DeCOURSEYS PATENT

Fly and Mosquito Bar. THIS novel and valuable invention is designed for protecting Picture Frames, Oil Paintings, Mantel Mirrors, Pier Glasses, etc., and excluding from bed-chambers and other apartments those ever perplexing pests, FLIES

and MOSQUITOES. The invention is so ingeniously contrived that it can be applied to Windows without the aid of wooden frames. Thus reducing the price of the article more than one half of that of the ordinary Mosquito Bar. With DECOURSEY'S PATENT BAR on

the Windows, it is impossible for Flies or Mosquitoes to enter a room, thus doing away with the necessity of using Nets on beds. We respectfully solicit a call and an examination of our samples.
