SUCCESS OF THE BUDGET

One notable fact about the recent Congress which some may have overlooked, was that it kept within the appropriations for the next fiscal year asked by the federal budget bureau.

There have been many pessimistic predictions, and many have felt that Congress would never adhere to the

THE NEWSPAPER

It is a wonderful thing in American journalistic development, that the 16,-000 newspapers published in this country penetrate almost every home. There was a time within the mem-

The majority of business men car not afford to hire salesmen to go around from house to house. Even if they did, they would usually find the men away from home, and the women too busy to listen.

But they can put the statements that they wish to get over, into advertising form in a newspaper, and reach the masses very thoroughly.
