FOUR INJURED WHEN CYCLE STRIKES AUTO

Nelson K. Miller, his wife, her mother, Mrs. T. D. Venable, and her sister, Miss Helen Venable, all of Philadelphia, were all badly bruised in an auto wreck Sunday, on State road near Chester bridge. The three women were taken at Emergency Hospital, Easton, and Mr. Miller was brought to Chestertown where his broken arm was set.

The Millers, who reside at 6068 Greenway avenue, Philadelphia, were on their way home from a visit at Salisbury and Ocean City, Md. While running on the State road from Easton to Chestertown their auto was run into by the motorcycle of Steven Tresnate, of Baltimore. In attempting to pass the Miller car the front wheel of Mr. Tresnate's machine struck the Miller auto, hurling the car into a ditch, completely demolishing it.

SCHOOL NOTES

Miss Mina M. Langvick, a graduate of Teachers' College, Columbia University, and during the past years, Supervisor of Schools in Carroll county, has been appointed Supervisor of white elementary schools in Kent county.

Miss Jeanette Gooding, one of the most faithful and efficient teachers of Kent county, has been granted a leave of absence for six months, on account of ill health. We are glad to report Miss Gooding's health is improving at this time.

Schools of Kent county will open for white children on September 11, and for colored children on Otcober 1.

Miss Amy Hickman, a student at Washington College last year, has been appointed secretary to President Clarence P. Gould.

Milton B. Styer, a graduate of Banks' Business College, Philadelphia, has been elected a member of the faculty to assist Prof. George Harrington in the Department of Commerce.

In the effort to arouse greater interest in the Church Hill High School and to obtain a sufficient number of pupils to warrant the institution being re-opened this fall, patrons of the school met last Monday evening and decided to wage an active campaign to increase the attendance. This action was the result of the decision of the Board of Education to close the Church Hill High School and transport the pupils in motor busses to Centreville High School. Advertisements calling for bids were published last Saturday and it is understood that the Board of Education plans to close the school indefinitely.

For some time the attendance has been below normal at Church Hill High School, and it was feared last year that the State appropriations would be lost because of an inadequate number of pupils.

Saturday last was College Day at Ocean Grove and the roll of schools was called by Judge Wells in alphabetical order. When the letter W was reached Mrs. Fred. G. Usilton and Mrs. W. W. Baldwin answered for Washington College. This was the only Maryland school represented outside of Goucher. It is a big occasion at the New Jersey resort and many schools do not fail to be represented every year.

The patrons of the public schools that are to suffer the loss of one teacher by reason of the State law governing the number of teachers met Tuesday with members of the Board of Education and the new county school superintendent, Prof. Louis Robinson, for the purpose of having teachers retained where the necessity is urgent. In Still Pond school there are 55 scholars, with two teachers, and if one of these teachers is dropped there will be only one teacher for the entire number, including a large class of primary scholars. At Fairlee there are three rooms and no two rooms will hold all the pupils. Other similar conditions confront the Board. Superintendent Robinson was directed by the Board to go to Baltimore and lay the matter before State Superintendent Cook in an effort to have the law abrogated in so far as the exigencies of the cases require. Seven schools in the county are alleged to have one teacher more than the law allows.

HORSES DYING!

John T. Moffett, the well known veterinarian in Worton, issues a warning to all farmers to be careful about feeding their horses decayed wheat. Mr. Bramble on the Bryan farm in Worton has lost three fine horses. These horses were turned into a stubble field where sprouted wheat was growing and Dr. Moffett thinks the animals were poisoned from eating this wet and mouldy stuff.

County Agent Derrick reports a case of chickens dying by the score near Fairlee from ptomaine poisoning caused from eating dead poultry, etc. Many poultry raisers do not realize that it is necessary to keep their premises clean in order to insure the health of their flock.
