The Mails.

The distribution of the estate of the late John McCauley was further complicated by the receipt on Tuesday last, by the Orphans' Court, of another document purporting to be the last will and testament of the deceased.

The second document was received by mail postmarked at Chestertown but without anything to indicate from whence it came, or to identify the sender.

The latest "will" reads as follows:

Kennedyville, Md., Aug. 26, 1912.

I, John McCauley being of sound mind make my will this 26th day of August 1912, my farm near Kennedyville I leave to Bishop John J. Monaghan, Bishop of Wilmington, to have him sell and the money to go to one half to Sacred Heart Church, Chestertown, and the other half to St. Dennis Church, Galena. My house and lot in Kennedyville to be sold and the money to go to Mrs. Hessner and children of Kennedyville. All notes held by me of my tenant William M. Hurlock to be paid and the money to go to the trustees of St. Dennis Church, Galena, for the upkeep of my grave and lot in St. Dennis Cemetery at Lambson Station known as the Catholic Cemetery. My money in bank to go to Bishop John J. Monaghan, Bishop of Wilmington, to be distributed among the priests of the Wilmington Diocese for masses for the purpose of my soul. Note I hold of Romie McCauley for cattle bought from John Clendaniel not to be paid as he has paid me nearly all the principal in interest. My two best friends will witness this my last will and testament.

JOHN McCAULEY.

The McCauley estate is valued at about $80,000, consisting of cash on deposit in three banks, a fine farm near Kennedyville and property in that town.

ANOTHER TRIUMPH FOR THE LIBERTY MOTOR

Army Planes Whiz Over Glaciers and Wooded Wildernesses.

Ford-built Liberty Motors carried the four Army airplanes on October 20, completed the 9,000 mile journey from Mitchell Field, Long Island, to Nome, Alaska, and return. The fleet was greeted over New York City by a flotilla of forty army planes which escorted it to Mineola. The returning planes touched their wheels to earth at 3.15 in the afternoon.

The Alaskan Flying Expedition, commanded by Captain St. Clair St., undertook the journey to demonstrate the durability of modern airplanes and motors, and to effect the establishment of an airial route to the northwestern corner of the American Continent and Asia. Such a route would bring mail from Alaska to the States in two or three days, whereas the present method of transmission requires thirty days.

We never changed a spark plug. Never a cylinder missed on us the entire trip. The motors are in as good condition today as when we set out.

This is the second notable event in which Ford Liberty Motors have figured prominently, the first being the Trans-Atlantic jump of the Ford Liberty equipped NC 4 a feat which commanded world wide interest.

On the part of corn huskers in the upper section of the county was discovered, last week, when one farmer found that his men were husking only the outside of the shocks and leaving the middle. The huskers are paid so much per shock, and they were skimping their work and thereby greatly reducing the yield. This is the kind of labor, in many instances with which the farmers here are compelled to endure at fabulous wages.

CHURCH NOTES

The Union Revival has contnued this week in Chestertown with renewed interest. Rev. J. F. Wooden, of Kennedyville M. P. Church, preached Monday evening a most earnest and impressive sermon. Tuesday evening Rev. J. T. Rowlenson, of Crumpton M. E. Church, filled the pulpit in his characteristic enthusiastic manner. There were two boys and a young lady at the altar. The services will be continued next week in the M. P. Church, the change being made Sunday evening when Rev. Avery Donovan, of St. James, will preach the sermon.

Rev. N. O. Gibson preached the Thanksgiving sermon to a fine audience. He and Rev. Omar E. Jones are filling the pulpit with marked ability and the people are hearing message with open hearts. There have been six conversions.

An evangelistic service will be held at Massey M. E. Church on Sunday evening at 7.30.

Five and twenty years ago the average churchman knew little of Alaska. Today they know it by the earnest work of Peter Trimble Rowe, D. D., who was consecrated the first Bishop of Alaska, on St. Andrew's Day, Nov. 30, 1895. The best loved man in Alaska, and as Governor Riggs of Alaska, says "the most popular man in Alaska." Enduring the cold climate that he might answer the call of a self denying service for white people, Indians and Eskimos.

St. James Evangelist Services—Sunday school 10 a. m., preaching 11 a. m., Christian Endeavor 7 p. m., Mrs. B. T. Hudson, Lee Startt.

Lynch—Sunday school at 2 p. m., preaching at 2.30 p. m.

Probably the most remarkable disclosure brought out in the recent church census taken in Bel Air was the fact that only 13 persons in town stated they were not more or less tied to some church. Surely the average church attendance on Sunday mornings would not warrant such a belief. We are certain the regular church attendants would accord a hearty welcome to all their friends who have shown some hesitancy about attending service.—Belair Aegis.

ONE THIRD OF YOUR TIME

is spent in bed. That is why Endowment Insurance is so profitable. It grows while you rest and sleep, and attains its growth at once, if you never wake.

OLD TIME in whose banks we deposit our notes, is a miser who always wants guineas for groats; he keeps all his customers still in arreas, by lending them minutes and charging them years. He is very uncertain of dates falling due, and a note against others may be charged up to you. If you owe the old miser and have pledged your endurance, just keep a good margin of Endowment Insurance.

A Grave Mistake, to go without insurance.

Fordson

Farm Tractor

More than 100,000 Fordson tractors have been sold to farmers in the United States. They are helping those farmers do more and better work in less time and at less cost. North, East, South, West—everywhere the Fordson has proven itself a money-maker and a real necessity to the farmer. Besides it solves the labor problem.

These practical farmers have affirmed the economy—the exceptionally low fuel and operating cost—of the Fordson; its time and labor-saving qualities and its ability to increase production. The Fordson was built to be the most economical tractor; it is compact and devoid of excessive weight. And it is built of same strong Vanadium steel as the Ford car.

Winter or bad weather does not hinder the Fordson's usefulness. Day or night—twenty-four hours a day if you choose—you can utilize the Fordson.

Only so many Fordsons are allotted this territory. Orders are being filled in rotation. Let us have yours now.
