that in his home place it seemed as

sensational. After they get home, he remarked they do not commonly settle down to read in an intelligent way, but they are apt to so out to some show or dance, or perhaps play cards. Not many folks in his city, he clained will sit down to read a newspaper carefully in the old fashioned way.

Such conditions do not exist in a community like Westminster where the newspapers are read in the homes. People apparently read them here just as carefully as ever, particularly as they go to school longer and know more of what is going on in the world.

That is one reason why cities like Westminster are governed much better than the big centers of population, where people do not have time to read things that call for reflection. will soon come when people can not Consequently it is possible to put things over on them. NE can't feel well when there is a retention of poisonous waste in the blood. This is called a toxic condition, and is apt to make one tired, dull and languid. Other symptoms are sometimes toxic backaches and headaches. That the kidneys are not functioning properly is often shown by scanty or burning passage of secretions. Many people have learned the value of Doan's Pills, a stimulant diuretic, when the kidneys seem functionally inactive. Everywhere one finds enthusiastic Doan's users. Ask your neighbor!

99 Per Cent

It has been stated as a matter of statistics that money carried in a bank account is ninety-nine times safer than money carried about the person, in the home or office, or secreted in some silly way.

THIS fact is commended to the attention of timid individuals. Back of money carried in a commercial account here are the entire resources of this bank and the protection afforded by banking laws and banking inspectors.

Why not deposit your money with this bank?
