The engine of Western Maryland passenger train No. 4, eastbound, was derailed at Doe Gully Tunnel, west of Hancock, Tuesday morning. The derailment was caused, it is thought, by the locomotive "picking" a switch. The train was in charge of Conductor Martin Stitzel and Engineman J. V. Crum. The engineman succeeded in bringing the train to a stop before any of the cars left the track, which was badly torn up. Traffic was delayed for several hours. Davis. He was taken to jail but was later released on bond by Justice Brown for his appearance at a hearing on Monday. On Monday he waived a hearing and security was accepted for his appearance at Court.

The State convention of the remnant of the Progressive party of Maryland, held in Baltimore, on Wednesday, nominated Dr. V. M. Reichard, of Washington county, for United States Senator. The party is without candidates for Congress in the First and Fifth districts, but expects to fill the vacancies. The convention was not largely attended and no list of delegates has been published. Whether who, if anybody, from this county, was present cannot, therefore be stated. It is interesting to observe that, while the Republican party was scored in the platform adopted, the Democratic party was denounced for its tariff policy and the high cost of living, while opposition to these policies is a cardinal and leading factor in Republican contention.

MRS. EMANUEL STONER

Mrs. Maria Stoner, widow of the late Emanuel Stoner, of this city, died last Saturday evening, at 7.30 o'clock, at the home of her daughter, Mrs. Charles E. Klein, of Braddock, Frederick county, with whom she resided since the death of her husband seven years ago. She had been ill nearly two weeks and her death was hastened by a stroke of paralysis received on Friday last and from that time she was unconscious until her death. Her age was 80 years, 11 months. She was the mother of thirteen children of whom ten are living, namely, Mrs. Annie V. Myers, of Williamsburg, Iowa; Mrs. Emma R. Rhodes, of Kansas City, Mo.; Mrs. Lucinda Lesh, of Ault, Colorado; Messrs. John D. Stoner, of Nevada, Mo.; Clayton L. Stoner, St. Louis, Mo.; George E. Stoner, of Portland, Oregon; C. A. Stoner, of Gettysburg, Pa.; Mrs. Chas. E. Klein, of Braddock, Md., and S. C. Stoner and J. E. Stoner, of this city.

She is also survived by the following brothers: Messrs. John and Christian Royer, of this city; Jonas Royer, of Melrose, this county; Jesse Royer, of Gove Centre, Kansas, and David Royer, of Little Rock, Arkansas. She was the daughter of the late Christian and Mary Royer, of Cranberry Valley.

On Sunday, September 20, she was visited by her brothers, Messrs. John and Christian Royer, and her sons, S. C. and J. E. Stoner, of this city, and in her conversation with them, was contemplating with much pleasure attending the dedicatory exercises of the new church, this fall, at Meadow Branch, as she was present when a girl of 14 years old at the dedication of the old church, in 1847.

In addition to her children and her brothers she is survived by 55 grandchildren and 11 great-grandchildren.

On Monday evening, her remains were brought to the home of her son, Mr. S. C. Stoner, of this city, and funeral services were held in the Church of the Brethren on Belle Grove Park, on Tuesday afternoon, by Elder Charles D. Bonsack, of Blue Ridge College, after which her remains were interred in Meadow Branch Cemetery. She had been a member of the Church of the Brethren from her girlhood.

It was a notable coincidence that her funeral was held on the 61st anniversary of her marriage and 11 years after she had celebrated her golden wedding.

The following nephews acted as her pallbearers: Messrs. Edwin E. Stoner, Prof. John T. Royer, John T. Stoner, Harry E. Royer, Leander Royer, and Howard W. Geiman.

The Republican State Convention Nominates Carrington For United States Senator

Col. Edward C. Carrington, having been accepted by the Republicans of the State as their candidate for the United States Senate, without a contest in the primary, the State convention, which was held in Baltimore on Monday night, unanimously endorsed and ratified their choice. J. Kemp Bartlett presided over the convention, which adopted a platform that will be found elsewhere in this issue of the Sentinel and is well worth reading.

State Senator Sproesser offered as a separate resolution, the following, which was unanimously adopted:

Resolved, that we hereby ratify the proposal of the Republican National Committee having for its purpose the changing of the basis of representation in future Republican national conventions to the end that they more nearly represent the actual party voting strength in the various states, and that the delegates elected to the national convention according to state laws may be recognized.

Following this the nomination of Col. Carrington was made by acclamation and Messrs. Sproesser, John D. Urie, John H. Cunningham, Adrian Posey and A. J. Bingham, committee appointed for the purpose, retired and returned with the nominee, who spoke at considerable length and, in part, as follows:

About a year ago my distinguished friend, George R. Gaither, whom the Republican party in the past has delighted to honor, said that the Republican party in this state was dying as rapidly as it could. If he were here tonight and saw this gathering of Republicans and former Progressives, he would have to say that this is the livest gathering of ghosts and spectres that ever assembled in political conclave. The Republican party is not dead. In New Jersey it showed that a political resurrection had been accomplished; like in Maine.

The Republican party had its mission in 1854, when it met for its initial convention under the Oaks of Jackson, Mich. It had its mission in 1856, when it held its first national convention and nominated John C. Fremont for the Presidency, at which convention it adopted a resolution repudiating slavery and polygamy. It had its mission in 1860, when it nominated Abraham Lincoln and adopted a resolution guaranteeing a protective tariff for the maintenance of the United States government and for the protection of the American manufacturer, farmer and wage earner. It had its mission in 1896, when it elected William McKinley on a protective tariff platform that repudiated a debased currency proposal, and which platform was subscribed to by the voters of Maryland at the general election, at which a Republican majority of nearly 40,000 was rolled up in this state for McKinley and Hobart. It has its mission in 1914, as it will have in 1916—to wrest control from the Democratic party of the House of Representatives and the United States Senate.

The Secretary of the Treasury has sent out an S. O. S. message to the country to the effect that the banks of the country are unwilling to lend their money —and why? Because the banks of this country, the business men of this country, the farmers of this country have no confidence in the Democratic policies that have been put into effect by the administration in Washington. We do not require more money in this country—we require more confidence— in not only each other, but those who are in charge of the governmental functions of this country. Business interests, both large and small, have no confidence in Democratic policies. If a Republican Senator is elected by the people of Maryland together with a majority of the candidates for the House of Representatives, it will demonstrate to the whole country that the Republican party is reunited and that we are at the threshold of good times and prosperity.

EFFECT OF LOW TARIFF

During the first ten months the tariff was in effect $102,000,000 worth of goods were imported into this country in excess of the amount of the same foreign made goods that were imported into this country during the same period the year previous, and for the ten months the new tariff had become effective the revenues from the tariff had decreased over $30,000,000. In other words, we brought into the country over $100,000,000 of goods over what we had imported the year before and made a present to the manufacturers of Europe of over $30,000,000, which would otherwise have been applied toward the maintenance and support of the United States government, and we have the spectacle of our government passing a war tax in time of peace to make up for a deficit that occurred before the war in Europe broke out.

RECALL OF JUDGES

A word to my Progressive friends who are with us tonight, as to the recall of judges and the recall of judicial decisions. I have always steadfastly opposed these two proposals. In our frontier states "white cap" societies were perhaps necessary instruments to effectuate form of speedy justice in localities where the law did not serve. The recall of judges in California may have been and may be now a necessary instrument of popular relief against the oppression of the ring that for many years dominated California and where political henchmen were frequently elevated to the bench, and, under the masquerade of the ermine carried out the orders of political pirates of San Francisco and California. But in Maryland there is no reason to invoke the principal of the recall of judges or the recall of judicial decisions. Our judges are upright.

The mission of the Republican party is to restore confidence and by restoring confidence bring about the prosperity and good times that obtained in this country after the election of William McKinley in 1896.

Vote for me, not because my name is Carrington, vote for your candidates for Congress, not because those gentlemen from the various congressional districts are labelled Duer, Mudd, Zihlman, Hammond, Janetzke and Heaps, but because they bear the same label that William McKinley bore when he lifted this country from the slough of Democratic despond to the sunny heights of national prosperity.

Let us have, my friends, four more years of the full dinner pail that obtained when Republicans were in control of the White House and the two bodies of our National Congress.

Declaration of Principles

ADOPTED BY THE REPUBLICAN PARTY OF MARYLAND IN ITS STATE CONVENTION HELD IN BALTIMORE MONDAY NIGHT

We, the Delegates of the Republican party of Maryland in Convention assembled, direct the attention of the people of this State to the signal failure of the Democratic Administration to reduce the high cost of living, or to provide effective remedies for the existing prostration of business, and the attendant unemployment of labor. In its vain and misguided attempts to accomplish these highly patriotic and desirable purposes, we charge that the Democratic Administration has passed a "Tariff Law" admittedly designed to remove protection from American industry, resulting on a scale, almost unknown to this country, in the "idle factory" and the "empty dinner pail."

We are opposed to the practice of vivisection upon the great body of American business at the hands of experimentalists and doctrinaires. We charge the National Administration, under the guise of attempted regulation, with enacting unnecessary and oppressive legislation, which has chilled and demoralized industrial activity.

For the first time in fifty years the country finds itself afflicted with War Tax in times of peace. We assert that this tax is to be levied to cover a deficit in the Treasury, a condition which has previously existed only during the second administration of Grover Cleveland, fundamentally due to Democratic extravagance and the defective financial measures of Democratic theorists.

We call the attention of the voters of this State to the fact that while a Democratic Administration is hastening to impose upon us a so-called War Tax of $100,000,000.00, the Democratic Congress, though specially pledged to economy in public expenditures, has already appropriated more than $150,000,000.00 in excess of the amount voted by the preceding Republican Congress. In this connection we lay emphasis upon the fact that by the successful opposition of a determined Republican minority the Democratic appropriation for Rivers and Harbors, familiarly known as the "Pork Barrel" Bill, has been reduced from $53,000,000.00 to $20,000,000.00.

We believe our people are ready again to intrust our Government into the hands of the Republican party under whose guidance our country has hitherto experienced abounding prosperity and our Nation taken its stand in the very front ranks of the most powerful States of the earth.

We reaffirm and declare anew our allegiance to the great Republican policy of protection to American industry, in accordance with which the vast field of American business is conserved for the benefit of the American people, and is not considered as a proper ground for exploitation by foreign capital and alien labor at the expense of the American workingman, the American farmer and the American business man.

We affirm our belief in such liberal advances in legislation and social justice as the just spirit of the times may demand and as are suited to the conditions and requirements of our people.

We favor the exemption from the payment of Canal tolls of American vessels engaged in Coastwise commerce. We condemn the Democratic party for having broken faith with the American people upon this important issue. We favor every legitimate encouragement to our struggling merchant marine.

We condemn the so-called Colombian Treaty proposed by the Democratic Administration, not only as a sacrifice of National dignity and as an unrighteous expenditure of the public funds, but also as an unmerited slur upon the integrity of a former Republican Administration.

To starve the Railroads is to starve the Nation and we believe that the deplorable condition of the Railroads of the country calls for relief through the proper Governmental Agencies, fully without stint, freely without delay, for the benefit of the Railroads as public carriers and for their hundreds of thousands of employes.

It is with a feeling of pardonable pride that we point to the Administration of our Republican Governor, Phillips Lee Goldsborough, as being one of the most successful in the history of our State; and we affirm with confidence that no preceding Administration in recent years has exceeded it in the accomplishment of results so generally beneficial to the people of our Commonwealth.

We commend to the people of Maryland as our candidate for United States Senator Edward C. Carrington, Jr., a man now entering the prime of life, characterized in an unusual degree by mental and physical energy, and peculiarly qualified by the possession of those attributes of mind and character which will enable him to fill with distinction the exalted office for which he has been nominated.

Our candidates for Congress from their respective Districts are men of unquestioned ability and undoubted integrity, successful in the various fields of endeavor in which they have been actively engaged, who will represent this State in Congress in a manner creditable to themselves and satisfactory to our people.

The railroads are talking of making a charge for transporting baggage. It is hoped they don't make any extra charge for smashing trunks

Teachers should not expect the children to be punctual in getting to school. They might acquire the unpopular habit of getting into the theater or the church on time.

BOSSOM—SHIPLEY

On the Sunday evening, September 27, Mr. Vaughn W. Bossom, of Arcadia, and Miss Myrtle G. Shipley, of Patapsco, were quietly married at the home of the bride. The bride was beautifully attired in white, while the groom wore the conventional black. Those present at the wedding were just the members of the immediate families. The groom is a carpenter by trade, and works in the city of Baltimore. The happy bride and groom expect to go to Baltimore to live. After the ceremony all were invited to the dining room where was a table very heavily loaded with such things that go to maks a sumptuous wedding supper.

The marriage ceremony was solemnized by the Rev. John H. Gonso, pastor of the Church of God at Carrollton.
