Of Thine own sinless land !

FRUITS OF THE "WICKEDEST MAN" This farm is positively for sale, and will be MOVEMENT.-It has generally been thought place in the low quarter of Water street, New York, some time ago, and which unearthed the so-called "wickedest man" that city, had finally subsided without fruit. But Mr. Oliver Dyer, in the last number of Packard's Monthly, gives the result of the revival in that locality last year, which may be summed up as follows: Since the opening of the mission one bundred and three girls have sought refuge there. Of these twelve have relapsed into drunkeness and vice: thirtyeight have been sent to other institutions fifty-three are now in situations as domes tics, and doing well, and twenty-eight o the latter have become Christian women. Thirty-eight applications were made for assistance by girls whose efforts at reform were of such short duration as to be considered unimportant. Five of those situations as domestics have been in service six months; eight five months; six four months, and eight three months, and their employers testify that, except in a few cases, they are obedient and faithfu while in some cases they exhibit traits

We have been somewhat in a state matter of some consequence here. It conpresent; and several negro delegates from Washington. Their admission as me morning they arrived one of the negroes asked, "Is dat Black Rock church?"-Upon being told it was, he replied, "I'se seen blacker looking churches dan dat many a time." It seems he was not aware

that "Black Rock" is the name by which

that section of country is designated. The meeting lasted three days, but the 20th was the "great day of the feast." Early in the morning the roads leading to the church were lined with vehicles, varying in style from the handsome carriage on. Youth and beauty abounded, and all seemed to have quite a jubilee. Eleven sermons were preached—all strictly proscriptive. Every other denomination was denounced; and those who differed from them in belief were branded as "hypocrites and idolaters." Rev. Mr. BeeBee, editor of the Signs of the Times, imparted some information which will be doubtless news to your readers, viz: the cause of the late civil war. He said that "the boards of Missions, the Sunday schools and other efforts that have been made to evangelize (so-called) the world, have been so wicked and productive of so much evil, that they provoked the Almighty to wrath, and this

war was sent as a punishment for suc May I whisper into your confidential ear that a liberal supply of whiskey is necessary for the entertainment of the ministers of this church? The members were boasting publicly that their ministers are fond of whiskey, and "don't go behind the door

At a sacramental meeting here some very careful to inform the congregation that he "had no food for the goats;" he "fed only the sheep; and the sheep were was present and concluded he must be a goat, and consequently did not commune. After communion a collection was taken up, when uncle A. whispered to a neighbor, "They won't feed the goats, bu they'll milk 'em." I don't know whether there were any converts to the faith at th Association, but there have been no immersions as yet.

The country now looks beautiful; nature is handsomely dressed in a robe of wild flowers attract the passer-by. There the oats are backward. There were about fifteen ministers people on the face of the earth, no maiter of what nationality, suddenly disenthralled from centuries of bondage, would not lose bers elicited considerable discussion. The all taste for the plain, beaten track of humble daily labor by having their minds filled with such intoxicating visions? The radical emissaries drug them with such ideas for their own partisan purposes. They use them as mere machines to sow and harvest political crops, and thus it is that the large amount of bone and sinew which still remain in the South is rendered unavailable to anything like the capacity required for material development .--In a like spirit days of election have been appointed without any reference to the to the common white-covered market wag- convenience of the agricultural population, taking off the laborers from their work at the very time when their services were most needed. It is this defect in the quality of labor, produced by these deteriorating agencies, which has induced the South to look to emigration to supply its defi-

THE ALTITUDES OF THE PACIFIC RAIL-ROAD .-- A sketch of the Pacific railroad

"The question of altitudes is one of the most interesting connected with the construction of this great work. The initial point of the Union Pacific at Omalia L 937 feet above tide water, and Chevenne, at the base of the Black Hills, 517 miles west of Omaba, is 6,062 feet. The difference in elevation between these twi points is, therefore, 5,095 feet, or an average of about 10 feet to the mile. Sher man, at the summit of the Black Hills. 8,262 feet above the level of the sea, th ascent from Chevenne westwardly being pearly 69 feet to the mile. The west ward descent of the Black Hills is in striking contrast to this, Echo Canon, 423 time ago the officiating clergyman was miles distant from the summit, being 6, 333 feet above sea level. The summit of the Sierras, on the line of the Central Pacific, is 7,042 feet above the sea. all Old School Baptists." Old uncle A. When the question of the road over these mountains began to be seriously mooted. it was doubted if a railroad could be operated at the height to which it would be necessary to carry it. The atmosphere it was believed, would be rarified to sue an extent that there would not be sufficient oxygen left to support combustion. Even if fuel could be induced to burn after much persuasion, it was declared that water would be converted into steam at so low a temperature as to lose its expansive fresh, delicate green, and the numerous force, and upon this theory a prediction was predicated that the locomotive would is a fine prospect for a large wheat crop; stand still in its tracks, or rush backward down the steep ascents, urged by its own have an abundance of young fruit well set. weight. But, somehow or other, these scientific theories came to naught, and the iron horse of the Black Hills rushes to meet the iron horse of the Sierras, and to day they meet on the confines of the Great

> ARCUIR and Tom sparked the same girl. One night Archie called on her and found her alone. After some conversation, he burst out with: "Miss Mollie, do you think you could leave this com fortable home, kind father and mother loving brothers and sisters, and go to the far West with a young man who has little to live on save his profession?" Miss Mollie laid her hand gently on Archie's shoulder, with her eye's about half closed her ruby lips slightly apart, and said softly: "Yes, Archie, I think I could."-"Well," said Archie, "my friend Tom i going West, and wants to marry. I will mention it to him."

> STRAWBERRY WINE .- According to the Practical Farmer, three quarts of strawberries make one quart of juice. Add three quarts of water and three pounds of the best sugar. Use a clean, sweet cask, and leave the bung out for fermentation. When this subsides, close tight, and the wine is ready for use. "It will keep ten years and more if it can be secured from depredation, which, on account of its attractive qualities, has been found a very
