FANNING MILL.

NINETEENTH CENTURY!

HHE attention of Farmers and Mechanics is L particularly directed to the combined economy, utility and practicability of the Eureka Mill, and to the many other advantages it possesses over every other Fanning Mill which has been introduced to the public It is the fruit of long and patient investigation by the inventor, who has made it his constant study for over twenty years. He has secured several patents for Mills, and has always been rewarded with the best of success. FAIRBANKS, BROWN & CO., But not feeling satisfied with his former attainments, he determined to reach the climax, and he now believes that his new invention wil warrant him in exclaiming in the joy of his heart, like the philosopher. Phythagoras-EUREKA!-signifying in the Grecian lan-

> the name to this new Mill. In this Mill are all the former improvements to which have been added several more, adding still greater advantages than were at first anticipated, or even thought possible by the inventor himself. It embraces the three great essentials necessary in every invention : It combines ECONOMY, UTILITY and PRACTICABILITY!

> guage, "I have found it." This has given

tion was recently called to this Drawer, and Is small and lighter, and is capable of doing

office, with a good deal of confidence that it is IT IS THE ONLY MILL s made of black walnut, the lock of annealed | that will successfully remove from wheat all Should an extra quality of grain for seed or of: for nearly one quarter of the grain cleaned in the common Milis is lost when sown, on account of shrunken kernels and inferior grain The Eureka Mill saves all this, and gives seed every kernel of which will grow when put into the ground, and this saving will, in a short time, pay for the Mill.

> Chestertown, Maryland, Owners of the Mill, are having them manufactured at the Sash Factory and Planing Mill of Noland & Co., Port Deposit, Md., which is a guarantee that they will be put up in the best
