THE CHRONICLE.

CAMBRIDGE—MD.

SATURDAY MORNING, September 23 1843.

DISTRICTING THE STATE.—There was a great appearance of difficulty and not a little excited feeling, during the last session of our Legislature in framing a bill to divide the S ate into Congressional Districts. Now we consider that the difficulties were greatly magnified, and that there was no occasion for any display of political feeling.—It is a subject entirely foreign to all political principles, and one that should be considered without any reference to party *loss or gain*. For ourselves we think that the proper system is, to establish a starting point at one extreme of our State, say Worcester county, and lay them off as equally as possible, no Congressional district to have less than 70,680, and to end at the first county election district after that amount. By this method, we shall escape the violation of law which would have been perpetrated by both the House and Senate bill of the last session, and distribute nearly equally the surplus, 10,044, between the different Congressional districts. Above all things let not such questions as this be considered with any reference to politics. In fact such cannot be the case, without a violation of all decency and propriety, as well as the oaths of the members who sacrifise every thing at the shrine of party,

VIENNA, Md., Sept. 19th 1843.

MR. EDITOR.—Having been suggested through your columns, by some kind friend, during my absence, as a candidate for the suffrages of the people at the ensuing election, I must ask your permission to use the same medium to announce my determination in respect to the matter.

I feel obliged to "Jefferson" for the flattering terms in which my name has been mentioned, in connexion with this subject, and would under different circumstances be pleased to gratify his wishes; but apart from the question of success or defeat. I am impelled by considerations too important to be overlooked or disregarded, to decline a compliance with his request. Several years of comparative quietude and repose have weaned me from all active agency in politics; and while I would sedulously avoid a culpable indifference to the success or defeat of measures, in which I believe are involved the substantial and permanent interests of my country, I am equally solicitous to shun those turbulent scenes of political strife, which tend too powerfully to foster evil passions and practices, and drown the voice of reason and judgement amidst the clamor of excitement.—There are others to whom such scenes are not repugnant, and to them I willingly yield the laurels that are to be won in such fields.

Respectfully

E. RICHARDSON HOOPER.

CHESAPEAKE AND OHIO CANAL.—We have received a pamplet copy of the proceedings of the stockholders of this company, at their adjourned meetings holden on the 6th July and 16th and 17th August last; but discover little in them which has not been already submitted to the public through our columes excepting a report from the board of directors, giving in detail the proceedings had in relation to the contract made by Gen. Mc Neil with Letson and Rutter, for the completion of the canal. From their statements it appears, that a company in New York offered two years since to complete the whole work to Cumberland for $1,313,250 in current funds; being $231,750 less than the estimate by the chief engineer—and that a proposal had also been received under date of 25th July last, from Messrs. M. C. Sprigg and C. M. Thruston, to do the same work, for the sum of $1,450,000, if paid in current funds; or $1,750,000, if paid in the bonds of the company, with preferred liens.

Application was made on the 6th of July last by the clerk of the company to the Treasurer of the Western Shore, to know whether a sale of the canal had been effected; and if not, whether any proposals to purchase had been received. The Treasurer replies in the negative as to the sale, but gives no direct answer as to offers, whence we are left in the dark on that point, which is a matter of some interest in the present condition of affairs. We believe that the work can be sold, and we think that it would be the policy of the state to get rid of the whole concern, even at a loss of some millions. It will be the imperative duty of the next legislature to act with promptness and decision on this subject—so that the work may be transferred to other hands, or carried on to completion with all practicable despatch.

CANAL AND RAILROAD ARRANGEMENT. The Frederick Examiner of yesterday contains the following gratifying intelligence:

"We take pleasure in stating that the President of the Chesapeake and Ohio Canal Company has succeeded in effecting an arrangement with the Railroad Company for the transportation of coal and iron from Cumberland to Dam No. 6, to a limited amount, as also the ascending trade from that point to Cumberland, upon terms mutually satisfactory. We understand that immediate measures have been taken to carry the arrangements into effect, and that the chief engineers or superintending officers of the companies, were to meet at Dam No. 6 yesterday morning, to determine upon the place of transit, and the mode of passing the coal, &c. from the cars to the boat.

"*We* have no doubt but that this measure will produce great benefit to both of the companies in question as also to the coal companies of Allegany county, which by the time the canal is completed, will, by the stimulous now afforded, be so far advanced in their trade as at once to put the business of the entire line of the Canal in full operation.

"By this arrangement new life may be breathed into the torpid body of the Canal Company, and the dawning of a better day appear."

"FIFTY YEARS SINCE." The N. York Mirror contains an essay on manners and customs fifty years since, which is full of admonition to the present generation. Fifty years make a great change not only in the condition of an individual, but in the habits and principles of society. The laws of Lycurgus, which forbade the gratification of artificial wants, preserved the Spartans in simplicity and purity during their continuance; but the moment luxury was introduced, corruption followed, and Sparta lost her pre eminence.—And such has been, and must continue to be, the fate of all nations. Extravigance and idleness, introduce immorality and crime, and love of country soon ceases to be considered a duty. Our own country affords a notable example of the deterioration of morals, produced by the rapid progress of luxury and dissipation and the reflecting mind cannot but perceive, that we are hastening to that consumation which has been the fate of nations which have preceded us. In our present disposition to indulge in folly, and to abandon the practice of the more rigid virtues, it may awaken some salutary reflections to recur to a former period our history. The past and the present are happily contrasted by the writer in the Mirror, and we make an extract for the benefit of our readers, male and female. The writer says:—"When Washington was President, his wife knit stockings in Philadelphia, and the mothers made doughnuts and cakes between Christmas and New Year's; now the married ladies are too proud to make doughnuts, besides they don't know how, so they even send to Madame Pompadour or some other French cake maser, and buy sponge cake for three dollars a pound. In those days New York was full of substantial comforts; now it is full of splendid misery, then there were no greyhended spinsters, (unless they were very ugly indeed) for a man could get married for a dollar, and begin house keeping for twenty, and washing his clothes and in cooking his victuals, the wife saved more money than it took to support her. Now I have lately known a minister to get five hundred dollars for buckling a couple; then wine, cake and etceteras, five hundred more; wedding clothes and jewels, a thousand; six or seven hundred in driving to the springs or some deserted mountain: then a house must be got for eight hundred per annum, and furnished at an expense of two or three thousand; and when all is done, his pretty wife can neither make a cake nor put an apple in a dumpling. Then a cook must be got for ten dollars per month; a chambermaid, laundress and seamstress at seven dollars each, and as the fashionable folly of the day has banished the mistress from the kitchen, those blessed helps aforesaid reign supreme; and while master and mistress are playing cards in the parlour, servants are playing the devil in the kitchen; thus lighting the candle at both ends, it soon burns out. Poverty comes in at the door and drives love out at the window. It is this stupid and expensive nonsense which deters so many unhappy couples from entering the state of matrimony, hence you find more deaths than marriages in the papers."

MARRIED,

CHANCERY SALE

of a most beautiful and healthy residence, on salt water.

BY virtue of a decree of the High Court of Chancery, I will offer at public sale, to the highest bidder, at the Court House door in the town of Cambridge, on

Monday the 16th of October

next, at the hour of 12 M, that very valuable situation in Town Point, called "Skinner's Conclusion" or "Fook's Regulation" containing 197 acres, more or less. This property is now occupied by Mr. Wm Fooks, and is located immediately on the Little Choptank River, and is considered as healthful a plantation as any on the Eastern Shore, with all the advantages of fine oysters, fish, wild duck &c. The soil is susceptible of the highest improvement, being of the very best clay bottom, and adapted to the growth of both wheat and corn. There is an abundance of shell on the place and convenient thereto to cover it over. The improvements are indifferent, but may with slight expense be repaired and made comfortable. This residence is some 7 or 8 miles from town only, and very convenient to the Methodist Church and to an excellent school. Take the plantation altogether, and perhaps no more desirable residence can now be had in the county. Persons are invited to go and examine for themselves. It is sold for the purpose of fair diviston amongst the heirs entitled, and subject to the widows right of dower.

The terms of sale are one fourth cash, the residue on a credit of 1 & 2 years in equal instalments, with obligation therefor and approved security, bearing interest from the day of sale. Possession will be given at the end of the year, with privilege of seeding wheat. Whenever payed for, the property will be conveyed to the purchaser at his expense.

A CARD.

THE undersigned has taken out letters of administration on the personal estate of the late Col. Henry Page deceased, and is now prepared to receive the several claims due him.

I have had many applications already for indulgence, some of which I would be glad to be able to gratify, were it in my power to do so, but I have promised none, and none need ask indulgence beyond what the law allows. When I consented to administer—(for it was a matter unsought by me, but obligations of which I could not honorably evade compelled the measure,) I determined to do my duty and I intend to act up to the determination then made regardless of self.

VALUABLE PROPERTY FOR SALE.

The undersigned being authorised by competent authority will sell at public sale on MONDAY the 9th of next month OCTOBER, between 12 & 2 o'clock, the house & lot where Mr. John Bunting formerly resided, being a large two story frame dwelling, with a large and comfortable one story attached, also a fine large kitchen together with all necessary out buildings, such as a large barn, carriage house, smoke house, milk house, &c.—the lot containing about three and a half acres, the whole situated on Church Creek, at the head of the river, and has a well of as good water as any in the country. Also three houses and lots situated in the village of Church Creek, two one story frame and one two story.

Also two tracts of Timber land, one containing nine acres and situated about 100 yards from Church Creek, the other containing about 33 acres, about one mile distant from same place.

Also that valuable and well paid farm called Sweet Purpose containing about 330 acres. This farm is situated on Fishing Creek, about seven miles from Cambridge, the county town, and in one of the most delightful neighborhoods of Dorchester county. The bold and navigable waters of Fishing Creek bound it upon its northern and western sides; besides which, there is a large and navigable Cove running from said Creek to the dwelling house, which is most beautifully located at the head of it. This cove, for its length, breadth and depth as well as for its bold and commanding appearance, has not its superior if indeed its equal in Dorchester county. The majority of the arable land is of the best kind, a yellow loam, and constitutes nearly two thirds of the tract, the balance is the timber part, of which there is an abundance to supply the farm. As to health it certainly has not its superior in the county. The waters above named are famous for fine oysters, fish, terrapins, as well as for wild fowl in abundance.—the wells of water first rate and none better. Any person wishing to purchase a situation on the salt water would certainly consult his own interest to call and see for himself. As many heretofore have desired to purchase this situation they have now an opportunity.

The terms of sale will be on a credit of 1, 2 and 3 years, bond and security with interest from the day of sale. Notwithstanding there are some liens on this property the undersigned will furnish the purchaser an absolute title free and clear of all liens and incumbrances.

WRIGHT'S INDIAN VGETABLE PILLS

OF THE

NORTH AMERICAN COLLEGE OF HEALTH

If the channels of our mighty rivers become so obstructed as to afford an insufficient outlet for the superabundant waters, we can expect nothing less than that the surrounding country will be overwhelmed with the flood. In like manner with the human body—if the Skin, Kidneys and Bowels, (the natural outlets for useless and corrupt humors,) become so obstructed as to fail in affording a full discharge of those impurities, which are in all cases the cause of sickness we surely can expect no other results than that the whole frame will, sooner or later, be overwhelmed with disease. As in the first place, if we would prevent an inundation we must remove all obstructions in order that there may be no hindrance to the free discharge of the superabundant waters. So in the second place, if we would prevent and cure disease we must open, and keep open, all the Natural Drains of the body.

WRIGHT'S INDIAN VEGETABLE PILLS

OF THE NORTH AMERICAN COLLEGE OF HEALTH, will be found one of the best if not the very

BEST MEDICINE IN THE WORLD

for carrying out this beautiful and simple theory; because they completely CLEANSE THE STOMACH AND BOWELS FROM ALL BILIOUS HUMORS and other impurity, and at the same time promote a healthy discharge from the Lungs, Skin, and Kidneys; consequently, as all the Natural Drains are opened, Disease of every name is literally driven from the Body.

The following letters, which have been received from gentlemen of the highest respectability, will show conclusively that Wright's Indian Vegetable Pills are a most

VALUABLE MEDICINE,

and their fame is rapidly extending to every part of the Union.

Extract of a letter from Lawrenceville, Monroe Co., Arkansas:

LAWRENCEVILLE, MONROE CO. Arkansas, Dec. 10, 1842.

DOCT. WM. WRIGHT—Dear Sir: Having become acquainted with your most excellent PILLS (viz. INDIAN VEGETABLE), by experience, I take the liberty to write you on the present occasion by way of suggesting the propriety of being constituted Agent for his State to dispose of them.

In 1841, I was prostrated with the congestive fever in East Florida, and often having been ill with the first attack and a severe relapse, I was necessitated to repair to New York for the recovery of my health being much debilitated, I tried different Physicians and as many medicines, but all to no purpose; I found my liver much effected, and Dyspepsia setting in with its worst form. I began to think my case was hopeless I concluded to resort to travelling, accordingly I left the city of Albany, New York, for Cincinnatti, Ohio. On my way through New York State, I chanced to come across one of your Agents at Newark, on the Erie Canal; I read one of your advertisements, purchased a box of Pills, and TO MY UTTER ASTONISHMENT FOUND MYSELF partially RECOVERED; on my arrival at Buffalo, I purchased some more of your Agent there; at Cleaveland, Ohio, visited your Agent, the dry goods merchant, talked with him, and took several boxes.—*I soon found myself a well man, and concluded to return to my Profession viz: A Travelling Methodist Preacher,*

I accordingly came on to St. Louis, and from thence to Helena, Arkansas, where I joined the Arkansas, Conference, and was assigned to Lawrenceville Mission on St. Francis and White Rivers, near the mouths of the same. Very respectfully,

Your obedient servant,

W. H. HOUCK.

TANNER'S BROOK. N. J., Sept. 3d, 1841.

DOCT. WM. WRIGHT—Dear Sir: Your travelling Agent was here, a short time since, and left with me two dozen boxes of your INDIAN VEGETABLE PILLS, which I have already sold, although they had never been introduced in our neighborhood before. at first prevailed on a friend of mine, who had been afflicted with the Dyspepsia, and Rheumatism in the head, for the last two years, to make trial of them.—He had previously tried various medicines, but never obtained any relief until he made use of your Indian Vegetable Pills. After using one box, he said he felt like a new man, and now, having used two more boxes, he considers himself a SOUND MAN.

Yours, respectfully, &c.,

June. 3, 1843. J. INGERSOLL.

FRANKFORT, ROSS Co., Ohio, Aug. 13, 1842.

Dear Sir—The Pills, that I purchased of you last April, have sold far better than I anticipated. I think by the time I visit your city again, which will be in a few months, I will have sold out entirely. They have not only effected cures in diseases that seemed to baffle the best medical skill in the country, but numerous individuals here bless the day that the undersigned introduced Wright's Indian Vegetable Pills into the neighborhood. I can get, if you think it necessary, several very valuable certificates of cures. One old Lady in particular, who has been afflicted several years with consumption, commenced taking the Pills a short time since, and is now nearly restored
