QUALITY AND CONDITION. FINE quality of this Guano is materially improved this season by the addition to its composition of a large per cent. of the Salts of Potash.

It is improved in condition by being broughtinto market sufficiently dry and uniformly fine to pass with facility and regularity through the orifices of the

WHEAT DRILL. More than \$1,000,000 is involved in the pre- Beautiful CHINA & GLASSWARE duction of this Guano, and the trade in it has stendily increased, until now it far exceeds

that of any other fertilizer. The Pacific Guano Company has a far greater interest in the maintenance of the quality of its Guano than any number of consumers can have; hence no apprehension need exist as to its con-

tinued excellence. JOHN S. REESE & CO., No. 10 SOUTH STREET, (2D FLOOR,) jy30-3m. Baltimore.
