No. 16 *South Frederick st.*
BALTIMORE, Md.

ESTABLISHED for the suppression of *QUACKERY*, and to render speedy and permanent relief to those afflicted with private and chronic diseases.

DR. DOW has for many years devoted his whole attention to the treatment of private complaints, in all their varied and complicated forms. His great success in those long standing and difficult cases such as were formerly considered incurable, is sufficient to commend him to the public as worthy of the extensive patronage he has received.—Within the last eight years DR. D. has treated more than 29,500 cases of private complaints, in their different forms and stages; a practice which no doubt exceeds that of all the other physicians now advertising in Baltimore, and not a single case is known where his directions were strictly followed, and medicines taken a reasonable time, without effecting a radical and permanent cure; therefore persons afflicted with diseases of the above nature, "no matter how difficult or long standing the case may be," would do well to call on *DR. DOW*, at his office, *No. 16 South Frederick st.* and if not effectually releived, no remuneration will be required.

STRICTURES. Dr. Dow has discovered a new method by which he can cure the worst form of stricture and that without pain or inconvenience to the patient. Irritation of the urethra, of prostrate gland, or neck of the bladder, is sometimes mistaken for stricture by general practitioners or charlatans.

YOUNG MEN

and others afflicted with Seminel debility whether originating from a *Certain Destructive Habit*, or from any other cause, with the train of bodily and mental evils which follow, when neglected, should make an early application, thereby avoiding much *trouble and suffering*, as well as expense. By his improved method of treatment. DR. D. can safely guarantee a speedy and perfect cure in all cases of this complaint.

TO FEMALES.

All diseases peculiar to Females, (such as Suppressions, irregularities, &c.) speedily and effectually removed. The efficacy of his remedies, for the cure of the above affections, have been well tested in an extensive practice for the last twelve years.

DR. DOW'S "PREVENTATIVES," for Married Ladies, whose health will not admit, or who have no desire to increase their family, may be obtained as above, or sent in any direction by mail. *Price $5.*

PERSONS AT A DISTANCE may sonsult DR. D. by letter, post-paid, describing case, and have medicine securety put up and forwarded to any part of the United State, always accompanied with full and explicit directions for use. Communications considered strictly confidential. Office arranged with separate apartments, so that patients never see any one but the doctor himself. Attendance daily, from 8 in the morning till 9 at night, (Sundays excepted.)

N. B. Persons afflicted with any of the above complaints, will do well to avoid the various

NOSTRUMS and SPECIFICS, advertised by Apothecaries and Druggists as a certain cure for any and every disease. They are put up to sell, but not to cure, and frequently do much more harm than good—therefore avoid them.

A word to the wise is sufficient.—

WARNER'S PATENT
SUCTION, FORCING AND
ANTI-FREEZING PUMP.

Has taken the Premium of the N. Y. State Fair, and the Silver Medal and Premium of the American Institute. Also of the Franklin Institute of Phila. and the Silver Medal of the Maryland Institute, 1851.

ALL of which will fully justify the following statement:

First—That it is the best, most simple and durable Pump in use.

Secondly—That with the same power, it will raise more water per minute than any other pump in use.

Thirdly—It is anti-freezing, and requires little or no repairs.

The public are invited to call and see the pump in operation.

For a House and Fire Engine it is not equalled by any; one man can draw from a well and throw water over a 3 story house, or by attaching pipe can force water throughout the largest buildings, for Baths and other uses; for a Garden Engine, washing windows, carriages, &c., it is particularly applicable. Price $20. For sale by

SINCLAIR & CO'S
Old Established Southern Agricultural Implement Works and Seed House.
Nos. 58. 60 and 62 Light st. Balt.

THE experience of thirty years relative to the proper construction of Implements and Machinery for the use of *Southern Farmers and Planters*, affords us an advantage that time and experience alone can give, and for the interest of our customers as well as our own, we solicit a continuance of their patronage, which will always command our most careful consideration, and by our having the advantages alluded to, insure them against possessing a stock of Implements of light and inferior construction, and, as regards the South, of doubtful utility. We offer for sale the following synopsis of our stock of *Implements and Seeds* (just published) for particulars; viz:

PLOUGHS.—Of Ploughs, we have in our collection the largest assortment to be found in this or any other country including the Maryland Self-Sharpening, with a Mould Boar of unravelled form, made suitable for the roughest lands and to economise labor also the Sinclair & Moore and Patuxent pattern, for clay and light loam; the Echelon, with two and 3 mould boards, set regular for seeding and cultivation; several excellent Eastern and Western patterns, Subsoil, Hill Side Ploughs, &c.

WHEAT, CORN AND SEED DRILLS.—The entire success of our Patent Wheat Drill last season, and the increased demand for them, has induced us to manufacture this article extensively for the approaching season. Price $90. The Corn and Seed Drill, made on the same plan, $20.

CORN AND COB CRUSHERS.—Of these we make several kinds, price —$25, $30. For plantation use, those at $30 are preferable and excellent in every particular.

HUSSEY'S REAPING AND MOWING MACHINES.—Without regard to the unrivalled success of Hussey's Reaper at the late London Exhibition, we have determined to add them to our stock of Implements. Their simplicity and strength of construction and manifest perfection of operation must result in their general adoption.

CORN SHELLERS.—The Improve single and double Spout (price $10 a 16) are our best hand power machines; and the cylindrical at $30, for large crops. Several other patterns are made at $16a $80; Straw and Fodder cutters. The Two Knife, or cylindrical, rates first in value; of these we make four sizes; at $25 to $45. Double cylinder Hay and Straw cutters—price $10 to $30. Common sort, $5 to $12.—Domestic *CORN MILL.* Prefered size for plantation use is the 30 inch cologne and French Burr Stone—price $110a135.
