THE CARE OF FARM STOCK. As winter is approaching, we desire to say a few words to our farmers in regard to the careful housing of their stock. Any reasonable expense that may be incurred in affording the cattle additional SPECIAL ATTENTION is called to our warmth, will be more than repaid in the satisfaction of seeing them comfertable, FOR CUTTING OFF CORN. with sleek coats and bright, healthy eyes, They are Light, Durable and Cheap, and canwhilst by the smaller quantity consumed | not fail to give satisfaction. the cost of keeping the stock through the winter will be greatly lessened. It is BLACKSMITHING, &c. well known to many farmers of experience, that if no shelter is given, or if Carriage and Machine Smithing-Repairing the sheds and stabling are open and cold, the stock will be compelled to draw upon prices, with seasoned lumber. Farm, Peach Green Ginger, White and Black Mustard Seed the fat accumulated during the summer order. Everything needful for the farm. and autumn, and as this is exhausted the vital heat is lessened. Warmth, in point of fact, is equivalent to additional food. If the warmth is not given by the temperature in which the animals are kept, KENT CO. RAILROAD Notice to Farmers it must be supplied by the food they eat. If they suffer from cold or insufficient food, they come out in the spring in such Time Table....Summer Arrangement. poor condition that a considerable part of the season is lost before they recover | On and after MONDAY, MAY 1st, 1871, PRICES. We have a fine stock of their proper condition. Feeding during for FREIGHT AND PASSENGERS between the winter liberally with heat-producing | Worton Station and Townsend, where close o won hand, which we are selling at very lo food, such as oil cake, brewers, grains aware Railroad, and run as follows until furand Indian corn, though it will turn out ther notice: the stock in good condition at the close of Leave Worton the winter, even in spite of poor accommodations, is too costly a process to be advantagaously adopted. It is what, however, many feel obliged to do in con-

stock is subjected. We propose to consider briefly the effects of temperature on cattle, from experiments that have been made. In one experiment it was found that ten days' feeding at forty-one degrees of the temperature produced a loss in weight, in two cows, of twenty-two pounds,. Ten days' similar feeding at fifty-six degrees show- Stage to Chestertown 2.00 " ed on increase in weight of thirty-five fifty-nine degrees showed a loss of six pounds, and ten days at sixty-five degrees a loss of thirty-three pounds. From th the same results. In both instances moderate temperature of fifty-six degrees the cows improved in flesh greatly. The following experiment practically demonstrates the correctness of the position we have taken:

sequence of the exposure to which their

"An experiment made by Lord Ducie shows that one hundred sheep were fed, the evening, will be called for. All packin a shed, twenty pounds of Swedish paid for. turnips each per day; another hundred in the open air or field were fed twenty- to Philadelphia \$ 3.30. five pounds each; and yet the former, on one-fifth less food, at the end of a few

"Five sheep were fed in the open air between the 21st of November and the The AMERICAN WASHER Saves Money. 1st of December, consuming ninety pounds of food per day, the temperature being at fourty-four degrees. At the end of this time they weighed two pounds less than when at first exposed. Five sheep were chine, a few of the invaluable qualities, (not then placed under a shed, in a tempera- possessed by any other washing machine yet

hair. Faded or gray with the gloss and

by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted
