"Toxic?"

It Is Well, Then, to Learn the Importance of Good Elimination.

> UNCTIONAL inactivity of the kidneys permits a retention of waste poisons in the blood. Symptoms of this toxic condition are a dull, languid feeling, drowsy headaches and, sometimes, toxic backache and dizziness. That the kidneys are not functioning as they should is often shown by scanty or burning passage of secretions. Many readers have learned the value of Doan's Pills, stimulant diuretic to the kidneys, in this condition. Users everywhere endorse Doan's. Ask your neighbor!
