aturday, Nov. 7, 1808

The Election in Lient. We give below the result of the elec " tion in this county on Tuesday. It will be seen that the total vote cast was only 1,599, being 461 less than the registration. Of this number, 1,332 were cast for Seymour and Blair, and 266 for Grant and Colfax - democratic majority 1,066 Had the full vote of the county been cast it is believed that the democratic majority would have been at least 1,400. The small vote is attributable mainly, we sup pose, to two causes, namely, that the State was considered certain for the democratic candidates by a large majority, and that the Presidential contest was virtually settled by the result of the recent State elecions. It seems impossible, however, to get our people to the polls unless there is a local officer of some kind to be elected. We despair ever seeing a full vote polled

sgain until the law is re-enacted requir-

ing constables and road supervisors to be

Grant.

elected by the people.
