POETRY.

From Ned Buntline's Own.

A Prayer for Dear Papa.

BY MRS. EMILY C. JUDSON.

Poor and needy little children,
Saviour, God, we come to Thee,
For our hearts are full of sorrow,
And no other hope have we,
Out, upon the restless ocean,
There is one we dearly love,—
Fold him in thine arms of pity,
Spread thy guardian wings above.

When the winds are howling round him,
When the angry waves are high,
When black, heavy midnight shadows,
On his trackless pathway lie,
Guide and guard him blessed Saviour,
Bid the hurrying tempest stay;
Plant thy foot upon the waters,
Send thy smiles to light his way.

When he lies, all pale, and suffering,
Stretched upon his narrow bed,
With no loving face bent o'er him,
No soft hand upon his head,
O, let kind and pitying angels,
Their bright forms around him bow
Let them kiss his heavy eyelids,
Let them fan his fevered brow.

Poor and needy little children,
Still we raise our cry to Thee;
We have nestled in his bosom,
We have sported on his knee;
Dearly, dearly do we love him,
We, who on his breast have lain,
Pity now our desolation!
Bring him back to us again.

If it please thee Heavenly Father,
We would see him yet once more,
With his olden step of vigor,
With the love-lit smile he wore;
But if we must tread life's valley,
Orphaned, guideless, and alone,
Let us loose not, 'mid the shadows,
His dear footsteps to thy Throne.

MISCELLANEOUS.

Interesting Facts—Printing.

COMMON, or letter press printing, such as books, newspapers, &c., is carried on by a large number of tools of types, every one of which cost money, labor and ingenuity to fit them for use. There are about two or three men in the United States who can make the matrice in which the types are cast, so peculiar, complete, proportioned, uniform and exact, must the work be done; the letters are made principally of lead, mixed with other metals, in order to harden it sufficiently when cool.

For every sized and differently shaped type, new matrices have to be made, and each with the same exactness, or the font is defective. In Roman each letter must be made three times—large and small capitals, lower case, points, figures and other indispensable characters. To give some idea of the number of characters and letters which go to form a font of type, we will state that their are two cases, as the printers call them, the lower case containing all the common or small letters, with the figures and points, or punctuation, double letters, spaces and quadrants; this case has 54 boxes, and every one is occupied. The upper case containing the large and small capitals, and numerous marks and characters which are in common use, has 98 boxes. Thus it seems the type founder, in order to supply a common font of Roman letters, has to have constructed 150 matrices—and the italics are not included here, which will make over 100 more—just to manufacture letter, &c., of size and corresponding faces. Here then, there must be about 250 characters, and some of them a good many times over, to print a newspaper To give the uninitiated the number and proportions of types used—it may answer just to state that we use, say for common average font.

a 8,500: b 1,600; c 3,000; d 4,000; e 12,000; f 2,000 g 1,600; h 6,000; i 8,000; j 400 k 800; l 2,000; m 3,000; n 8,00; o 8,000; p 4,000; q 550; r 5,000; s 8,000; t 9,000; u 4,000; v 1,000; x 500; y 2,000; z 200.

Nothing is here said of points, figures, double-letters and other characters, which would swell the list amazingly. And all this makes one item in a common newspaper office. Nor is anything said of the numerous pictures, flowers, ornamental shades, condensed, extended, &c., types used in newspaper printing, all of which is necessary to make the stock of an ordinary newspaper establishment. The types cost from 30 cents to $3 a pound.

A common newspaper office ought to be supplied with from 1000 to 1500 lbs. of type. These with some $200 worth of wood work, $225 for a hand press, a good many dollars for brass rules, and still more for iron materials, ink, &c., will make a very large abstraction from $1,500. The usual width of newspapers colum's is about 17 m's wide.—And an em is the thickness of a line.

On an average, nearly, three types will go into an em, counting spaces. For every 1000 em's a printer sets, he handles 3000 types; and if he sets 6000 m's which is a days work with correcting the same, and distributing enough for the next day, he handles not from 36,000 types.

The remark is often made that there are so many errors in the paper, and it is true, but let 99 out of 100 who make the observation try the experiment and make fewer—if they can.

☞Some gallant editor says he has determined not to go to the World's Fair. The American *fair* he says are good enough *fare* for him.

Bounty Land and Pension Agency.

Washington, D. C.

THE undersigned Attorney and General Agent at the city of Washington, offers his services in procuring Bounty Land and Pensions for those entitled.—Being permanently located at the seat of Government, with a thorough and familiar knowledge of the necessary forms and routine of business, and having access to Registers and Rolls filed in the U. S. War Office, he possesses facilities for the speedy and satisfactory adjustment of Government claims of every kind.

By a late act of congress, Bounty Land is granted to the officer and soldiers of the war of 1812, and of the various Indian wars, since 1790. To those who served nine months 160 acres, to those who served four months 80 acres, and to those who served one month 40 acres.

Arrangements have been made with gentlemen of the legal profession, in different sections of the country, for the location of Warrants, and the sale of the Patents, when issued, on the most advantageous terms, for the payment of taxes; redemption of Lands sold for taxes; collection of debts, and for the transaction of general Law business in the different States and Territories.

He tenders his services to members of the profession at a distance and when claims against the Government are prepared by a local Attorney, will abate one half his usual fee. The necessary forms and instructions, and information on all subjects appertaining to a successful prosecution of the business will be furnished to regular correspondents without charge.

Information cheerfully given, and all communications promptly replied to, if addressed to

WHITMAN'S Premium wrought Iron Rail-way Horse Power.

AT the great Agricultural State Fair, held at Baltimore, October, 1849, there was the largest exhibition of Horse powers and Threshing Machines ever exhibited in this State, or at any other State Fair in this country, and all thoroughly examined and tested by a large and competent committee, who awarded the *first premium* to the above power, as the *best* on the ground. More than *five thousand* of these powers are now in use by many of the best Farmers in the country, and they consider them to be *double* in power to any of the best Sweep Powers, more durable and much easier for the horses. CASH PRICE, $100.

E. WHITMAN, JR.,
Corner of Light and Pratt Street, Baltimore.

☞As evidence that we do not over rate the capacity of this Power, and for the satisfaction of farmers in want of a good machine, we insert the following letter, just received from one of the most intelligent and respectable farmers in Virginia—and we are in daily receipt of letters of the same import from Maine to Texas.

Miller's Tavern, Essex co, Va., May 20, 1850.

MR. E. WHITMAN, JR.,—

Dear Sir:—I have for some time intended giving you a full description of the operation and success of the two horse wrought iron RAIL-WAY POWER and THRESHING MACHINE, I purchased of you last May. I will give you a few instances of my threshing:—I carried the whole machine between 8 and 10 miles with an ox cart, and set it three times on different farms, and threshed from 115 to 120 bushels of wheat in one day, and each time took the machine out of the cart; made the tables; geared the horses; and commenced threshing in ten minutes. Rev'd. Peter Ainsley, Col. Rich'd J. Muse and Musco Garnett, Esq., were witnesses to the above. In another instance, I commenced threshing at Mr. W. R. G. Tribble's, at 8 o'clock in the morning, & threshed 92 bushels of wheat by 12 o'cl'k.—then moved about a mile after 2 o'clock in the afternoon of same day, and threshed 47 bushels of wheat before sundown. Mr. L. D. Brooks, Mr. Beverly Brooks, and others, can vouch for the truth of this statement. I frequently threshed 100 bushels of wheat from breakfast to dinner time—and during the season, I threshed 38 different crops, making in all 5,450 bushels of wheat, and the wear of the machine is scarcely apparent—and I consider the labor to the horses no more than plowing in light land. I candidly believe, your wrought-iron Railway Horse-power and Thresher surpasses any I have seen, and I find it is now much better since your late improvement have been attached.

You will please have two of your Improved Railway Horse-power and Threshers put up and sent to me by first conveyance, they are for two of my neighbors—have them landed at Piscataway Bridge. I think I shall order one or two more of them between now and harvest.

Very respectfully, yours,
je 26, 1850.—tf W. G. COVINGTON.

DR. SWAYNE'S.

Celebrated FAMILY **Medicines.**

DR. SWAYNE'S

COMPOUND SYRUP OF WILD CHERRY,

The Original and Genuine Preparation.

Coughs, Colds, Asthma, Bronchitis, Liver Complaint, Spitting Blood, Difficulty of Breathing, Pain in the Side and Breast, Palpitations of the Heart, Influenza, Croup, Broken Constitution, Sore Throat, Nervous Debility, and all Diseases of the Throat, Breast and Lungs; the most effectual and speedy Cure ever known for any of the above Diseases, is

DR. SWAYNE'S

Compound Syrup of Wild Cherry.

Wonderful Cure OF **Consumption**

Abraham Hunsicker, 2 miles from Shippackville, Pa., contracted a severe cold, which settled upon his Lungs, attended with violent coughing, great difficulty of breathing, an abscess formed in his lungs, and made its way through the side, and discharged large quantities of pus externally. This mournful state of things continued for a long time, until making use of Dr. Swayne's compound Syrup of Wild Cherry, which performed a certain cure.

CAUTION TO THE PUBLIC.

Dr. Swayne's Compound Syrup of Wild Cherry is put in square bottles, enveloped with a handsome steel engraving, bearing the signature of Dr. H. SWAYNE.

The spurious articles are called by various names, such as "Balsams," "Bitters," and even SYRUPS OF WILD CHERRY; but the public should bear in mind the name of DR. SWAYNE, or they may be deceived by a deleterious article.

SWAYNE'S CELEBRATED VERMIFUGE,

"A safe and effectual remedy for Worms, Dyspepsia, Cholera Morbus, sickly or Dyspeptic children or adults, and the most useful Family Medicine ever offered to the public.

This remedy is one which has proved successful for a long time, and it is universally acknowledged by all who have tried it to be far superior (being so pleasant to the taste, at the same time so effectual) to any other medicine ever employed in diseases for which it is recommended. It not only destroys worms, but it invigorates the whole system. It is harmless in its effects, and the health of the patient is always improved by its use, even when no worms are discovered.

☞BEWARE OF MISTAKES!☜
Remember Dr. Swayne's Vermifuge is now put up in square bottles.

☞See that the name is spelt correctly,

☞ *SWAYNE.* ☜

DR. SWAYNE'S SUGAR COATED SARSAPARILLA AND EXTRACT OF TAR PILLS,

A mild and effective purgative, great purifyer of the blood, they correct all the functions of the Liver, and as an alterative in Dropsical affections, they are very valuable. Giddiness of the head, dimness of sight, depression of spirits, headache, &c., are cured by these purifying Pills. No medicine can have a better effect for monthly irregularities, which occasionally happen to women; they are perfectly safe, and will, in conjunction with Dr. Swayne's Compound Syrup of Wild Cherry, take all pain and disease from every part of the system.

AGENTS FOR DORCHESTER COUNTY.—Wm. Thomas, Cambridge; J. W. Henry, Vienna; Wm. J. Vane, Hicksburg; Edwin E. Medford, New Market; and by all the *principal storekeepers in the adjacent counties.*
