West Point April 8th 1827

I think that I was under trial of the Court Martial which I mentioned to you some time ago, I am happy to be able to remove from you all such suspicions, by assuring you that there is not the least possible probability of my being tried I am truly mortified to see that you should for a moment suspect me, or any one my age to entertain into a thing such as that for which this Court was convened. I cannot conceive from what such a suspicion could have originated and should be very much gratified if you would inform me of the if there should possibly be gentleman who has made himself so busy as to concern himself about me and particularly so in making out to you incorrect statements, Indeed I cannot conceive how it is possible you could have formed such an idea unless by means of some such character. You also appear to think that Dic Pilgrim is implicated so far was he from being so that he was not on the Post when the affair took place I am very sorry that you mention it to Dic' family it putting them to so much uneasiness about nothing rather did I suppose you would mention it
