Howard Association,

PHILADELPHIA.

A Benevolent Institution established by special Endowment, for the relief of the Sick and Distressed, afflicted with Virulent and Epidemic Diseases.

THE HOWARD ASSOCIATION, in view of the awful destruction of human life caused by Sexual diseases, and the deceptions practiced upon the unfortunate victims of such diseases by quacks, several years ago directed their Consulting Surgeon, as a CHARITABLE ACT worthy of their name, to open a Dispensary for the treatment of this class of diseases, in all their forms, and to give *medical advice gratis* to all who apply by letter, with a description of their condition, (ages occupation, habits of life, &c..) and in case, of extreme poverty to *furnish medicines free of charge*. It is needless to add that the Association commands the highest medical skill of the age, and will furnish the most approved modern treatment.

The Directors of the Association, in their Annual Report upon the treatment of Sexual Diseases, express the highest satisfaction with the success which has attended the labors of their Sergeons in the cure of Spermatorrhœa, Seminal Weakness, Gonorrhœa, Gleet, Sphilis, the vice of Onanism or Self-Abuse, Diseases of the Kidneys and bladder, &c., and order a continuance of the same plan for the ensuing year.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with renewed zeal to this very important and much despised cause..

An admirable Report on Spermatorrhœa, or Seminal Weakness, the vice of Onanism, Masturbation, or Self Abuse, and other Diseases of the Sexual organs, by the Consulting Surgeon, will be sent by mail (in a sealed envelope) FREE OF CHARGE, on receipt of *two stamps* for postage. Other reports and tracts on the nature and treatment of Sexual diseases, diet, &c., are constantly being published for gratuitous distribution, and will be sent to the afflicted. Some of the new remedies and methods of treotment discovered during the last year, are of great value.

Address, for Report or treatment, Dr. J. SKILLIN HOUGHTON, Acting Surgeon, Howard Association, No. 2 South Ninth St., Philadelphia, Pa.

By order of the Directors,
EZRA D. HEARTWELL, President

GEO. FAIRCHILD, Secretary.

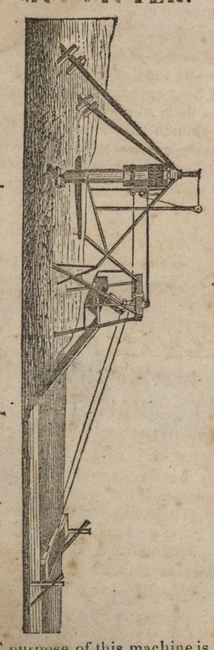
BRYAN'S AGRICULUTRAL MUNCHETER.



A Strong and Durable Machine, which can be worked by two horses and will raise 15 Cart Loads per hour, only requiring one man to operate it. Ordinary Farm Hands,

THE purpose of this machine is to raise the deposit [illegible] the bottom of ravines, coves [illegible] or other places *Inaccessible to teams.*

This Machine rai[illegible] mud, brings it onshore, deposits into a hopper, under which a cart can be driven, and receives its load by means of a slide moved by the driver, by which all labor of shoveling avoided.

The bucket is made of the best boiler iron, and is so constructed that it dumps the mud into the hopper, and by reversing the capstan, adjusts itself and is carried out for another load.

By referring to a drawing and clear explanations sent with each machine any ordinary carpenter can put one up without difficulty.

But a few pieces of roughly hewn timber are required for the frame. Everything else complete with chain and rope enough to send the bucket 170 feet from the capstan, is furnished in Baltimore for the sum of $225 cash.

All orders promptly attended to, or information given at Larrabee's Foundry, *Cor. Front and Plowman Streets,*

CERTIFFICATES.

Centreville, Queen Ann's Co.,
March 10th, 1859.

A. S. GODWIN, ESQ., DR. SIR:

Learning that you are appointed agent for the sale of "Jourdan's Superphosphate of Lime," I take pleasure in saying to the public that I have used it for several years, on wheat and corn, with satisfactory results I consider it the best Phosphatic manure I have used. W. S. TURPIN.

I have used extensively Jourdan's Ammoniated Superphosphate of Lime, for 2 years, upon wheat and corn. The effect was great and profitable in the increas- of both crops, and to me highly satisfactory, having proved a cheap and valuable fertilizer. I regard it as being among the very best concentrated manures in use.

CEO. W. CUMMINGS.

Smyrna, April 1, 1856.

I tried "Jourdan's Superphosphate of Lime" last fall, on wheat, to a limited extent, and found (at harvest) the wheat equal to where Guano on the one side, and manure on the other side, were applied. I tried to apply the same quantity (300 lbs. per acre,) of each, the ground prepared alike; the Guano sowed before planting, and the Phosphate of lime after, being the only difference; the soil sandy loam. I wish you to send me three tons more of the same article, for my wheat crop of this fall sowing, for I believe in the quality of it WM. COLLINS.

Kent Co., Del., Oct. 4, 1855

I last year furnished my tenants with twenty tons of Jourdan's Ammoniated Superphosphate of Lime, which was applied to the corn crop in the hills, and I was much pleased with its effects. The corn stood well and grew rapidly, and the crop was. I have reason to believe, greatly increased in consequence of the application of the fertilizer.
