### GOOD BUSINESS METHODS

in for the fiscal year recently closed, shaken. To avoid all that ordeal or town system, we must take care of suggests that these better methods they decide to quietly slip off and do this complicated mechanism, and rewhich the people have so long de- the deed and get the forgiveness member that it can only run as it is manded, have been introduced more afterward. than is realized.

income tax receipts for the fiscal year | all the benefits those young people | 1925 have fallen off only about four have received, it is up to them to be per cent as compared with the 1924 very kind and considerate to those receipts, in spite of the large reduc- who have showered these blessings tions in rates of taxation that were on them. made by the new law.

This high level of receipts has been due to two causes. First, a wise attitude toward business on the part of the administration, has stimulated enterprise and has kept the earnings of the industries at a high level. thus making possible large tax collections. The country has been prosperous, and the revenues reflect this well being.

Also these returns indicate the position taken by President Coolidge

"and secteral Malbrout," chathene tates of income taxation formerly existing were so high as to lead people shift their funds into exempt investments. The load was relieved to a to be given. considerable extent by the new tax law, and the result must have been to encourage people to keep their money which the more modern education is be held responsible for, they would in tax paying investments.

These returns would lead to the hope that the further reduction taxation which the administration asking for, will not reduce the revenue so much as one would think, as the result will no doubt be to induce still high rank. But such ones were not But rooms in which 50 pupils are more people of large wealth to take their money out of exempt investments, and put it back into industry where it will both employ labor and pay taxes.
