THE EUREKA

NINETEENTH CENTURY! . B . HE attention of Farmers and Mechanics is particularly directed to the combined

Eureka Mill, and to the many other advantawhich has been introduced to the public stant study for over twenty years. He has secured several patents for Mills, and has al- Hickok ways been rewarded with the best of success. But not feeling satisfied with histormerattainments, he determined to reach the climax, and he now believes that his new invention will

the name to this new Mill. In this Millare all the former improvements | jy30. to which have been added several more, adding still greater advantages than were at first anticipated, or even thought possible by the inventor himself. It embraces the three great assentials necessary in every invention : It combines ECONOMY, UTILITY and

PRACTICABILITY!

Is small and lighter, and is capable of doing DRY GOODS, more and better work in a given time than any other Mill ever invented. IT IS THE ONLY MILL that will successfully remove from wheat all such pests as Cockle, Garlie, Oats, Rye, &c. Should an extra quality of grain for seed or HARD WARE, gristing purposes be required, it can be so arranged as to catch in one box perfect grain, and in the other, grain fit for market or mill. Here is made a great saving usually lost sight of: for nearly one quarter of the grain cleaned GROCERIES, in the common Millsis lost when sown, on account of shrunken kernels and inferior grain
