REPUBLICAN CANDIDATE FOR CONGRESS,

HON. WILLIAM B. BAKER,

OF HARFORD COUNTY.

In the leading editorial in its issue of July 15, 1910, the Democratic Advocate in speaking of its party says :

"Another thing that the leaders have omitted to do is to lay down a positive policy to guide the party in event of victory. A source of our weakness, heretofore, has been that the Democratic party was simply a party of opposition as it told the people only in general terms its proposed policy."

Registration day Tuesday, October 11th.

There's a fine Democratic mess in Baltimore.

Governor Crothers is fast sending the Democratic party in Maryland to the junk pile.

The Democrats don't want any local issues injected into the present campaign. They need not worry about the Republicans doing it because their Democratic Governor is now doing the job to perfection.

Hon. William B. Baker, the Republican nominee for Congress in this district, has begun a vigorous campaign in Harford county. He will visit every county in this district and advocate his cause in his well known pleasant manner. The Republicans of the district have reason to be proud of their candidate, the "Grand Old Man of Harford," and should give him their solid support on the 8th of November.

In 1892 the Democratic party said the McKinley law was creating high prices and that if Mr. Cleveland was elected we would have lower ones. Well, we are sorry to say, we did. In 1896 when everything seemed to be going to ruin, Mr. Bryan, the then Peerless Leader of Democracy, came out of the West with the startling information that our money system was all wrong ; that if the people would just adopt a silver currency on his plan of 16 to 1 they would soon all be on the high road to prosperity. Democracy then took up the cry of 16 to 1 and higher prices. Now it is crying for low tariff and lower prices. Democracy must have been born in the "objective case."

CHEAP SHOES.

Sometime ago we had something to say on the subject of free hides and we called them rawhides in order to distinguish them from tanned leather, because as soon as a raw or salted hide is tanned and the hair removed it is classified as leather, and is in fact leather. The editorial seems to have put our Democratic neighbor in such a frenzy that the editor forgot his natural politeness and undertook, in language perhaps more forcible than polite, to criticise our statements.

For the purpose of shedding a little light on the subject of free hides, whether raw or salted, and the past and present price of shoes, we will kindly inform our Democratic neighbor that the gentleman from whom we received our information is now and has been for many many years engaged in the manufacture of hides into leather and has no characteristics of the animal referred to in its editorial of last week.

We have been informed by the same gentleman that as soon as the duty was removed on hides, salted, raw or otherwise, the fellows on the other side of the water and in South America immediately raised the price to a sum equal to the former one, plus the former duty, making the price to the tanner in this country exactly what it was before the duty was removed. We said that the Government lost the duty on the hides and that we were now paying just as much for our shoes as we were before the duty was removed, and we repeat it. The removal of the duty on hides has not produced a lower price for shoes because the foreign owners of the hides are well aware of the fact that we "must" have leather for shoes and other purposes and they are not going to let a good thing go for nothing.

THE TRUTH HURTS.

In our issue of September 23rd, 1910, we said :

"Are you hankering for 46 cent wheat and a Coxey's Army? If so, vote the Democratic ticket this fall. If you want the present condition to exist vote for William B. Baker for Congress."

Last week The Democratic Advocate in "attempting" to answer us, charged us, as is usual with that journal whenever the truth is stated by any other journal, with an attempt to deceive the voters.

We said, in substance, that during the last Democratic administration we had 46 cent wheat and a Coxey's Army of the unemployed. Let us see if the facts justified such a statement.

The Wilson tariff bill, the last Democratic tariff measure, passed the House on February 4th, 1894 and on March 31st. 1894 Coxey's Army started from Massillon, Ohio, on its march to Washington, D. C., to petition the Democratic administration for bread, or work. This condition of the country was produced by the agitation of a change in the tariff law and by the actual changes made by the House of Representatives by the adoption of the bill in February 1894. By reason of the threatened changes in the law a vast majority of the manufacturers of the country shut down their plants, throwing thousands upon thousands of men out of work and reducing the consumption of the produce of the farmers. The Wilson bill was finally passed on August 13, 1894 and on Friday, August 17, 1894, according to the Westminster Markets, furnished by Mr. E. O. Grimes and published in the Democratic Advocate of that date, wheat was bringing 49 cents a bushel. Was that price made by the McKinley tariff?

By an examination of the files of the Democratic Advocate, now in our possession, we find that on September 21, 1894, wheat was selling in Westminster at 48 cents and on October 5th, 1894, it was selling at 47 cents. Surely if the Wilson bill was such a Godsend to the farmers of this county the prices of their product ought to have advanced instead of declining.

We further find, after the Wilson bill had been in operation for over two years, that in July 1896 wheat was selling in Westminster at 56 cents a bushel. If all the claims made for the Wilson bill by our Democratic neighbor were true, surely the price of wheat ought to have advanced more than 9 cents in two years.

In November 1896 Mr. McKinley was elected President and immediately the factories began to resume operation, thousands of idle men were put to work and the price of wheat began to soar, until on December 7, 1896, it had reached 85 cents per bushel in Westminster.

We said that if you were hankering after 46 cent wheat and a Coxey's Army you should vote the Democratic ticket this fall, and we did not make the statement in ignorance or to deceive anyone, as charged by the Democratic Advocate. We meant every word we said, because the agitation of a lower or no tariff unsettles all business of the country, and when business, or money, becomes frightened it soon runs to cover, thereby throwing thousands of men out of employment. We had better suffer the evils, if any we have, than to fly to those we know not of.

WILL NOT VOTE FOR TALBOTT

Mr. George W. Yellott Denies That He Will Support Perennial Candidate For Congress and Gives Reasons

Former County Commissioner George W. Yellott, one of the leading Democrats of Baltimore county, was quoted by the Baltimore American in its issue of September 17, as saying that he would vote for Mr. J. F. C. Talbott, the Democratic nominee for Congress, this year. In view of the well known antagonism existing between these two leaders this published statement was taken up by some to indicate a substantial strengthening of the Talbott forces. This idea has been dispelled by a signed statement sent by Mr. Yellott to the American and published in that journal Saturday September 24th. Mr. Yellott's letter follows:

"I do not intend to vote for J. F. C. Talbott at the coming election for the following reasons:

"1. That he dominates and controls the Democratic party organization in Baltimore county for his own profit and advantage, to the detriment and injury of the taxpayers and decent element of the people of this country. He has made a corrupt commercial machine for his own uses regardless of the expense to the taxpayers.

"2 He either names or ratifies all appointments to office in the county regardless of the fitness of applicants, not to say dishonesty of some of these appointees. In recent years scandals have been smothered with difficulty by the machine he operates.

"3. I do not believe the same man can serve the interests of the corporations doing business in Baltimore county and at the same time act for the interests of the taxpayers and voters of the county, because the two interests are in direct conflict. It has become notorious that so soon as a corporation needs counsel in this county, Mr. Talbott is employed, and in return gives the corporations the benefit of his control of such officers as deal with their matters.

"4. That as a part of his machine manipulation he has found it necessary to conduct the county government with such reckless extravagance that the cost of same is becoming exceedingly burdensome on those who pay the expenses—the taxpayers. Not a session of the legislature for years past that salaries have not been unreasonably increased and new and useless officers created for the purpose of either rewarding his supporters for services rendered, or give him the opportunity of appointing someone to give him new strength.

"If it were not for his interference with county affairs I am sure our tax rate would not exceed 70 cents.

"I cannot support a man so dangerous to the real interests of the people of this county and will have to ask you to correct the statement published in your issue of last Saturday saying I intended voting for Mr. Talbot."

In an automobile accident near Littlestown on Sunday afternoon six Waynesboro residents were seriously hurt and the machine demolished. The car turned two somersaults before it became stationery and three of the occupants were buried beneath the machine while the others were all thrown out on the road. Loss of control of the car is blamed for the accident. All of the occupants of the car were rendered unconscious for some time with the exception of one. They were taken to Littlestown where Dr. Gettier and Crouse rendered the necessary surgical attention.
