THE DEMOCRAT.

WM. H. BOWDLE, Editor.

CAMBRIDGE,::::::::::::APRIL 7, 1852.

☞ THE 'DEMOCRAT' HAS A LARGER CIRCULATION THAN ANY OTHER PAPER PUBLISHED IN THE THREE LOWER COUNTIES ON THIS SHORE; WHICH MAKES IT THE BEST COUNTRY JOURNAL IN THE STATE, FOR THE PUBLICATION OF ADVERTISEMENTS.

☞ We have nothing from Annapolis, worthy of note this week.

AMERICAN FARMER.—We have received the April number of the American Farmer, which is filled with a variety of useful and instructive reading matter for the Farmer. *Price* $1 a year; address S. SANDS, Baltimore, Md.

THANKS.—The Hon's. Lewis Cass, J. Letcher, and J. S. Cottman, will each accept our thanks for valuable public documents.

DEMOCRATS ATTENTION.—By a notice in another column, it will be observed by our democratic friends throughout the county, that they are requested to meet in CAMBRIDGE, on MONDAY next the 12th inst., at 2 o'clock, P. M., in county Convention, to appoint Four Delegates to the State Convention to be held in the city of Baltimore, to nominate an Electorial Ticket for the State, and at the same time to appoint four delegates to a District Convention of the counties of Talbot, Dorchester, Somerset and Worcester, to select a delegate to represent said district in the Presidential Convention, which is to assemble in Baltimore, in June next.

The Easton Star suggests that the district Convention assemble at Baren Creek, on Wednesday the 5th of May next. If this day will suit our friends in the lower counties, it will also suit this county. We should like to hear from our friends in Somerset and Worcester on the subject. We move that the 5th of May be the day.

The democrats of Somerset are to meet in convention to-day, to appoint delegates to the Barren Creek convention, &c.

ATTENTION THE WHOLE!—We call the particular attention of our numerous readers to the variety of advertisements to be found in our columns, on both sides of this issue. Persons who are in want of such articles as are offered to the public in this paper, will do well to give the advertisers a call, as it is a true saying when you see a man too close to advertise his goods, &c., he is sure to sell you hard bargains. But on the other hand when you see a man lay his articles before his customers through the public press, he is always sure to sell cheap and at small profits, for he is not ashamed to let the public know what he has for sale. No one can do business at this enlightened day, without letting the people know where his store, office, or shop is to be found, and what sort of a business or profession he is doing. Yes! reader when you want good bargains, call on those who advertise. For a man that is afraid to spend a dollar to let you know that he has cheap goods—beware of him.

HERRINGS.—The Elkton Democrat, speaking of herrings, says the fisheries are taking them more freely. They have fallen in price, this week, from $1,50 to $1,00 per hundred. Very few shad have yet been caught.

OTTO AND JENNY LIND GOLDSCHMIDT will sail for Europe, in the steamer Atlantic, in May next; but previous to her departure, it is said, they will give three concerts in New York. They will take place the last of April.

THE INDUSTRIAL CONGRESS, in New York, has elected seven delegates (with substitutes) to the National convention of Washington, to be held at Washington city on the 2d of June next.

THE SMALL NOTE BILL, allowing the Virginia banks to issue bills of a less denomination than $5, has been indefinitely postponed by the house of delegates of that State.

RIVER AND HARBOR BILL.—It is said at Washington, that the river and harbor bill appropriates $1,200,000, and that $10,000 are applied to removing the obstruction from the mouth of the Susquehanna.

A HEALTHY FAMILY.—There is a married couple living in the upper part of Queen Anne's county, Md., who have been married for twelve or fifteen years, have eleven children, and have never yet had the necessity of calling in a physican in a case of sickness.

LOLA MONTEZ IN BOSTON.—Lola Montez paid a visit to the public schools of Boston, a few days ago, and it is said made a short address to the scholars.—Lola has also had a quiet interview with several of the editors of the Boston papers, to whom, it is said, she expressed a decided preference for Mr. Buchanan, for the Presidency, and a fervent regret that she will not be qualified to record a vote in favor. With such an endorsement, Mr. Buchanan will unquestionably run ahead of all competitors.

NOMINATION OF GEN. CASS IN NEW YORK.—On Thursday evening two important meetings were held at Tammany Hall, N. Y., of the Old Men's and Young Men's General Democratic committee. In both, Gen. Lewis Cass was strongly endorsed as the democratic candidate for President of the U. States. The Young Men's committee, besides declaring him as their choice, denounce as unworthy of confidence any delegate to the National convention who does not use every honorable effort to secure his nomination.

MARYLAND DELEGATES TO THE DEMOCRATIC NATIONAL CONVENTION.—The democratic members of the Maryland Legislature held a caucus, at Annapolis, on Tuesday night, the 30th ult. and appointed Col. Edward Lloyd, of Talbot county, and Col. Hugh Ely, of Baltimore county, delegates at large to the Democratic National convention, which meets in Baltimore on the 1st of June. Both of these gentlemen are said to be in favor of Gen. Cass for the Presidency.

SOUTHERN RIGHTS ORGANIZATION.—The Southern Press, taking it for granted that Gen. Cass will be the democratic. and Gen. Scott the whig, nominees for the Presidency, urges the Southern rights party to refrain going into the national conventions of either party. It prefers the organization of a third party, which, it thinks, will hold the balance of power, and thus control the Presidential election.

FINED FOR ISSUING SMALL NOTES.—On Monday, in the criminal court of Washington city, the following persons and firms plead guilty to indictments charging them with issuing notes of a less denomination than five dollars:—William Selden and R. W. Latham, (of the same firm, but separately indicted,) fined $25 each. John F. Callan and Thomas M. Hanson, (as a firm,) fined $50. Robt. H. Gallagher and S. W. March, (as a firm,) fined $50.

SPECIAL ELECTION IN FREDERICK COUNTY.—The Speaker of the Maryland House of Delegates has issued his writ directing a special election to be held in Frederick county, on Wednesday, the 14th of April, for a delegate to supply the vacancy caused by the death of Henry McElfresh, Esq.

CODIFIERS OF THE LAWS.—A joint committee of the Senate and House have nominated Judge ALBERT CONSTABLE, of Cecil, and OTTHO SCOTT, of Harford county, to codify the Laws of this State, in obedience to the requirements of the new constitution. The same committee also nominated WM PRICE, Esq., of Washington county, to Revise the Statutes, Simplify Pleadings, &c.

PRINCE GEORGE'S COUNTY.—The democrats of this county are to hold primary meetings on the 28th instant, to choose delegates to a county convention to be held in Marlboro', on the 17th instant to select four delegates to the State convention, to be held in this city, to nominate an electorial ticket for the State and also to appoint four delegates to the congressional convention.

BARN STRUCK BY LIGHTNING.—On the 27th ult., the barn of Mr. Joshau Husband, near Dublin, Harford county, Md., was struck by lightning. Several of the main parts of the building were shivered nearly fifty feet apart, the slate roof broken in and the building set on fire, but the flames were quickly suppressed. It was insured for $800.

ADJOURNMENT OF THE MISSISSIPPI LEGISLATURE.—The Mississippi Legislature adjourned on the 16th inst., without districting the State for congressional represetation, or electing a U. States Senator for the long term. An extra session will have to be called by Gov. Foote.

THE NEW SILVER COINAGE.—The statement that the new silver coinage, which the bill before congress provides for, will have more alloy than the silver coins now in use, is incorrect. The fineness of the silver will not be altered only there will be less silver in the new coinage.

LECTURES BY LOLA MONTEZ.—We see it stated that Lola is preparing a series on the politics and public men of Europe, which will be in direct contrast, in its theories and descriptions, with the recent orations and speeches of Kossuth. Lola Montez claims to be a republican—but not a red republican.

COL. CHARLES N. HANDY, late Indian agent at the 'Osage river (Mo.) Agency,' who has been sojourning awhile in Snow Hill, Md., died on the 28th ult., after a lingering illness. He was a son of the late James H. Handay, of Washington city, and formerly a member of the Maryland legislature.

THE MAIN LAW IN OHIO.—The Ohio State Temperance convention has *not* disapproved the temperance law of the State of Maine, as has been represented. It passed a resolution in favor of a law, embracing substantially the principles of the Maine liquor law, as we see by the published proceedings.

DISMISSAL OF CLERKS.—Nineteen clerks were discharged from the Pension Offiee, at Washington, on Tuesday last on the sole ground that all the work has been finished, and there is nothing more to do.

TOBACBO PLANTS.—The Marlboro' (Md.) Gazette learns that recent frosts have severely injured the tobacco plants in Prince George's county.

Adjournment of the M. E. Conference.

PHILADELPHIA, April 2—The Methodist conference have adjourned *sine die*, having made their appointments for the ensuing year.

The following are the appointments for the three districts of the conference within the limits of Maryland and Delaware:—

[Correspondence of the Democrat.]

TROY, New York, March 29, 1852.

DEAR SIR:—Presuming that you have not heard, as yet, the latest news from this vicinity, I thought I would write you a few lines, in order that the "Democrat," might have the news as early as possible.

Four days ago as Mr. Wyatt, (formerly a Dagurreotypist in this city,) was digging a well on his farm, about two and a half miles from Troy, he suddenly noticed at the distance of about twenty feet below the surface, that the rocks (composed of mica and Slate rock I believe, though I have seen only one small specimen,) were filled with some glittering substance, on examining it, he thought it might be gold, and under this impression, took it to a Goldsmith, who, after subjecting it to the necessary tests, pronounced it gold; workingmen were forthwith assembled, and it is now thought that gold may be obtained in considerable quantities, from seven to twenty feet below the surface.

Some lumps have been found, worth from five to ten dollars; but generally in small particles mixed with slate and mica rock.

[We should be pleased to hear from our correspondent often.—ED. DEM.]

CATHOLIC CHURCH IN TEXAS.—The Baltimore county Advocate says: A Catholic Church will be erected the coming summer in the Village of Texas. It will be 75 by 45 feet, built in the Gothic order of architecture, and finished in a style to make it an ornament to the place. We understand that sufficient funds have been raised for the erection.

EXECUTED.—John Erpenstein was executed on Wednesday at Newark, N. J., for the murder of his wife. He made a full confession of his guilt, which is to be published. When told that the fatal hour had arrived, he made the following prayer, having previously addressed the persons assembled at some length:

"O, Father! I commend to thee my soul: Take my spirit unto thee, Father—for my career on earth is now ended. I have wandered on a strange path, in a strange land, and now return to thy fatherly house. O, God! have mercy upon me! Jesus, thou art my saviour, and in thee, O, Jesus, I live and die! I am thine alive or dead! I am ready to die now—I have commended myself to God."

RIVER AND HARBOR IMPROVEMENTS.—It is said that the river and harbor bill, appropriating about $1,200,000, will be reported in the House, at Washington, in a few days. The following are said to be some of the appropriations: For removing obstructions at the mouth of the Susquehanna river, at Havre de Grace, Md., $10,000; for constructing a steam dredge and discharging scows for the waters of the Chesapeake bay and the Atlantic coast, $20,000; for the continuation of the Delaware breakwater, $30,000; for the construction of a harbor on the east side of Reedy island, Port Penn., Delaware, $51,000; for the repairs of the works at the harbor of Chester, on the Delaware river, $5,000; for the continuation of the navigation of the Hudson river, above and below Albany, $50,000; for the improvement of the navigation of the Mississippi river below the rapids and the Ohio, including the repairs of the dams at Cumberland island, Missouri and Arkansas rivers, $200,000.

MAKING "ROME HOWL."—Mr. Stevens, who promised to give us the "Secret History" of the Astor Place riots, has made his publication in the New York Police Gazette. The Philadelphia Evening Bulletin says:

"It is a long and rather wordy document, containing much that is irrelevant, and a good deal of personal abuse of Forrest. The 'historical' part only lets us know that the first outrages on Macready at the Opera House, were got up by Stevens and others of Forrest's then friends, without Forrest's knowledge.—They made use of Macready's insinuations against the democratic party to arouse indignation against him, and by purchasing quantities of tickets got a great many into the theatre who were instructed to 'kick up a row,' as they did most successfully.

GEN. SCOTT AND THE LATE SIR JOHN HARVEY.—The Halifax papers, in recording the death of the late Sir John Harvey, who was at the battle of Lundy's Lane, relates the following incident:

"At the battle of Stony Creek the Americans were defeated; but Sir John narrowly escaped being shot. An American rifleman was just presenting deadly aim at his commanding figure, when a sword struck aside the fire lock with this expression—'Don't shoot that British officer; he is preventing the shedding of blood.' Sir John was riding among the combatants, attempting to stop the carnage. The officer who struck aside the rifle was General Scott, and the occurrence led to the great friendship which afterwards existed between the two veterans."

WORTH KNOWING.—It is a fact, perhaps not generally known to farmers, and which, at this season, is important, that there are two parts in the potato, which if separated and planted at the same time, one will produce potatoes fit for the table eight or ten days sooner than the other. The small end of the potato which is generally full of eyes, is the part which produces the earliest; the middle or the body of the potato the late and larger ones. This we learn from an exchange.

MASSACHUSETTS AND THE UNION.—In the Massachusetts House of Representives over the Speaker's chair is an eagle, holding in its beak a scroll, with the words, "God save the Commonwealth of Massachusetts." A member recently submitted an order directing that there should be added to this invocation, "and the union of the states."

The spirit of this motto does not seem to be understood—what our old "Continentalers" meant was, the dollar and cent idea—God save the *common wealth.*

LATER FROM THE RIO GRANDE.—The steamship Yacht arrived at New Orleans on the 26th ult., from the Brazos, with $40,124 in specie. Col. C. R. Wheate came passenger. There is said to be no truth in the report that Canales had pronounced against the Mexican government. Gen. Carvajal, on his arrival at Brownsville, where he was arrested, was accompained by Brevet Lieut. Col. A. H. Gonzales, his aid and military secretary; Col. Jose M. Cabaasos, formerly in command of the Reynosa Squadron; and Major A. N Norton, of the commissary Department.

OIL CONTRACTS.—The contract for supplying the government with 75,000 gallons of sperm oil, one-third winter pressed from head matter and two-thirds spring oil, to be delivered in Boston, was closed on the 22d inst., in favor of Lawrence Grinnell, Esq., of New Bedford, at 118 2-3 cents. C. H. Leonard, of New York, received the contract for 18,128 gallons of sperm oil, at 126 ½ cents per gallon.

IMPEACHMENT OF ARISTA.—It has been proposed in the Mexican congress to impeach President Arista, for instigating a Capt. Buenarbad to thrash one of the members, Senor Villanueva, who had made a speech in the Chamber of Deputies, violently censuring the conduct of the President. Capt B., it appears, exhibited a paper from Arista, authorizing him to haul Senor V. over the coals, for his speech; and Arista, it is said, stood in a balcony, at the time, apparently a delighted spectator of the combat.

MORE OF THE REV. JOHN W. GREEN.—The Mayor of Philadelphia, it is said, has received a letter from Lodi, Seneca county, New York, stating that the Rev. J. W. Green, who was arrested a short time ago in Baltimore, for swindling, resided in that place about four years ago, and has now a wife and three children there. The letter states that he preached to that village about a year, and afterwards was employed as a painter. He left his wife and children in destitute circumstances, but they were cared for through the generosity of her friends and relations.

UNION COURSE, LONG ISLAND.—The New York Spirit of the Times, says:

"Again the tocsin sounds!" "All the world and his wife," hereabouts, are waiting with great interest for the commencement of the trotting season. An unusual number of heroes are in training at the North this Spring. Boston, Providence, Buffalo, Chicago, Montreal, Rochester, Albany, Philadelphia, and half a dozen other cities, will be represented on Long Island in April and May, by some excellent stock.

A NEW SORT OF COUP D'ETAT.—The Columbus (Miss.) Democrat, in a touching notice of the death of an aged gentleman, whom it styles one "of the most quiet and unobtrustive citizens," says that "he was afflicted with an affection of the heart, and its *coup d'etat* carried him off like a flash of lightning."

In Baltimore, a poor man, while counting a roll of bank notes, missed a five dollar bill, and suspecting that his dog, who had been watchidg him, had swallowed it, he immediately killed and opened him, and recovered the fragments of the lost note. They were carefully joined, and the notes thus re-issued is passing current.

Interesting sight—to see a crowd of two-legged puppies urging two respectable dogs into a fight, and clapping their hands and yelling with delight, while the animals tear each other in their fury. It gives one an elevated idea of human nature—such a spectacle does!

RETURNED TO THE UNITED STATES.—Mr. O'Mcara, the Secretary of Father Matthew, has arrived at New York from Cork, and intends to take up his residence in this county. Father Matthew is staying with his relatives in Cork.

SHAKSPEARE READINGS.—We notice, by the papers, that Miss Upton is giving a series of readings of Shakspeare in Virginia and the South. She is spoken of as a lady of high intelligence and an accomplished reader.

A WHITE PARTRIDGE.—A gentleman in Hopewell township, York county, Pa., trapped a few months ago, a partridge that was perfectly white, with all the other marks peculiar to the race.—The York Press says it has been purchased by a gentleman of Baltimore.

THE HEIRS of Gen. Lafayette have brought suit to recover several hundred acres of land, having a front of 600 yds., beyond the old fortifications at New Orleans. This is a portion of the 11,520 acres of land granted to Lafayette by congress.

'The hardest fare I ever experienced,' said an old codger, "was the time when I got lost in the woods. I slept on a rock, and cracked butternuts with my teeth, for a living." Them was hard times.

Mrs. Dobbs, upon being summoned to court as a witness, asked Mr. Dobbs what she should say, if the pesky lawyers inquired her age. "Say, madam," replied Mr. Dobbs, "why tell 'em you have not yet reached the years of discretion."

DIED,

At the Drawbridge, on Friday the 26th ult., Dr. KENDALL FOOKS, in the 42d year of his age.

In this county, on Friday last, Mrs. MILCA ANN ROOK, aged about 25 years.

WARNER'S PATENT SUCTION, FORCING AND ANTI-FREEZING PUMP.

Has taken the Premium of the N. Y. State Fair, and the Silver Medal and Premium of the American Institute. Also of the Franklin Institute of Phila. and the Silver Medal of the Maryland Institute, 1851.

ALL of which will fully justify the following statement;

First—That it is the best, most simple and durable Pump in use.

Secondly—That with the same power, it will raise more water per minute than any other pump in use.

Thirdly—It is anti-freezing, and requires little or no repairs.

For a House and Fire Engine it is not equalled by any; one man can draw from a well and throw water over a 3 story house, or by attaching pipe can force water throughout the largest buildings, for Baths and other uses; for a Garden Engine, washing windows, carriages, &c., it is particularly applicable. Price $20. For sale by
