BALTIMORE, 1841.

TO THE WHIGS THROUGHOUT THE UNION.

FELLOW COUNTRYMEN—The foregoing is the tle page of a work, which the extraordinary character of the recent canvass for the Presidency eems to demand,—and which will be faithfully nd industriously executed, provided the enterprise e sufficiently sustained, not only by the friends of he in-coming Administration, but especially by hose throughout the country who were prominent actors in achieving the momentous revolution.—The timely and generous aid of both these classes of our citizens will be essential for the accomplishment of the object,—that of the former, by manifesting their approval of the scheme by their subscribing for the work, with as little delay as possible —and the latter, by furnishing me with the most authentic and minute information, in a mode to be hereafter stated.

All history teaches that, whenever a great and trying crisis occurs, the commensurate amount of talent, of learning, of wisdom, and of zeal, will never be wanting; and it has been found eminently so during the whole period that intervened between the extra session of Congress, and the late elections;—in which period, it is not too much to say that more wisdom and common-sense—more untiring zeal and generous enterprise—more manly independence, and patriotic devotion—more eloquence, oratory, appropriate information, and talent of every requisite kind, have been manifested throughout our extensive land, than were ever before, on any occasion whatever, exhibited among us since we were a nation! Should the chronicles, then, of so remarkable a period as this, be suffered to repose in the fleeting recollections of the present day—or be left to the ephemeral and perishable daily or weekly Gazette? Will not the Statesmen and Poloticians, even of our own times, have frequent occasion to refer to the events of the past year?—will not thousands, hereafter, seek in vain through a thousand avenues, for the minute details of this wonderful canvass as full of moral sublimity, as it is charged with deep political wisdom, and careful researches into, and expositions of almost every political topic that has agitated the past, and will continue to excite the future? If so, it seems to me that a careful selection and concentration of all that is essential fully to characterise that period must be acceptable to the general public of the present day—and be thankfully received by those who shall hereafter be connected with the destinies of our great, and I trust, prosperous Republic. With this object, and these hopes, I venture to make this proposal to the American public.

That a faithful and living picture of this period may be preserved, not only for our own day and generation—but for many yet to come, every lineament, however small, if truly characteristic, will be given—and, whilst repetition will be as studiously avoided as may be practicable; still, every State in the Union must contribute its due and relative portion, towards perfecting the graphic delineation—so that the great moral picture of the stirring days, may be educed from all of these various sources, and thereby assure all coming time that the volume is no partizan work of an over zealous individual, but a veracious chronicle of all that may be recorded therein.

The volume will probably be divided into the twelve following parts:

I. The Canvass of 1836, and its results.

II. Proceedings of the Harrisburg Convention.

III. Festivals, &c. throughout the Union arranged primarily, *chronologically*—secondarily, by *States*.

IV. Speeches—Addresses, Letters, &c. carefully selected, and corrected by their respective authors.

V. The titles, & general contents, of all the books, pamphlets, &c. published during the the canvass.

VI. Similar enumeration of all essays, pamplets, &c. written in support of the Administrations of Andrew Jackson and of Martin Van Buren, and a selection from such as may exhibit the legislation—philosophy—and morals of that party.

VII. Selections from the melodies, and other poetical productions, sufficient to characterize the times.

VII. Enumeration of the various articles manufactured for sale—and as promotive of the cause.

IX. The authenticated votes in the recent State Elections.

X. The authenticated votes for the Electors of President and Vice President.

XI. Proceedings at Washington, from the meeting of Congress to the 4th of March, 1841—The Inaugural Address, &c.

XII. The organization of Government—the New Cabinet, &c., Index.

The volume (should the work be patronized) will probably be a royal octavo of 600 pages—stereotyped on good paper. The price will vary from $1,50 to $2, dependent upon the extent of the subscription list, and the diffusing of the work. It is very desirable that much should be done towards the accomplishment of this object by the 4th of March next. Gentlemen from every State of the Union, who may be at Washington during the session of Congress, will confer a favor by bringing with them all pamphlets—addresses—speeches—descriptions of festivals, authenticated votes &c. &c., which appertain to *their own State*, and any other written information that may enable the editor to embrace every thing material that occurred in each State, will be thankfully received. A line addressed to me at Mrs. Hewitt's, Washington, by persons then in the city, will be promptly attended to.

The subscriber, perhaps, may not be asking too much, when he hopes that the Whig papers of the Union, generally, will give the foregoing one insertion—and that the principal Whig Booksellers in all the cities and towns will open a subscription paper, in which the names of subscribers will be *carefully* written—and the exact address, as to residence &c. given.

☞ These subscription papers, from every part of the Union, may be forwarded to me by *private* opportunity in most instances, and then always at Baltimore. Should no private opportunity occur before the 1st of May, they will please state by letter, the number of subscribers, and means will then be taken to forward the work. Any suggestions, by true-hearted Whigs, to further the utility of the volume, will be thankfully received. DAVID HOFFMAN.

Fevers.—All fevers are occasioned by the disordered motion of the bood, produced by the humoral serosity hardening the valves of the vessels.—The blood circulates with greatly increased speed, and is still increased by the friction of the globules, or particles which compose the mass of fluids.—Then it is that the excessive heat is experienced throughout the whole system, and accompanied with great thirst, pain in the head, back, kidneys, and in fact a complete prostration of all the faculties of the mind as well as body.

On the first attack of fever, or any disease, immediately take a large dose of Brandreth's Vegetable Universal Pills, and continue to keep up a powerful effect upon the bowels until the fever or pain has entirely ceased. Six or eight will in most cases be sufficient as a first dose, and one dose of this kind, it is not improbable, may prevent months of sickness, perhaps death.

Dr. Benjamin Brandreth's Vegetable Universal Pills are indeed a universally approved medicine, which, by its peculiar action, Cleanses the Blood of all Impurities, removes every Pain and Weakness, and finally restores the Constitution to perfect Health and Vigor.

☞ Purchase them at Princess-Anne of S. W. JONES, & Co., or only in their respective districts of agents published in another part of this paper.

LAND FOR SALE.

AS the subscriber's pursuits prevent his personal attention to his farm, he will sell it at Private Sale, or, if not so disposed of before the 15th January next, will on that day and upon the premises offer it for Public Sale.

It contains about an hundred acres of cleared and tillable land, and about twenty-five of woodland; and there is attached to it some, and adjoining it much salt marsh, which has been proved by ample experiments to be an excellent manure. It was the residence of the subscriber's Father, and until lately has been with a brief interval the residence of his Mother, and is in a state of high cultivation; and the DWELLING and most of the OUT-HOUSES upon it are in good repair. It is situated in Dames Quarter Neck and directly on the broad water near the confluence of Wicomico River and the Sound, which afford abundant supplies of fine fish and oysters, and great facilities for speedy and cheap communication with our markets. And besides its resources of manure, already mentioned, much sea-grass is thrown uponits shore; and there are some oyster shells upon it, and large banks of them on a farm, separated from it only by a small creek; and the virtues of lime as a corrective and manure for land are fast becoming to be properly appreciated in our county. The situation is pleasant and healthy; and the farm is believed to be one of the best in that *money-making* region.

The terms of Sale, if not otherwise arranged at Private Sale, will be a credit of eighteen months for half of the purchase money, and of thirty months for the other half; the purchaser to give bonds with approved security and bearing interest from the day of sale. A deed will be given for the property at the payment of the last instalment, and in the meantime a conditional bond of conveyance; or a deed will be given at the execution and delivery of the bonds, and a lien taken upon the land as collateral security for their payment, at the option of the purchaser.

The subscriber's Mother, who has a right of dower in the property, will unite with him in the sale, and in giving a title in fee simple free from incumbrance of dower.

HENRY A. WHITE.
