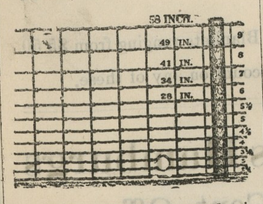
THE OLD RELIABLE

American

WOVEN WIRE

Fence

THE HINGE JOINT—Makes it possible for the fence to withstand sudden and severe pressure from contact with animals or otherwise, without bending the stays, the fence springing back to place the instant pressure is removed. It constitutes the most secure, lasting and efficient lock and without waste of material. Has broad surface connection with horizontal bars, which connection makes sidewise slipping of the stays next to impossible. Very materially aides adjustability, the fence readily conforming to the ground surface regardless of grade.



Tension curves are placed six inches apart in all horizontal bars, adding largely to the natural elasticity of the steel. Rendering the fence self-adjusting under varying conditions, such as contraction and expansion due to changes of temperature, hot and cold weather, climbing, sudden pressure and other strains.

Years of experience in the manufacture of American fence, attended with enormous sales, have demonstrated beyond question that we have this problem figured right and that the tension curve, with the hinge joint feature, keeps the fence right under all circumstances, every day of the year, and as long as the posts stand in position.

We can accommodate you with Field, Garden or Poultry Fence in many styles. Also, barb and smooth galvanized wire. We carry the largest stock of fence in the county.

Call and see our stock.

Held Up.—Miss Bessie Anderson, a well-known young lady of Chestertown, was held up by a negro on Queen street about 10.15 Sunday evening and demanded her money. She had been to the home of Mrs. Dixon, and when between Mr. Wm. H. Brown's and Mr. J. Frank Connelly's the negro rushed out the driveway and grabbed her by the throat demanding her money. Miss Anderson gave three sharp screams for help which scared the negro who made his escape. The officers are on the hunt for the miscreant who is described as a short yellow man, wearing a derby hat. It was an unusual incident here and no reason can be assigned for the deed except that the negro must have been drunk.

The property brought $5450, which about cleared the first mortgage upon it. The new owner did not state what disposition would be made of of the properry, which has recently been fitted with all modern conveniences, heating and plumbing apparatus, and made one of the most comfortable hotels on the peninsula.

Married.—Mr. John W. Rolph and Miss Mary F. Peterson were married at the Chestertown M. E. parsonage Tuesday evening last at 7.30 o'clock. The parties are well known in Chestertown.
