FIRE ON THE FORD FARM

The dwelling and large stable on the Charles Ford farm in Queen Anne's, near Chester bridge, were completely desroyed by fire Wednesday afternoon. Charles McGinnis is the tenant on this farm. He and his wife had come to town on an errand leaving the cook in charge. Soon after his arrival here the house took fire and burned with all contents including clothing. Neighbors saw the blaze and went to help in time to save all implements. The stock and horses were in the field.

Mr. Ford had recently spent $500 on the house and the stable was a large affair. The loss of $6,000 is partly covered by insurance of $3,000 in Belt Townshend's agency.

POSTOFFICE TO BE MOVED

Committee Worked Industriously To Have Case Reopened But Too Late —Energy Should Have Been spent A Month Ago.

The Chestertown Postoffice will be moved from its present location in the Lyceum Theatre Building, Corner High and Court streets, to a site on Cross street, near the depot as noted in last week's News.

There is no better site in town than the present one and we regret its removal. A committee of business men headed by Allan A. Harris, have tried by all proper means to have the case reopened by the postoffice authorities but all in vain.

A statement from the postoffice authorities will likely be made.

Laurence G. Brown, of the E. S. Adkins Company, will begin the erection of the building at once. It will cost about $10,000. The rent is $2,400 per year.

The Town Commissioners will likely lay a concrete street from Cannon to the new building. Extra light will also be provided.

A detailed statement from Allan A. Harris, chairman, is in hand and will appear next week n the News.

Now is the opportune time for the town to take action looking toward a government building. A new postmaster General will likely be named after March 4th and with a change of administration a building will probably be bought or erected by the Government. Several places would make ideal locations, viz., T. W. Eliason's R. F. Parks', Noland & Rote Building and other places.

The small square has been suggested as a site, but the day is rapidly coming and now is here when this square will be needed for parking space.

The Young Men's Club of Christ M. P. Church was entertained Tuesday evening at the hospitable home of Mr. and Mrs. J. H. Sides on the Avenue.

A YIELD HARD TO EXCEL

""The Corner" farm, near Kennedyville, tenanted by the Nickerson Bros. and owned by Edmund Pennington, maintained its reputation this year of being among the best farms in Kent. There were three fields in wheat and separate accounts were kept of the yields, as follows: One averaged 25 bushels per acre, another 30 bushels and the third produced 35 bushels per acre.

Edw. Townsend, tenant on the Frank A. Coleman farm, near Rock Hall, finished threshing and netted 29 bushels per acre.

Wm. French on the Ringgold farm, near town, got 25 bushels per acre.

Robert Kennedy, near Kennedyville got 3100 bushels of wheat from 105 acres.

There is a fine prospect for peaches on the Walter Harris farm while on Mrs. Arthur L. Harris' farm there is a splendid outlook for pears. A visitor to Kent says Mrs. Harris has as many pears as is to be seen on the balance of the whole Peninsula.

The season for threshing has been ideal. Henry Hughes in 12 days has threshed 14 crops and put his rig in storage for the season. Frank Coleman on the Hynson farm got 24 bushels per acre and Mr. Meck on Mr. Brown's "Walnut Tree" farm averaged 24 bushels.

HEALTH MEETINGS IN KENT

Wednesday was Health Day at Betterton. The afternoon program was opened by the singing of America. The Worton children contributed a song and recitation, Kennedyville two beautiful songs and Still Pond a good health quotation. These were followed by a talk by Dr. Knox. Dr. Davis, of the Delaware State Department of Health, spoke of the control of communicable diseases. At the close of the afternoon program everyone enjoyed a delicious supper on the pier.

The evening program started with Dr. Hines, chairman of the Public Health Association, presiding. Dr. Knox gave another interesting talk. Mr. Allan A. Harris launched the membership drive for the Public Health Association. The drive is to continue until August 30th. It is hoped that everyone in Kent county will join. The fee is only one dollar. These talks were followed by two more pictures "Our Children," and a two reel comedy.

The Health Mobile has had a good start by beginning its work at Betterton. It is to be hoped everyone in the county will avail themselves of the opportunity of having a physical examination. These clinics are not especially for sick children.

Misses S. Cornell, May McCleary, Louise Startt, Stanley Sutton and Walter Kernan, of St. James Church, attended the summer conference at Westminster this week.

STATE COP ON THE JOB

Makes 15 Arrests Of Automobilists Around Chestertown—A Big Difference On Chester Bridge During His Presence—An Officer Required In All Towns.

Automobile Commissioner Baughman sent Officer Smith to Chestertown last week and he has been doing good work. He sees many violators, especially for speeding, but finds it difficult to overtake this class.

During Saturday and Sunday he made 15 arrests including only one colored driver. They were given a hearing Monday morning and each found guilty and fined from $5 and costs to $10 and costs. The costs in each case amount to as much as the fine.

Motor Cop Smith was run down by an auto driven by Earle Cox on Wednesday and considerably bruised. Cox was under arrest at the time and was following the officer to Chestertown. After the accident Cox made his escape. He was apprehended on Thursday and at the trial before Justice Collins he was fined $235.

Officer Smith last Friday arrested several Negroes in a large automobile on Chester bride. The car bore a license tag of one state on the back and another state tag on the front and neither occupant had a license to operate the car. They were taken before a Justice of the Peace who fined them $54 and costs and being unable to pay the fine the car was confiscated and sold.

Unless something is done to check the speed of motor vehicles through Chestertown and likewise through other villages and towns in Kent county, there will be some terrible accidents after which everyone will get busy to make the roads safe—if eventually, why not now?

It is really astonishing that nothing serious has happened up to this time. Machines of every kind, including the heaviest trucks, dash through towns at twenty-five to thirty miles an hour and at certain times there are so many of them that it is most difficult for pedestrians to cross the roads.

It is pitiable to see old men, old women and children dodging motor cars and motor trucks.

Motorists Creed

Speeding, speeding, all are speeding,
Getting caught to pay a fine.
This is passing, but we're leaving
Tire tracks on the sands of time.

Engagement Announced

Mr. and Mrs. Edgar N. Culley, of Rock Hall, announce the engagement of their oldest daughter, Gladys Augusta to Clinton Wyatt Guthrie, the son of Reverend and Mrs. William D. Guthrie, of Kenton, Del. Mr. Guthrie is a former resident of Rock Hall, having lived there a number of years ago when his father was pastor of the M. E. Church in that community. The wedding will take place early in the fall.

FARMER'S DAY AUGUST 14

The Board of Directors of the Kent County Farm Bureau have set Thursday, August 14th for a gala day for all Kent County Farmers, their wives and families. Keep this date in mind and make no other engagements for it.

Arrangements are being made for an elaborate program, including an exhibit of fine dairy cattle, demonstrations, music, good speaking and recreation for the occasion. Everyone is urged to bring the old picnic basket and spend the whole day.

Owing to unavoidable circumstances the Chestertown Library will not be open this Saturday, July 26. Fines for that date will not be collected.

The Cambridge Fair Association is holding out great hopes that this year's fair will be the biggest and most complete ever held on the Shore. The dates are August 5, 6, 7 and 8.
