable conditions, although not entirely in readiness for the exhibition of all the vast aggregation of articles to be displayed and the other features incident to expositions generally.

The President was the central figure and was surrounded by diplomatic, military and naval representatives from the big and little powers of the world. He delivered a thrilling address which fairly bristled with such sentences as the following:

"We are unalterably determined to prevent wrongdoing in the future; we have no intention of trying to wreak such an indiscriminate vengeance for wrongs done in the past as would confound the innocent with the guilty.

"Our purpose is to build up rather than to tear down. We show ourselves the truest friends of property when we make it evident that we will not tolerate the abuses of property.

"This great republic of ours shall never become the government of a plutocracy, and it shall never become the government of a mob.

"Men must govern themselves or they must submit to being governed by others.

"The people must show a sober understanding and a sane and steadfast purpose if they are to preserve that orderly liberty upon which as a foundation each republic must rest.

"In our industrial matters our enormous prosperity has brought with it certain grave evils. It is our duty to try to cut out these evils without at the same time destroying our well-being itself.

"At the moment the greatest problem before us is how to exercise such control over the business use of vast wealth, individual, but especially corporate, as will insure its not being used against the public, while yet permitting such ample legitimate profits as will encourage individual initiative.

"It is our business to put a stop to abuses and to prevent their recurrence, without a spirit of mere vindictiveness for what has been done in the past.

"The leading nations of mankind as in their several ways they struggle constantly toward a higher civilization, may advance hand in hand, united only in a generous rivalry to see which can best do its allotted work in the world.

"I believe there is a rising tide in human thought which tends for righteous international peace.

"We can all claim the same pride in the valor, the devotion and the fealty toward the right as it was given to each, shown alike by the men who wore the blue and by the men who wore the gray."

At the close of his address the President pressed the golden button in the reviewing stand, a thousand flags upon the buildings within the grounds were unfurled and flung to the breeze; the great guns from the mighty war vessels in the blue waters of the bay boomed a salute; the cannon across at Fort Monroe roared, and the people cheered with enthusiasm.

The only other address was by President Tucker of the Exposition Management.

Maryland was well represented on the occasion by numbers of prominent citizens of whom Governor Warfield, as chief executive of the State, was at the front.

With a view to developing a new summer resort, part of the farm of the late Charles Shipley, adjoining the town of Thurmont, Frederick county, is to be laid off into building lots, with a 23½ acre section reserved as a hotel site. The proposed hotel site is an eminence commanding a view of the whole Monocacy Valley from Round Top, at Gettysburg, Pa., to the Sugar Loaf Mountain, in Montgemery county, Md., besides a fine view of the Blue Ridge Mountains. The Thurmont Water Company will extend its mains to these building sites.

William Robinson, aged 38 years, committed suicide Tuesday night or Wednesday morning by hanging himself to a rafter in a blacksmith shop at Liebsville, Frederick county. Melancholia, due to disappointment in a love affair, is assigned as the cause of the act.

Fighting the Mosquito Pest.

Mosquitors are not only annoying but dangerous insects, as they propogate diseases of different kinds. It has become perfectly well known that a certain species of mosquito is the propogator of yellow fever. So mosquitoes spread typhoid and other fevers in our own State, especially where marsh lands are abundant or other local conditions are favorable to the propogation of the insect. Acting upon this theory many cities have passed ordinances requiring the use of methods to destroy the pest. Baltimore has such an ordinance, and Dr. James Bosley, head of the health department of the city, has issued the following instructions to property owners and housekeepers explaining the means to be used in enforcing its provisions:

1. All cisterns, tanks and water wells shall be covered with wire gauze not coarser than 18 wires to the inch both ways (this size of wire mesh is required, when screens are ordered). All cellar drainer boxes shall be permanently secured.
2. All pools, ponds, fountains or other water receptacle not containing fish shall be screened as above or covered with kerosene oil (crude petroleum, this applies to all places public or private).
3. Water shall not be allowed to remain in any can, pitcher, bottle, bucket, barrel, trough or any other receptacle, except same be in daily use, unless such receptacle be emptied, dried or cleaned once every five days.
4. Fire barrels shall be screened as above mentioned.
5. Water shall not be allowed to stand in any drain or gutter after a rain.
6. All privy wells shall be thoroughly covered with kerosene oil once every 15 days; half pint of crude petroleum to be used each time.
7. All broken bottles, crockery and opened tin cans of any description shall be removed by garbage collector or buried (this applies also to open lots and dumps).
8. When citizens leave houses for more than five days the water should be turned off from the dwelling, and all receptacles of water should be emptied. This applies especially to water closet tanks. All ash and garbage cans must be placed upside down to prevent rain water being collected therein.

The people of this locality might observe these instructions voluntarily with benefit to the public generally. There is no law here to compel such action; but a little crude petroleum, judiciously applied, might not only prevent annoyance from these insects, but be a safeguard against disease.

Huge Pier, Locust Point, Baltimore, Slides Into the Water.

Part of a huge pier in course of construction at the foot of Andre street, Locust Point, Baltimore, for the Baltimore and Ohio Railroad, collapsed about 11 o'clock, last Saturday morning and went down into the waters of the harbor, carrying wreck and ruin with it. The pier was being built by contract and it is said that knowledge of the unsafe condition of the portion of it completed, or in process of near completion, was known to the parties who had the work in charge, a week or more before the catastrophe. It is supposed that ten persons lost their lives by its collapse, though the number is not positively known. At the latest account three bodies had been recovered and seven men were missing. The known dead were:

Howard L. Ellender, 27 years old, civil engineer, 2501 Madison avenue; leaves a widow.

Robert A. Sweetman, 45 years old, carpenter, 3626 Cedar avenue; leaves a widow and four children.

Anton Wolfel, 54 years old, elevator workman, 1722 Wilkens avenue; leaves a widow and seven children.

Mr. Ellender lost his life in an attempt to warn others when he saw the fall of the pier impending. He was on a part of the pier which did not give way and was perfectly safe, but ran boldly into danger to save the lives of others. Numbers thus escaped who would otherwise doubtless have perished.

Mr. Sweetman, the carpenter who was killed, was a son of Mr. Michael Sweetman, formerly of this city.

It is said that an effort was being made to strengthen the pier when it went down with a tremendous crash and without premonitory sign of its immediate collapse. The loss entailed by its destruction is estimated at about $350,000. The cause of the disastrous and remarkable occurrence can only be ascertained by a thorough investigation, which will probably be made. It looks, however, as if some one had seriously blundered.

President Roosevelt, Cabinet officers, army and navy officers and men prominent in civil life participated yesterday afternoon in the ceremonies attending the unveiling of the statue to Gen. George B. McClellan, which has been erected in Washington by the Society of the Army of the Potomac. Hundreds of old soldiers were in the city attending the unveiling ceremonies. Of these visiting veterans, about two-thirds were from the Army of the Potomac, of which General McClellan was commander, the remainder being members of the societies of the Armies of the Ohio, Cumberland and Tennessee.

The State Board of Health held a meeting at 11 o'clock on Wednesday morning and elected Dr. Marshall L. Price secretary of the Board to fill the vacancy caused by the resignation of Dr. John S. Fulton, who sometime ago withdrew from the Board in order to become secretary-general of the International Congress on Tuberculosis, which will meet in Washington next year.

The Western Maryland Railroad Company announced Wednesday that Mr. William Miller has been appointed superintendent of motive power, to succeed Mr. I. N. Kalbaugh, resigned. The appointment became effective yesterday. Mr. Miller is a Westerner, and was formerly assistant superintendent of motive power of the Denver and Rio Grande Railroad.

Forty-one men were killed in an explosion in the Whipple Mine, owned by the White Oak Fuel Company, Hinton, W. Va., on Wednesday afternoon at 3.30 o'clock. At the time the explosion occurred there were 92 men in the mine, but 51 of these were able to reach the stairway in the air course and climb out.

The large planing mill and extensive lumber yard of J. A. Hollinger, at Chambersburg, Pa., were destroyed by fire on Wednesday morning, entailing a loss of $50,000 to $100,000. Two Hagerstown fire companies went to the scene and assisted in saving surrounding property.

The Baltimore and Ohio and the Western Maryland Railroads put into effect yesterday the new coal rates as announced sometime ago. There is an advance of five cents per ton on all coal hauled to tidewater, except at New England points.

A passenger train was wrecked on the Baltimore and Ohio Railroad, at Pleasant View, near Parkersburg, W. Va., on Wednesday and 39 persons injured, some of them very seriously, but it is believed none of them fatally.

Governor Warfield will advertise his intention to consider the application for pardon of Samuel Updegraff, convicted in two cases of burglary in Howard county, in 1892, and sentenced to the Penitentiary for 20 years.

On Saturday last in Camden, N. J., Mr. Kenneth Lee Willard, of Clarksville, Howard county, was married to Miss Grace Violette Haines, of Cecil county, by Rev. M. Owens. After a wedding trip they will reside in Camden, N. J.

Thomas, of this city, will sail for Europe on Wednesday, 8th inst., and spend the summer making an automobile tour of the continent. They will be accompanied by Mr. and Mrs. Jesse L. Livermore, of New York. Mr. and Mrs. W. Frank Thomas, of this city, will go to New York to see them off on their voyage.

For the Sentinel.

In Behalf of the Neglected.

On Sunday morning last State Supt. George H. Nock, of the Maryland Evangelistic Association, preached at Sandy Mount M. P. Church and in the afternoon at Providence. He was warmly greeted by his many friends at Sandy Mount, and won friends at Providence, where he appeared for the first time. After each discourse he presented the work of his association in a most graphic way and elicited much interest. One of the features of the work was wisely and forcibly explained—that of rescuing fallen women. Mr. Nock's experience has proven to him that there is no serious difficulty in rescuing girls from lives of shame if they have not been a long time victims of vice, provided there are homes in rural sections to which they can be quietly sent, and where they will receive kindness and help. He said there were many families in Pennsylvania which had received penitent girls, and these, in many instances, became noble christian women. He made a plea that some childless homes would receive such girls under their care.

While this is only one of several features of Mr. Nock's work, it is a very important one, and it is true what the speaker said: "The church plays the coward in the presence of this evil. Strenuous efforts are made to reform the drunkard, and to bring other sinners under the influence of the Gospel, but the woman who falls is deserted in her shame. Prayer is mockery that does not embrace in its sympathy and petition the lowest and foulest of human kind." Mr. Nock delivered this week three lectures in the county and was greeted by good audiences.

Pleasant Valley Items.

We have just received word of the death of Mrs. Baily Fleagle, who lived in Harrisburg, Pa. Mrs. Fleagle lived near here about 8 or 10 years ago. She was the oldest sister of Mrs. Levi Myers, of this place, and of Mrs. David E. Morelock, of Westminster. Her age was 82 years. Interment will be in Baust Church cemetery.

Millers Items.

Mrs Joseph Frank gave a delightful birthday party Saturday last, to a number of little misses, in honor of her daughter Treva, it having been her 6th birthday anniversary. At 1 o'clock the little folks arrived and soon they were busy playing various games, until 3.30, when refreshments were served in abundance. Miss Treva received quite a number of beautiful presents. Those in the little party were: Misses Edith Rinehart, Fern Miller, Treva Frank, Ruth Miller, Blanche Frank, Delilah Miller, Ovie and Helen Miller, Anita Lessner, Grace Sandruck, Masters Harry Frank, Geo. Frank, Leroy Myers, and Walter Frank.

Millers Sunday School will hold its picnic Saturday, July 27th.

Measles are the latest epidemic in this vicinity, and the assistant school teacher, Miss Cox, was compelled to quit teaching on that account.

Mrs. Laura Bull has gone to Oxford, North Carolina, where she has employment with her brother, Mr. Wm. Rinehart.

Mrs. John K. Miller and son Milton are visiting relatives in Baltimore.

Rev. H. W. Zuse preached a very interesting sermon here Sunday evening on the "Sanctity of the Holy Sabbath Day."

Mr. Henry Rinehart is improving his property here by putting spouting on the house and erecting new fences and other buildings.

Mrs. H. C. Frank entertained several friends at her home Sunday last.

Baseball.

Western Maryland College baseball team, which has been playing in luck recently, won its sixth consecutive game last Saturday. The game was played on the college grounds here with the deaf mutes of Gallaudet College, Washington, and ended with the score of 9 to 7, in favor of the home team. The lineup:

Western Maryland College—Short, 2b.; Bragonier, ss.; Baldwin, 3b., Adkins, lf.; Smith, cf.; Haverstrike, Davis, rf.; Gibson, c.; R. W. Coe, p.; A. R. Coe, 1b.

Gallaudet—Bell, 2b.; Cooper (capt.), ss.; Hower, 3b.; Sharp, lf.; Harper, cf.; Davis, rf.; Morris, c.; O'Donnell, p.; Dillon, 1b.

Umpire, S. S. Wilson.

The college team repeated its victory over the Patapsco team, by winning another game on Wednesday. The first part of the game was brisk and hotly contested by the visitors, but it ended with a score of 7 to 1 in favor of the Western Maryland boys.

Field and Track Meet.

The third annual field and track meet of the Maryland Inter-Collegiate Athletic Association will be held at Mt. Washington tomorrow. The association is composed of Maryland Agricultural, St. John's, Washington and Western Maryland Colleges. Prof. O. E. Tiffany, of Western Maryland, is a member of the games committee. Prof. Tiffany will also be one of the track judges at the meet, and Mr. Harry Gilligan, of Western Maryland, will be one of the field judges.

St. John's and Western Maryland representatives participated in the meet of the University of Pennsylvania on Saturday last, when St. John's won first place and Western Maryland second in the relay race, against Gallaudet, Pratt Institute, Delaware, Pennsylvania and Franklin and Marshall Colleges. This, it is said, encourages St. John's to anticipate a victory at Mt. Washington, the only opponent feared being Western Maryland.

The Western Maryland track team is rapidly rounding into shape for the meet and much enthusiasm is felt over the fine showing made by the relay team at the Penn relays. Although placed two classes higher than any other Southern college, Western Maryland ran a close second to Haverford in the fast time of 3.33.

Marcus, Turner, Elderdice and Captain Rouzer will run in the dashes on Saturday. In the distance runs there will be Mikesell, Sanderson, Gill and Moore. Coe, Whealton, Adkins and Gibson will look after the field events. Western Maryland expects to take her share of the novice events with Devilbiss in the 100-yard and 440-yard dashes, and Longfield in the mile, besides a crack junior relay team which should do good work.

Melrose Items.

Mrs. Titus Bricker, who has been ill with pneumonia, is improving under the care of Dr. J. S. Ziegler. Mrs. George Dherit who has been ill is also improving.

On Friday last a 15-horse power boiler was installed in Robert Fleagle's creamery here to meet the growing demands of the business. A loud clear whistle, a much needed improvement, is attached to the boiler.

Last week our enterprising merchant, Mr. H. Clayton Miller, had a C. & P. phone placed in his store room.

The raspberry crop, which never fails, will be short this year. Only about half a crop can be expected as at least half of the stalks are frozen to the roots.

We had always thought an engineer was compelled to take a full course of study to master the profession, but on Monday last our ideas were quickly changed. Mr. Lewis Dherit, helper at the creamery, made fire in the traction engine used for the creamery until they received their new boiler last week, when he took the engine through town to its destination, handling it as well as any experienced engineer.

Our people continue to make improvements. Mr. Phillip Wentz has planted a row of American Arbor Vitæ trees in place of his front fence which present a neat appearance. The trees were furnished by Mr. J. B. Lynerd, of Manchester.

Mrs. Jacob F. Berwager has some apples from last year's crop that are still solid and sound.

Visitors from York and Hanover, Pa., and Union Mills, were in attendance at Wentz's Union Sunday School on Sunday last.

For the Sentinel.

A Very Pleasant Party.

A very pleasant social party was held at the hall formerly occupied by the Jr. O. U. A. M., at Gamber, on the 24th ult. At about 8.30 p. m. the guests began to arrive. Different plays were indulged in until about 12.30, when refreshments were served and the crowd began to disperse, all feeling that they had enjoyed themselves. Those present were: Misses Emma Arnold, Millie Miller, Grace Gamber, Viola Barnes, Stella Edmondson, Dica Ward, Pauline Barnes, Maggie Grimes, Nina Stocksdale, Beulah Shauck, Bertha Phillips, Amelia Steffy, Eva Ward, Lida Gamber, Mary Gorsuch, S. Griffee, A. Wilson, Messrs. Lee Ward, Oscar Barnes, George Allen, Thomas Gosnell, Otis Gamber, Samuel Smith, Benj. MY BEST FRIEND.

Alexander Benton, who lives on Rural Route 1, Fort Edward, N. Y., says: "Dr. King's New Discovery is my best earthly friend. It cured me of asthma six years ago. It has also performed a wonderful cure of incipient consumption for my son's wife. The first bottle ended the terrible cough, and this accomplished, the other symptoms left one by one, until she was perfectly well. Dr. King's New Discovery's power over coughs and colds is simply marvelous." No other remedy has ever equaled it. Fully guaranteed by all Druggists. 50c and $1.00. Trial bottle free.

WONDERFUL ECZEMA CURE.

"Our little boy had eczema for five years," writes N. A. Adams, Henrietta, Pa. "Two of our home doctors said the case was hopeless, his lungs being affected. We then employed other doctors but no benefit resulted. By chance we read about Electric Bitters; bought a bottle and soon noticed improvement. We continued this medicine until several bottles were used, when our boy was completely cured." Best of all blood medicines and body building health tonics. Guaranteed at all Drug Stores. 50c.

The Sunday School of Taylorsville M. E. Church will hold its annual ice cream and strawberry festival on Saturday evening, May 25th.

A NARROW ESCAPE.

G. W. Cloyd, a merchant, of Plunk, Mo., had a narrow escape four years ago, when he ran a jimson bur into his thumb. He says: "The doctor wanted to amputate it but I would not consent. I bought a box of Bucklen's Arnica Salve and that cured the dangerous wound." 25c at all Druggists.

MARRIED

In Stephen's Lutheran Church, Cumberland, Md., April 25th, 1907, by Rev. C. F. Floto, Mr. Geo. L. Mobley, of Frederick, (formerly of this city,) and Miss Pleasant D. Curley, of Cumberland Md.

DIED.

Near Avondale, April 28th, 1907, Susan H., widow of James A. Turtle, aged 60 years and 25 days.

In Clarksburg, West Va., April 28th, 1907, Samuel Lamberd, of this county, in his 80th year.

IN MEMORIAM.

In loving remembrance of Mary M. Myerly, who died one year ago today, May 2nd, 1906.

One year of peaceful slumber,
Free from earthly toil and pain,
'Twas hard to say the parting words,
But our loss was her gain.
And some day we hope to meet her
On yonder blissful shore,
Where goodbyes are said no more.

By her daughter-in-law,
Mrs. Geo. C. Myerly, Chambersburg, Pa.

IN MEMORIAM.

In loving remembrance of my dear husband, Charles E. Shipley, who died one year ago, May 4th, 1906.

When I saw my precious husband,
Whom I tended wi h such care,
Slowly fading from my presence,
How my aching heart despaired.

He will never be forgotten;
Never shall his memory fade;
Sweetest thoughts shall ever linger
Round the grave where he is laid.

By his wife, Alice Shipley.

One year has now marked out its space,
Since last we viewed your loving face,
Since death made vacant father's place.

Father, we miss you everywhere,
We miss your tender love and care,
Though our days be dark or our days be fair.

By his Children.

IN MEMORIAM. MAY 2ND, 1907.

In sad and loving remembrance of my dear parents, Mr. and Mrs. Andrew Myerly.

Years have past and gone, and, when asked,
Do you miss them? O, no tongue can tell
How I miss their coming footsteps;
I miss them everywhere.

O how hard I tried to save them,
But our care was all in vain;
O, perhaps we loved them too well,
And God loved them more
And took them home to dwell.

O, if you have parents, love them well,
Do not wait till God calls them home,
To know their precious worth,
And praise them as you ought while they're
spared on earth.

I oftimes wander to the graveyard,
Flowers to strew upon the graves of the
ones I loved so dear.

By their daughter, Mrs. A. L. Wagner.

Dearest Grandparents, in your beds,
As white as snow we saw you
Fade and die, and it seems to me unjust
To lay you in the cold damp grave
To moider into dust.

By their granddaughter, Mary Wagner.

Farewell, farewell, my grandparents so dear.
May your slumber be as gentle as your love,
And when God will call us homeward
May we meet in heaven above.

By their grandson, Earl Wagner.
