PICKING THE EAR.

to do this with hard substances, an un- critter had got in here!" drum; nothing sharper or harder than the sworn. end of the little finger, with the nail pared, ought ever to be introduced into the ear. unless by a physician.

head of a pin; this ought never to be done; Yes, triumphantly exclaimed the actor; first, because it not only endangers the just step up this way, sir, The young rapture of the ear by being poshed far in, man sat down. but if not so far, it may grate against the drum, excite inflamation and an ulcer, in all specifics, when so many worthless which will finally eat all parts away, es- medicines are advertised for the cure of pecially if a scrofulous constitution; second, hard substance have often slipped in and caused the necessity of painful operations to fish or cut out; third, the wax is trance from dust, insects, unmodified cold air, and when it has subserved its purpose it becomes dry, scaly, light, and in this condition is easily pushed outside by new formation of wax within.

Occasionally wax may harden and may interfere with the hearing; but when this is the case, it is the part of wisdom to con sult a physician and let him decide what is the remedy; if one cannot be had the only safe plan is to let fall into the ea three er four drops of tepid water, night and morning; the saliva is better still, for it is softer and more penetrating, but glyc- to your Druggist, STAM & BRO., or T. W erine is far preferable to either; it is one of the blandest fluids of Nature, and very or a regular size for 75 cts. rapidly penetrates the hardened wax, cools If in a week there is not a decided improvement in the hearing, medical advice ought to be had at once; as next to the eye, the ear is the most delicate oagan in the body.

THE DIARY OF A RESURRECTIONIST .-The Washington Star publishes the diary of a resurrectionist named Christian, lately captured in that city, pursuing his disusting calling. The document shows the holesale extent to which he had carried on his business of robbing graves for dis-It seems by this diary and the LU letters accompanying it that Christian, under various aliases, was in corresponcountry for the supply of "cadavers," and that he had made very complete arrangehim and give him personal aid, with a division of the proceeds of the business. The diary covers the whole of 1873 up to December 8th, and contains the record of over a hundred successful raids on graveards, including an account of the violation of Beau Hickman's grave, Sept. 2d. The prisoner had upon him at the time of his arrest a certificate of membership in the Young Men's Christian Associatio though, of course, that association had not the slightest reason to suspect the nuture of the "active" night work he was

THE PERUVIAN GUANO SUPPLY .- The Peruvian guano deposits are likely to last rany years, notwithstanding the heavy lemand. In 1853 the Chincha Islands were supposed to contain eight years' con- SHINGLES. amption. The fact that they did not give out until 1871 shows the difficulty of stimating guano deposits. In 1870 the scabi and Guanape Islands were estimaed to contain 2,248,900 tons guano. The scial returns since the survey show that ertaining the entent of the supplies of

"Not if you return me the money now

could be well to remember that all the my instructions, I will nevertheless give thinking which bears fruit is systematic you back £500."
thinking. Many a young man imagines "My uncle is very good," remarked imself to be thinking when he is merely the young man, and he forthwith handed day dreaming. Thinking implies an ac- from his pocket book uine £1,000 notes

"I cannot change one of these," said order; not a passive condition in which Mr. Bacon; "will not my check do as "Quite," replied the German; and Self-Threading Shuttle - Simplicity.

That systematic thinkers are so few is his check, but that was already cashed. Shuttle. attributable in a great degree to early bad He then telegraphed to his Hamburg cortraining. Not one teacher in fifty in our respondent, and learned that he was proprimary schools deem it of importance to foundly ignorant about the whole affair. | ward, it does no harm and breaks no threads teach children how to study and a less It was as adroit a fraud as was ever or needles.

Sharp on a Sharper.

William, who was considered a fool, think is study. In other words, study is screwed up his face and looking thoughtto them the teaching of the lips to move ful, and somewhat bewildered, answered,

"Mr. Judge," said the fool, "may I

ax the lawyer a question?" "Certainly," said the Judge.

"Well, then, Mr. Lawyer, who do you "Aaron, I suppose," said Counselor Chestertown, Md. Gray, imitating that witness.

After the mirth had somewhat subsided, the witness drawled out "Well, now, FALL and WINTER! Dr. Hall says "picking the ear" is a we do read in the book that Aaron once most mischievous practice, in attempting made a calf, but who'd a thought the

L particularly directed to the combined economy, utility and practicability of the owon hand, which we are selling at verylow Eureka Mill, and to the many other advanta- gures. A good stock of gesit possesses over every other Fanning Mill which has been introduced to the public It is the fruit of long and patientinvestigation by the inventor, who has made it hisconstant study for over twenty years. Hehas secured several patents for Mills, and has always been rewarded with the best of success. But notfeeling satisfied with histormerattainments, he determined to reach the climax, and he now believes that his new invention wil warranthim in exclaiming in the joy of his heart, like the philosopher, Phythagoras-EUREKA! - signifying in the Grecian language, "I have foundit." This has given the name to this new Mill. In this Millare all theformerimprovements

to which have been added several more, adding still greater advantages than were at first anticipated, or even thought possible by the inventor himself. It embraces the three great essentials necessary in every invention : It combines ECONOMY, UTILITY and PRACTICABILITY! as can be obtained elsewhere.

THE "EUREKA" MILL Issmall and lighter, and is capable of doing more and better work in a given timethan any other Mill ever invented.

IT IS THE ONLY MILL HARDWARE, that will successfully remove rom wheatall such pests as Cockle, Garlic, Oats, Rye, &c. Should an extra quality of grain for seed or GROCERIES, gristing purposes be required, it can be so arranged as to catch in one box perfect grain, Here is made a great saving usually lost sight of : for nearly one quarter of the grain cleaned in the common Milisis lost when sown, on account of shrunken kernels and inferior grain. The Eureka Millsaves allthis, and gives seed every kernel of which will grow when put nto the ground, and this saving will, in a horttime, pay for the Mill.

HINES & BURCHINAL. Chestertown, Maryland, Owners of the Mill, are having them manufactured at the Sash Factory and Planing Mill of Noland & Co., Port Deposit, Md., which is a guarantee that they will be put up in the best
