A CONGRESS OF WOMEN. -To afford an opportunity for interchange of thought and action among women interested in the advancement of their own sex, a call has been issued for a congress of women to be held in the city of New York. At this nference there will be founded an asso- THOMPSON, ciation for the advancement of women, a the annual gathering of which shall be esented the best idea and most advantageous methods of the foremost thinkers and writers. Representatives of all accordant associations of women, teachers, artists, editors, authors, trading capitalists, lawyers, professors, preachers and praccal philanthrophists will be present. this gathering they have already been asared of the attendance and best efforts of a large number of the women who, by Abdominal Supporters, cans of a higher education, broader fields of industry, better laws, artistic and scientific pursuits, business discipline and enlightened motherhood, hope to remove the sources of misery and cure the evils that so many of our benevolent women spend their lives in ameliorating. There are already one hundred and fifty signers to the call, many of them women known throughout the country.

The Line Sharply Drawn. While the Conservative party has its doors always wide open to everybody who may choose to come in, in good faith, it has nevertheless, no compromises to make Paints, Oils, Varnishes, Dye Stuffs, WHITELOCK & CO.'S, with Radicalism. The line between the two parties is sharply drawn. Their policies are as distinct the one from the other as darkness from light. On this side all are white men; on that side there are but few who are not negroes. We are aiming to retain the State government i the control of our race: they are aiming to transfer it to their own and to those who control their own race. The issue is clearly defined. The negro votes against the white man. The white man must who stands on the black side stands wit the black men; he who stands on th Notice to Farmers white side stands with the white men. And there is no middle ground between them .- Richmond Enquirer.

The Conservative party of Virginia should not hesitate one moment. The only safety for all the people from being | with everything in my line of businessat CITY lundered as ruinously as Florida or Lou- PRICES. We have a finestock of isiana, is in the union of the white votes and the defeat of the negroes and their white allies at the polls. The surest road gures. A good stock of to safety is the combination of the white race. The negroes themselves ought to have discovered this before this time .- | and SPURS of all kinds. Wherever they have given success their votes to the carpet-baggers, injury to all classes has resulted.

MR. ISAAC COLE, Baltimore, writes: had a distressing Cough, which annoyed at the shortest notice. me day and night. I was persuaded to use Dr. Bull's Cough Syrup, and its effect was magical. I am entirely cured. I know others that used it with the same happy results.

THE EUREKA TO THE VOTERS OF THE SECOND FANNING

> THE GREATEST INVENTION OF THE NINETEENTH CENTURY!

'E'HEattention of Farmers and Mechanicsi A particularly directed to the combined economy, utility and practicability of the Eureka Mill, and to the many other advantages it possesses over every other Fanning Mill which has been introduced to the public It is the fruit of long and patient investigation by the inventor, who has made it his constant study for over twenty years. He has secured several patents for Mills, and has always been rewarded with the best of success. But notfeeling satisfied with histormeratinin. ments, he determined to reach the climax, and he now believes that his new invention wil warrant bim in exclaiming in the joy of his

EUREKA!-signifying in the Grecian lauguage, "I have found it." This has given the name to this new Mill. In this Millare all the former improvements to which have been added several more, adding still greater advantages than were at fret anticipated, or even thought possible by the inventor himself. It embraces the three great assentials necessary in every invention : sesses, or before the day of the next general It combines ECONOMY, UTILITY and PRACTICABILITY!

beart, like the philosopher, Phythagoras-

not disqualified under the provisions of the THE "EUREKA" MILL Is small and lighter, and is capable of doing more and better work in a given time that any other Mill ever invented.

IT IS THE ONLY MILL that will successfully remove from wheat all such pests as Cockle, Garlic, Oats, Rye, &c. Should an extra quality of grain for seed or gristing purposes be required, it can be so arranged as to catch in one box perfect grain, and in the other, grain fit for market or mill Here is made a great saving usually lost sight of ; for nearly one quarter of the grain cleaned in the common Millsis lost when sown, on account of shrunken kernels and inferior grain The Eureka Millsaves allthis, and gives seed every kernel of which will grow when put

nto the ground, and this saving will, in a year, for the purpose of discharging their du- HINES & BURCHINAL. Chestertown, Maryland, Owners of the Mill, are having them manufactured at the Sash Factory and Planing Mill of
