# The Kent News.

CHESTERTOWN, MD.

SATURDAY, - - - JULY 1, 1893.

PEACH GROWERS can now make fairly safe estimates of their crop. The NEWS to-day compiles the best information possible to be had on this subject. Every section of the county is included. This shows a large quantity of peaches to be marketed, though not a full crop by any means. The most important step is to get the money out of them. How can we market them most profitably? Let's stop politics and gossip long enough to consider this important question. The Fairlee fruit growers issue a call in another column for a meeting next Thursday. The Chester Farmer's Alliance are also moving in the matter. Baltimore, Philadelphia and local buyers will want our fruit. Let us see that the purchasing field is enlarged to its utmost and facilities for shipment are complete.

THE WHEAT MARKET is now at its lowest. Seventy cents is the best price for new southern wheat.

GOVERNOR AHTGELD, of Illinois, has pardoned three of the Chicago "haymarket" murderers—Fielder, Schwab and Neebe. Good citzens generally will condemn the Governor for this act. These bloody-handed anarchists should remain in prison.

GOVERNOR BROWN, has granted two pardons. One was for Bartley Kane, convicted in the Circuit Court of Queen Anne's County at the May term, 1893, of illegal dredging, and sentenced to the House of Correction, and the other for Frank Jackson, convicted at the April term of the Circuit Court of Kent County of burglary. The latter had been sentenced to the penitentiary for six years, and was pardoned on condition that he leave the State.

CARLTON SHAFER, ESQ., of Frederick, has been appointed chief deputy by Revenue Collector Vandiver. Capt. Wm. I. Rasin is appointed cashier.

MR. RUSSUM says he will not again be a candidate for office. What will the Eastern Shore Republicans do for a Congressional nominee?—*Denton Journal.*

Don't worry. Col. Vannort still lives.

## Teachers' Association.

The last teachers' association for the present year met in Chestertown Saturday. The exercises were opened with prayer by Prof. Johns, after which the election of officers was held and resulted thus: Eben F. Perkins, president; Henry Tonkin, vice-president; T. H. Topping, recording sec.; Miss Nettie E. Gooding, cor. sec. The report of committee on a "Method of conducting the exercises of the association that would secure greater benefit to the schools of the county" was next read. This report stated that while some other method might be more entertaining, that another might be of value, inasmuch as a lecturer might be employed, but the present system in their estimation is the best as it is not only a varied but a thoroughly practical one. The teachers entered earnestly into the discussion of the French method of marking and it was finally decided to write to Prof. Prettyman for his explanation of the system. The essay by Miss M. Kate Goodhand was carefully prepared and well-written. Her theme was aspiration and attainment or "I shall be, I might have|been."

The association was favored with a few remarks by M. deK. Smith, Esq., relative to the teachers responsibility. He tried to impress upon the teachers their importance and remarked that great men are what their teachers make them. The association at their first fall meeting will discuss the following questions: The subject of reading in connection with Swelt's method of teaching the same. A teacher is to conduct a reading class of pupils from some of the schools of the county. The subject of holding two oral examinations in the schools yearly.

THE Kent County Savings Bank will open its doors for business to-day.

THE Chestertown postoffice will be open from 6 to 7 A. M., and from 12 to 2 P. M., on Tuesday next, July 4th.

THE Weer house in Kennedyville was purchased at public sale Tuesday by H. W. Vickers, Esq., mortgagee, for $1500.

HARVESTING.—Mr. Frank Toulson on the Usilton farm, near town, finished threshing wheat Thursday. Mr. J. C. Walters threshed his crop.

FINGERS HURT.—Master Herbert Pennington and Harry Usilton, employees at the strawboard mill, caught their fingers in the rollers this week. Although not seriously hurt they have been unable to work and the former wears a sling in which to rest his hand.

WHEAT THRETHING is now pretty general in Kent. A few have already finished, and the yield is reported good. The weather has been grand for the wheat harvest, but most too cool and dry for corn and grass. Mr. T. D. France finished threshing wheat this week and estimates his yield at 25 bushels per acre.

QUITE a number of buyers have expressed their intentions of coming to Kent this year to buy peaches. Good peaches will be the rule this year as the trees have just enough on them to develop weil. If the farmer will CULL his fruit CLOSE there will be no trouble about the prices. The latter depend very much upon how the farmer acts.

A SERIOUS ACCIDENT.—Holt, the eleven-year-old son of Mr. Wilbur Eliason, met with a very painful accident Thursday. While at the Flatland school house, he climbed up a large tree, and was out on a small limb, when it broke with his weight, precipitating the young man to the ground. The distance was about twenty feet. Holt came down head first and extended both hands to save his head from the blow, breaking doth his wrists. Two bones in the left wrist and one in the right were broken. He was carried to his home and Drs. Perkins and Hines summoned. This is the young man who had such a rough experience with the dogs on his father's place.

AN ACCEPTABLE PRESENT.—Mr. Robert N. C. Ayres, of Rock Hall, presented to Comptroller M. deK. Smith on Tuesday a beautiful little boat with sails all set. It is three feet over all, 8 inch beam, schooner rigged and an exact counterpart in model and rigging to the police schooner "Annie B. Smith," and named for her. The vessel will be handsomely painted and will grace the home of our worthy Comptroller. The workmanship on the boat is first-class and evidences the fact that the builder is a most skillful workman in carpentering.

## Notes from Tolchester.

Sunday was a big day at the beach and a number were present from Kent. A very unusual sight was witnessed on the riding track. One of the horses stumbled and fell breaking his neck and dying in a few moments afterward. His rider had a very prominent nose and when he arose the first thing he did was to feel for it and ask whether or not it was mashed.

Among the fast horses entered for next Tuesday we hear that of Mr. Allen Jarman's, Mr. T. E. W. Crew's, Bert Decorse's and others. It will be an interesting race and the purse of $100 will be worth striving for.

The Centreville M. E. Sunday school held a large excursion yesterday.

The Nellie Burk combination are drawing large crowds and delighting the people by their unequaled performances.

The Chester Loan Association,

ITS SAVING'S BANK FEATURES AND BENEFITS.

THE CHESTER LOAN ASSOCIATION OF CHESTERTOWN,

offers the best inducements for the deposit of small sums of money, from fifty cents a week, upwards of any institution in the State.

The interest or dividends actually earned and paid to those who have deposited with it, during the past thirteen years, has averaged from five and a-half to six per cent. per year.

The depositors receive as dividends all the earnings of the association, except legitimate expenses, which have never exceeded five hundred and thirty dollars in any one year.

The Chester Loan Association will receive your savings as deposits, every Monday Evening of year, once a month, or once every six months, as you choose, and every depositor, no matter how small the sum, receives a just proportion of all th earnings and interest made by the association, and the dividends are declared and placed to your credit every six months. If you deposit 50 cents a week, two dollars a month, or 13 in six months, you receive at the end of the series you enter, which runs about six years and three months, all the money you have deposited, and an average of about six per cent., compound interest for the whole time; or, if you choose, you may draw your deposit any time after two years, and receive all the money you have paid in and an average of about six per cent. interest for the time your money has been deposited. So that if you deposit fifty cents a week, or thirteen dollars every six months, for six years and three months, at the end of that period you will receive back all the money you have deposited, namely..... $163.50
Add also dividends amounting to..... 36.50
Making a total of..... $200.00

A careful examination of this result shows that you receive for your deposits rather more than six per cent. compound interest.

The investments are made in the most careful and safe manner, under the care and scrutiny of its Board of Directors, composed of five of the most prudent
