THE BARON VON HUTCHELER HERB PILLS.

These pills are composed of *H*erbs, which exert a specific action upon the heart, give an impulse or strength to the arterial system, the blood is quickened and equalized in its circulation thr'o the vessels, whether of the skin, the parts situated internally, or the extremities; and as all the secretion, and a quickened action of the absorbent and exhalent, or discharging vessels. Any morbid action which may have taken place is corrected, and obstructions are removed, the blood is purified, and the body resumes a healthy state.

The Pills, after much anxious toil and research, having been brought by the proprietor of the present state of perfection, supersede the use of the innumerable other medicines; and are so well adapted to the frame, that the use of them, by maintaing the body in the due performance of its functions, and preserving the vital stream in a pure and healthy state, causes it to last many years longer than it otherwise would, and the minn to become so composed and tranquil, that old age when it arrives, will appear a blessing, and not (as too many have neglected their constitutions, or had them injured by medicenes administered by ignorance) a source of misery and abhorence.

They are so compounded that by strenghtening and equalizing the action of the heart, liver, and other viscera, they expel the bad, acrid or morbid matter, which renders the blood impure; out of the circulation, thro' the excretory ducts into the passage of the bowels, so that by the brisk or slight evacuations, which may be regulated by the doses of the HERB PILLS, always remembering that while the evacuations from the bowels are kept up, the excretions from all other vessels of the boky will also be going on in the same proportion, by which means the blood invariably becomes purified.

Steady perseverence in the use of the Herb Pills will undoubtedly effect a cure even in the most acute and obstinate diseases; but in such cases the dose may be augmented, according to the the inveteracy of the disease; these Pills being so admirably adapted to the constitution that they may be taken at all times

In all cases of Hypochondriachism, Low Spirits Palpitations of the Heart, Nervous Irritability, Nervous *W*eakness, Flour Albus, Seminal Weakness, Indigestion, Loss of appetite, Flatulency, Heartburn, General Debility, Bodily Weakness, Chlorosis or Green Sickness, Flatulent or Hysterical Faintings, Hysterics, Headache, Hiccup, Sea Sickness, Night-Mare, Gout, Rheumatism, Asthma Tie Doulourence, Cramp, Spasmodic Affections, and those who are victims to that most excruciating disorder, Gout,, will find relief from their sufferings, by a course of the Herb Pills.

One of the most dangerous epochs to females is at the change of life; and it is then they require a medicine which will so invigorate their circulations, and thus strengthen their constitutions as may enable them to withstand the shock. This medicine is the Baron Von Hutcheler Herb Pills.

Those who have the care and education of females, whether the studious or the sedentary part of the community, should never be without a supply of the Herb Pills, which remove disorders in the head, invigorate the mind, strengthen the bodey, improve the memory, and inliven the imagination.

When the nervous system has been too largely drawn upon or overstrained, nothing is better to correct or invigorate the drooping constitution than these Pills

DIRECTIONS.

Baron Von Hutcheler Herb Pills are to be taken in the morning and night, when the Stomach is foul, or the Bowels costive, sufficient to operate twice or three times. The dose may be from three to twelve, or more, night and morning.

JOURNAL OF THE
AMERICAN SILK SOCIETY
AND RURAL ECONOMIST.

AT a Convention which met at Baltimore on the 11th of December last, composed of a great number of gentlemen from various parts of the Union distinguished for their public services, patriotism and practical intelligence, the following resolutions were unanimously adopted after full discussion, in the course of which a great mass of facts and valuable information was elicited.

Resolved, That it is the deliberate opinion of this Convention that *Silk* may be grown in all the United States, not only for domestic purposes but as a valuable article of *commercial export*—thereby giving an active employment to American labour, and retaining millions of dollars in our country, that are annually sent out of it for the purchase of silken goods.

Resolved, That a National Silk Journal ought to be established under the auspices of the Executive Committee, and all the funds over and above the support of said paper ought to be devoted to the advancement of the silk cause in the United States.

Under the latter resolution the subscriber has been solicited to assume the editorial superintendence of the Journal to be published by the Society, and now, with not the least abatement of that fondness (not to say passion,) for rural life, and all its pursuits, which prompted him eighteen years since to issue the first number of the old American Farmer, he is but too happy to salute once more his old friends and correspondents, promising to deserve new ones by the most assiduous endeavours, (not incompatible with strict attention to his official duties,) to accelerate the growth and progress of what he is convinced is destined to become a great branch of national industry, bringing into active exercise much of the now unproductive laboring power of the country, giving comfort to the widow and the orphan, by offering them suitable and remunerating employment, and making, in the aggregate, a large addition to the wealth and prosperity of our beloved *Union*.

Though SILK and every thing connected with its preduction and all improvements in machinery for its preparation and manufacture, will constitute the *chief design and aim* of the Journal, for the sake of the agreeable and useful variety, a considerable portion of its pages will be dedicated to the justly popular and kindred subjects of *agriculture, horticulture*, and *rural* and *domestic economy*.—Hence, the adjunctive title 'RURAL ECONOMIST.'

J. S. SKINNER.

The Journal of the American Silk Society will be published monthly, in pamphlet form, each number will contain thirty-two pages, printed on new type and handsome paper, with a printed coloured cover.

All persons friendly to the objects of the Journal will please collect at once and transmit the names and subscription money of those who may feel disposed to patronize it.

TERMS.

Two Dollars a year, or six copies for Ten Dollars, always to be paid before the work is sent. All subscriptions to begin with the first number of the year, and in no case will the work be sent to any subscriber longer than it shall have been paid for.

All communications to be addressed, post paid, to GIDEON B. SMITH, Corresponding Secretary of the Society.

All Editors of papers who may desire to see *Silk* added to the list of *Ameaican Staples*; and who will have the kindness to give this prospectus a few nisertions, will be entitled to a copy of the Journal
