SCHOONER LOST!

Capt. Darius Coleman, of Rock Hall, was Mate and is Reported Lost—Wrecked in the Hurricane of Aug. 18th.

The schooner Gen. E. L. F. Hardcastle, of Baltimore, went down before the hurricane that swept the Atlantic Coast August 16 to 18. Intelligence to this effect was received Wednesday, and it is feared her captain, Wm. Franklin Todd, and all on board were lost. Nothing has been heard from them since the disaster.

The scene of the wreck is in Pamlico Sound, about eight miles from Portsmouth Island and one and a half miles from Royal Shoal, where there is a lighthouse.

Piled on the deck of the craft was a quantity of lumber, and it is probable that this caused the vessel to capsize when struck by the gales.

The following telegram was received at the Marine Exchange from Newberne, N. C., Wednesday, and gave the first definite news of the vessel's loss:

"Schooner Gen. E. L. F. Hardcastle sunk near Portsmouth. Vessell and lumber in bad condition. Crew lost."

On the vessel when she left Baltimore were:

Capt. William Franklin Todd, her master, of 8 N. Luzerne street.

William Todd, aged 11 years, his son.

Mate Darius Coleman, of Rock Hall.

A white crew of four or five, whose names were not ascertainable.

The schooner Gen. E. L. F. Hardcastle was owned by Geo. A. Matthews, Thos. Matthews and the two sons of the latter. She was built in 1883 by J. S. Beacham & Bro., for Capt C. S. Carmine, who parted with her. The dimensions are: Length, 79.6 ft; breadth, 23.4 ft.: depth, 6.3 feet.

AMONG THE SICK.

Mr. John Brice, candidate for commissioner, has been confined to his home for a month past with malaria. He was better yesterday.

Mrs. Lottie Blackway was also improved yesterday.

Mr. and Mrs. John W. Startt are both sick in bed at their home on High street.

Mrs. James A. Russell received a slight stroke of paralysis while on the road from Tolchester to Chestertown. We are pleased to report her improved.

Mrs. S. E. Sunfield, Miss Mollie Watts, and Cody Loud are convalescent.

Mr. J. N. Moffett is quite sick at the home of Mr. Wilmer Ford, near Still Pond.

Master Thomas Eliason is quite sick at his home on Spring ave., with fever.

TOMATOES GALORE!

The Market Glutted and Farmers at a Loss to Know What to do With Them.

The canneries throughout Kent are in the midst of one of the biggest seasons in their history. Tomatoes by the ton are piled about the workmen while farmers who have not sold stand begging the canners to take them at most any price. These factories are at work night and day and employ all who want work. The city market brought many in debt this week and we know of several growers who threw the tomatoes overboard rather than ship and lose the basket. On Wednesday they were worth but six cents per basket and at this rate the farmer would lose several cents on every basket. Contractors, notwithstanding the low price, are standing firm and paying $6 per ton to their growers.

Mr. Alday Clements, of near Crumpton, has twenty acres of fine tomatoes but has not contracted, neither has Capt. Brinsfield who is feeding his to the hogs. There are many others also.

Messrs. Woodall and others around Galena have sold their crop to Platte & Co., of Balto., for 11 cents per basket.

The tomato worm is playing havoc in many sections. A special from Seaford says that Andrew Jones has a ten-acre field of tomatoes near town, which is being literally eaten up by the tomato worm. He has already picked off over two bushels of the worms, which are hardly missed from the vines. Yesterday he went out to the patch and picked six baskets of what he thought were the best tomatoes to be found in the field. After carrying them home and examining them carefully he found that they were unfit to eat and had to throw them away. The patch is a total loss.

The advance in tin plate will have a tendency to send up the price of canned goods. Tin that sold for $2 62 per box in January is now worth $4.65 and there is no certainty as to where the price will soar.

LOCAL NOTES.....

THE oyster season opened Friday. Many Rock Hall oystermen are pursenet fishing and will not begin oystering until the middle of September. Capt. Wm. Apsley and others report the growth of young oysters to be abundant and the outlook cheerful. So may it be.

Later Mr. Armstrong came to the conclusion that he had been worsted a little in the deal and sought to recover his buggy through the process of law.
